

their counsel or representative) must apply for and receive a digital ID certificate before a hearing request/petition to intervene is filed so that they can obtain access to the document via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC Meta System Help Desk through the "Contact Us" link located on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>, by email to MSHD.Resource@nrc.gov, or by a toll-free call at 866-672-7640. The NRC Meta System Help Desk is available between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday, excluding government holidays.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852, Attention: Rulemaking and Adjudications Staff. Participants filing a document in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket which is available to the public at <http://ehd1.nrc.gov/ehd/>, unless excluded pursuant to an order of the Commission, or the presiding officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home phone numbers in their filings, unless an NRC regulation or other law requires submission of such

information. However, a request to intervene will require including information on local residence in order to demonstrate a proximity assertion of interest in the proceeding. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

Dated at King of Prussia, Pennsylvania, this 11th day of March 2014.

For the Nuclear Regulatory Commission.

Marc S. Ferdas,

Chief, Decommissioning and Technical Branch, Division of Nuclear Materials Safety, Region I.

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

Interagency Funding for Research and Engineering Projects Conducted by Federal Researchers

AGENCY: Office of Science and Technology Policy.

ACTION: Notice of Request for Information.

SUMMARY: This Request for Information (RFI) solicits input from the public regarding interagency research awards via competitive grants, contracts, or other vehicles provided by a Federal agency to a researcher at a Federal laboratory that is managed, owned, or operated by another Federal agency. Applicable research awards include extramural research awards awarded to intramural researchers in Federal laboratories. Federal laboratories include Government-Owned, Government-Operated laboratories (GOGOs) and Federally Funded Research and Development Centers (FFRDCs). Research awards pay for research projects and supporting resources, including the salaries of the principal investigators. The public input provided in response to this Notice will inform the Office of Science and Technology Policy (OSTP) as it works with Federal agencies and other stakeholders to develop best practices for agencies.

DATES: Responses must be received by 11:59 p.m. on April 14, 2014, to be considered.

ADDRESSES: You may submit comments by any of the following methods.

- *Downloadable form/email:* To aid in information collection and analysis,

OSTP encourages responses to be provided by filling out the downloadable form located at <http://www.whitehouse.gov/administration/eop/ostp/library/shareyourinput> and email that form, as an attachment, to: iaresearch@ostp.gov. Please include "Interagency Research Award" in the subject line of the message.

- *Fax:* (202) 456-6071.

- *Mail:* Attn: Reynolds Skaggs, Office of Science and Technology Policy, 1650 Pennsylvania Avenue NW., Washington, DC, 20504. Information submitted by postal mail should allow ample time for processing by security.

Response to this RFI is voluntary. Respondents need not reply to all questions listed, but should indicate in their responses the number of the question to which they are responding. Responses to this RFI, including the names of the authors and their institutional affiliations, if provided, may be posted online. OSTP therefore requests that no business-proprietary information, copyrighted information, or personally-identifiable information be submitted in response to this RFI. Please note that the U.S. Government will not pay for response preparation, or for the use of any information contained in the response.

SUPPLEMENTARY INFORMATION:

Background

Scientists and Engineers (S&Es) who do research and development on behalf of the U.S. Government can compete for research funding through a number of mechanisms, including an interagency agreement, memorandum of understanding, grant, contract, or other transaction agreement. OSTP and STPI have observed that there exist a number of barriers with the potential to limit or prohibit the use of these and other mechanisms on an interagency basis, such as legislation, regulation, interagency agreement, agency policy, program policy, or practices. Policies and practices that can hinder interagency research awards include outright prohibitions, limitations on funding, and added administrative burdens. In addition, agencies vary with respect to the permeability of interagency research awards and this inconsistency leads to inefficiencies and occasionally redundancies. For example, some agencies allow researchers from other Federal agencies to compete for extramural funding, and provide funding to such extramural Federal laboratory employees whose proposals successfully compete for those awards. However, other agencies limit the funding provided to S&Es working in Federal laboratories under

the jurisdiction of other agencies by, for example, not paying salaries or fringe benefit payments.

This RFI offers the opportunity for the public to identify challenges and opportunities for improving Federal interagency research funding awards to support the best and brightest researchers. For the purposes of this RFI, interagency research awards describe one Federal agency funding the research efforts of a scientist or engineer employed by a Federal laboratory managed, owned, or operated by another Federal agency using competitive processes. To ensure each agency is funding the highest quality research and engineering projects, the Office of Science and Technology Policy (OSTP) is considering the potential challenges and opportunities associated with allowing all intramural S&Es, both Federal and contractually employed by Federally Funded Research and Development Centers (FFRDCs) to compete for funding from other agencies, in addition to their own.

OSTP seeks input from all stakeholders who have suggestions for best practices to minimize limitations and administrative burdens associated with interagency research awards. Through this RFI, OSTP is interested in the views of S&Es at Federal laboratories—Government Owned, Government Operated and FFRDCs—who have experienced difficulty when attempting to secure competitive research funding from an agency other than their own, as well as from others who have experience or ideas relating to the following questions:

1. As a Federal laboratory researcher, what difficulties have you experienced when attempting to secure competitive research awards from another agency?

a. If known, please describe the nature of the difficulty. For example, the difficulty may have been an outright prohibition, a limitation on funding, an added administrative burden, or some other burden.

b. Please describe how your agency or the other agency contributed to the difficulty, if applicable.

c. If you know the source of the difficulty (legislation, regulation, interagency agreement, agency policy, program policy, practices, other), please provide details.

d. Please describe how you were able to secure research funding from the other agency despite the difficulties. If you were unable to secure research funding, please describe why not.

2. How has difficulty to secure research funding from other agencies impacted your research?

3. Does your department or agency have a set of best practices related to competitive interagency research awards? If so, please identify the department or agency and share those best practices if possible.

4. Do you have suggested guidance for agencies to improve consistent access to research funding for all Federal laboratory researchers, irrespective of departmental or agency boundaries?

Ted Wackler,

Deputy Chief of Staff and Assistant Director.
