DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1260

[No. AMS-LPS-13-0079]

Beef Promotion and Research; Reapportionment

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed rule would adjust representation on the Cattlemen's Beef Promotion and Research Board (Board), established under the Beef Promotion and Research Act of 1985 (Act), to reflect changes in cattle inventories as well as cattle and beef imports that have occurred since the most recent Board reapportionment rule became effective in July 2011. These adjustments are required by the Beef Promotion and Research Order (Order) and would result in a decrease in Board membership from 103 to 99, effective with the U.S. Department of Agriculture's (USDA) appointments for terms beginning early in the year 2015. The proposed rule also would make technical amendments to update and correct information in the Order and regulations.

DATES: Written comments must be received by April 24, 2014.

ADDRESSES: Interested persons are invited to submit written comments on the Internet at www.regulations.gov or to Angie Snyder, Research and Promotion Division; Livestock, Poultry and Seed Program; Agricultural Marketing Service, USDA, Room 2092-S, STOP 0249, 1400 Independence Avenue SW., Washington, DC 20250-0249; or fax to (202) 720-1125. SUPPLEMENTARY INFORMATION:

Executive Order 12866 and Executive Order 13563

Executive Orders 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health, and safety effects, distributive impacts and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, reducing costs, harmonizing rules, and promoting flexibility. This action has been designated as a "non-significant regulatory action" under § 3(f) of Executive Order 12866. Accordingly, the Office of Management and Budget (OMB) has waived the review process.

Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have retroactive effect.

Section 11 of the Act provides that nothing in the Act may be construed to preempt or supersede any other program relating to beef promotion organized and operated under the laws of the United States or any State. There are no administrative proceedings that must be exhausted prior to any judicial challenge to the provisions of this rule.

Executive Order 13175

This proposed rule has been reviewed in accordance with the requirements of Executive Order 13175, Consultation and Coordination with Indian Tribal Governments. The review reveals that this proposed rule would not have substantial and direct effects on Tribal Governments and would not have significant tribal implications.

Regulatory Flexibility Act and Paperwork Reduction Act

Pursuant to the requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601-612), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic effect of this action on small entities and has determined that this proposed rule will not have a significant economic impact on a substantial number of small entities. The purpose of RFA is to fit regulatory actions to the scale of businesses subject to such actions in order that small businesses will not be unduly burdened.

In the February 2013 publication of "Farms, Land in Farms, and Livestock Operations," USDA's National Agricultural Statistics Service (NASS) estimates that the number of operations in the United States with cattle in 2012 totaled approximately 915,000, down from 950,000 in 2009. The majority of these operations that are subject to the Order may be classified as small entities. There are approximately 25 importers who import beef or edible beef products into the United States and 297 importers who import live cattle into the United States. It is estimated that the majority of these operations subject to the Order are considered small businesses under the criteria established by the Small Business Administration (SBA) [13 CFR 121.201]. SBA defines small agricultural service firms as those having annual receipts of \$7.0 million or less, and small agricultural producers are defined as those having annual receipts of less than \$750,000.

The proposed rule imposes no new burden on the industry. It only adjusts representation on the Board to reflect changes in domestic cattle inventory, as well as cattle and beef imports. The adjustments are required by the Order and would result in a decrease in Board membership from 103 to 99.

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the information collection and recordkeeping requirements imposed under part 1260 were previously approved under OMB control number 0581-0093.

Background and Proposed Action

The Board was initially appointed August 4, 1986, pursuant to the provisions of the Act (7 U.S.C. 2901-

2911) and the Order issued thereunder. Domestic representation on the Board is based on cattle inventory numbers, and importer representation is based on the conversion of the volume of imported cattle, beef, or beef products into live animal equivalencies.

Reapportionment

Section 1260.141(b) of the Order provides that the Board shall be composed of cattle producers and importers appointed by the Secretary of Agriculture from nominations submitted by certified producer and importer organizations. A producer may only be nominated to represent the State or unit in which that producer is a resident.

