II. Further Information

On January 10, 2014 (79 FR 1900), the NRC published a request for public comment on draft NSIR/DPR-ISG-02, "Emergency Planning Exemption Requests for Decommissioning Nuclear Power Plants." This document is being developed to assist NRC staff in the review of requests for exemptions from specific emergency preparedness regulations and license amendments for defueled station emergency plans submitted by nuclear power plant licensees after permanent cessation of plant operations.

The public comment period was originally scheduled to close on March 11, 2014. By letter dated February 20, 2014, the Nuclear Energy Institute requested a 30-day extension to the public comment period. Additional time was requested in order to incorporate comments that might result from the NRC's public meeting scheduled for March 6, 2014, concerning NSIR/DPR-ISG-02. The NRC has decided to extend the public comment period on this document to allow more time for members of the public to use information from the March 6, 2014, public meeting to develop their comments. The deadline for submitting comments will be extended to April 10, 2014.

Dated at Rockville, Maryland, this 28th day of February 2014.
