Synopsis

By this document, we extend the deadline for filing reply comments in response to the *NPRM* in WT Docket No. 13-301 to allow parties to more thoroughly address the technical issues raised in the *NPRM* and in the record. Interested parties now will have until May 16, 2014, to file reply comments.

On February 28, 2014, AeroMobile Communications Limited ("AeroMobile") and Panasonic Avionics Corporation ("Panasonic"), jointly, and CTIA—The Wireless Association ("CTIA") filed requests to extend the reply comment deadline in response to the *NPRM* by 60 days, to May 16, 2014. The Joint Motion and the CTIA Request contend that this extension is warranted for parties to properly address the complicated technological, legal, and policy issues raised by the *NPRM* and the initial comments. The Joint Motion and the CTIA request also assert that the additional time will provide various stakeholders—including AeroMobile, Panasonic, and CTIA—ample opportunity to consult with each other on technical issues.

Specifically, the Joint Motion states that more time is necessary for consultations regarding "the technical studies and authorization regime supporting in-flight mobile communications in Europe and

elsewhere.” The Joint Motion also notes that an extension of time would “enable interested parties to consider comments submitted in other proceedings, including the Department of Transportation Advance Notice of Proposed Rulemaking seeking comment on voice services onboard aircraft.”

The CTIA Request similarly states that an extension is needed so that parties can “conduct much needed interference and other technological analyses, consider other existing studies beyond those discussed in the *NPRM*, and follow up on questions and issues sparked by commenters who discussed the inflight systems that have been deployed abroad.” The CTIA Request also notes the large number of comments that have been filed in the docket, stating that “[t]he Commission should strive to ensure that the record contains a meaningful opportunity to contribute input into this highly watched rulemaking.”

It is the general policy of the Commission that extensions of time shall not be routinely granted. However, under these circumstances, we agree that an extension of time to file reply comments is warranted to ensure that the Commission obtains a complete and thorough technical record in response to the *NPRM*. The *NPRM* specifically sought comment on technological solutions that may enable interference-free operation of wireless devices aboard airborne aircraft, and requested that commenters provide technical analysis in support of their comments. We conclude that a short extension of time is warranted to enable interested parties sufficient opportunity to review and respond to the complex technical issues raised by the *NPRM*. Accordingly, pursuant to § 4(i) of the Communications Act of 1934, as amended, and § 1.46 of the Commission’s rules, we extend the deadline for filing reply comments until May 16, 2014.

Federal Communications Commission.

Roger Sherman,

Chief, Wireless Telecommunications Bureau.

[Docket No. 131030919–4173–01]

RIN 0648–BD73

Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Northeast Multispecies Fishery; Reporting Requirements; Unused Catch Carryover

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS is proposing two actions in this rulemaking: A requirement for daily Vessel Monitoring System (VMS) catch reporting for vessels declared to fish in the Eastern U.S./Canada Area; and the *de minimis* amount of unused fishing year (FY) 2013 sector annual catch entitlement (ACE) that may be carried over, beginning in FY 2014, without being subject to potential accountability measures. The revision to the reporting requirement is necessary to better ensure accurate and timely Eastern U.S./Canada Area catch reporting for quota monitoring purposes. The proposed *de minimis* carryover amount is necessary to complete the carryover process NMFS described for FY 2014 in conjunction with the May 2013 rulemaking for Framework Adjustment 50 to the Northeast (NE) Multispecies Fishery Management Plan (FMP). The intended effect of these actions is to inform the public and solicit public comment on NMFS’s proposed measures.

DATES: Comments must be received by April 16, 2014.

ADDRESSES: You may submit comments on this document, identified by NOAA–NMFS–2013–0179, by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/ #!docketDetail;D=NOAA-NMFS-2013-0179, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.
- **Mail:** Submit written comments to John K. Bullard, Regional Administrator, National Marine

Fisheries Service, 55 Great Republic Drive, Gloucester, MA 01930.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will general be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous). Attachments to electronic comments will be accepted in Microsoft Word, Excel, or Adobe PDF file formats only.

Copies of Framework 50 and its associated documents, including the environmental assessment (EA), the Regulatory Impact Review (RIR), and the Final Regulatory Flexibility Analysis (FRFA) prepared by the Council and NMFS are available from John K. Bullard, Regional Administrator, NMFS Northeast Regional Office (NERO), 55 Great Republic Drive, Gloucester, MA 01930. The previously listed documents are also accessible via the Internet at: <http://www.nero.noaa.gov/sfd/sfdmulti.html>.

FOR FURTHER INFORMATION CONTACT: For information on the Eastern U.S./Canada Area reporting requirements in this rule contact Liz Sullivan, Fishery Management Specialist, phone: 978–282–8493. For information on the unused ACE *de minimis* carryover amount, contact Mike Ruccio, Fishery Policy Analyst, phone: 978–281–9104.

SUPPLEMENTARY INFORMATION:

1. Background

Eastern U.S./Canada Area Daily VMS Reporting. Prior to FY 2013, the regulatory text for the catch monitoring/attribution program for Georges Bank (GB) cod and haddock required that all GB cod and haddock caught on a trip in which a vessel fished in both the Western and Eastern U.S./Canada Areas be attributed to the Eastern Area. In practice, we attributed catch of these stocks to areas fished based on our understanding that Amendment 16 to the FMP intended this result, and that the regulatory text was inadvertently left unchanged from pre-Amendment 16 measures.

In commenting on a proposed rule (78 FR 18188; March 25, 2013) that included a measure to correct this inadvertent language holdover, the New