Section 1260.141(c) of the Order provides that at least every 3 years and not more than every 2 years, the Board shall review the geographic distribution of cattle inventories throughout the United States and the volume of imported cattle, beef, and beef products and, if warranted, shall reapportion units and/or modify the number of Board members from units in order to reflect the geographic distribution of cattle production volume in the United States and the volume of cattle, beef, or beef products imported into the United States.

Section 1260.141(d) of the Order authorizes the Board to recommend to the Department modifications to the number of cattle per unit necessary for representation on the Board.

Section 1260.141(e)(1) provides that each geographic unit or State that includes a total cattle inventory equal to or greater than 500,000 head of cattle shall be entitled to one representative on the Board. Section 1260.141(e)(2) provides that States that do not have total cattle inventories equal to or greater than 500,000 head shall be grouped, to the extent practicable, into geographically-contiguous units, each of which have a combined total inventory of not less than 500,000 head. Such grouped units are entitled to at least one representative on the Board. Each unit that has an additional 1 million head of cattle within a unit qualifies for additional representation on the Board as provided in § 1260.141(e)(4). As provided in § 1260.141(e)(3), importers are represented by a single unit, with the number of Board members based on a conversion of the total volume of imported cattle, beef, or beef products into live animal equivalencies.

The initial Board appointed in 1986 was composed of 113 members. Reapportionment, based on a 3-year average of cattle inventory numbers and import data, reduced the Board to 111 members in 1990 and 107 members in 1993 before the Board was increased to 111 members in 1996. The Board was decreased to 110 members in 1999, 108 members in 2001, and 104 members in 2005; increased to 106 members in 2009; and decreased to 103 members in 2011. This proposal would amend § 1260.141(a) by decreasing the number of Board members from 103 to 99 with appointments for terms effective early in 2015.

The current Board representation by States or units was based on an average of the January 1, 2008, 2009, and 2010 inventory of cattle in the various States as reported by NASS. Current importer representation was based on a combined total average of the 2007, 2008, and 2009 live cattle imports as published by USDA's Foreign Agricultural Service and the average of the 2007, 2008, and 2009 live animal equivalents for imported beef products.

In considering reapportionment, the Board reviewed cattle inventories for the period of January 1, 2011, 2012, and 2013 as well as cattle, beef, and beef product import data for the period of January 1, 2010, to January 1, 2012. The Board recommended that a 3-year average of cattle inventories and import numbers should be continued. The Board determined that an average of the January 1, 2011, 2012, and 2013 cattle inventory numbers would best reflect the number of cattle in each State or unit since publication of the last reapportionment rule published in 2011 (76 FR 42012). The Board reviewed data published by the USDA's Economic Research Service to determine proper importer representation. The Board recommended the use of a combined total of the average of the 2010, 2011, and 2012 cattle import data and the average of the 2010, 2011, and 2012 live animal equivalents for imported beef products. The method used to calculate the total number of live animal equivalents was the same as that used in the previous reapportionment of the Board. The live animal equivalent weight was changed in 2006 from 509 pounds to 592 pounds (71 FR 47074).

The Board's recommended reapportionment plan would decrease

the number of representatives on the Board from 103 to 99. From the Board's analysis of USDA cattle inventories and import equivalencies, New Mexico would lose one Board seat and Texas would lose two Board seats. The importers would lose one Board seat.

The States and units affected by the reapportionment plan and the current and proposed member representation per unit are as follows:

State/Unit	Current representation	Revised representation
New Mexico	2	1
Texas	14	12
Importers	7	6

The Board reapportionment as proposed by this rulemaking would be effective, if adopted, with appointments that will be effective early in the year 2015.

Technical Amendments

A number of technical amendments are being proposed to update or correct information contained in the provisions of the Order and regulations. These include:

Section 1260.129 references the U.S. Customs Service of the U.S. Department of the Treasury. The language would be updated to reflect the updated agency and department.

Section 1260.312(4)(c) would be amended to update an outdated address.

Section 1260.316 would be updated to reflect the correct OMB paperwork reduction number.

A 30-day comment period is provided to allow interested persons to respond to this proposal. Thirty days is deemed appropriate to facilitate the adjustment of the representation on the Board, which is required by the Order at least every 3 years, and not more than every 2 years and to allow for the annual nomination and appointment process for the Board appointments that will be effective early in the year 2015.
