SUPPLEMENTARY INFORMATION:

- I. Background
- II. Extension of Comment Period

I. Background

On September 7, 2011, DOE issued a notice of proposed rulemaking (NOPR) to propose the first comprehensive updating of regulations concerning Assistance to Foreign Atomic Energy Activities since 1986. (76 FR 55278) The NOPR reflected a need to make the regulations consistent with current global civil nuclear trade practices and nonproliferation norms, and to update the activities and technologies subject to the Secretary of Energy's specific authorization and DOE reporting requirements. It also identified destinations with respect to which most assistance would be generally authorized and destinations that would require a specific authorization by the Secretary of Energy. After careful consideration of all comments received, DOE published a SNOPR on August 2, 2013, to respond to those comments, propose new or revised rule changes, and afford interested parties a second opportunity to comment. (78 FR 46829). The comment period on the SNOPR was originally to close on October 31, 2013, but was extended until November 30, 2013. By this notice, DOE is reopening the comment period on the SNOPR. The comment period will close on April 2, 2014.

II. Extension of Comment Period

Due to the nature of the comments received, including a recommendation

to withdraw the SNOPR, the Department has determined to re-open the comment period to April 2, 2014, as a means to afford additional time for the public to review and comment on the SNOPR and comments of other parties. Any comment received between November 30, 2013 and the publication of today's notice will be deemed timely, filed, and considered to be part of the record and will be considered together with all comments submitted within the re-opened comment period.

As provided in the SNOPR, if you submit information that you believe to be exempt by law from public disclosure, you should submit one complete copy, as well as one copy from which the information claimed to be exempt by law from public disclosure has been deleted. DOE is responsible for the final determination with regard to disclosure or nondisclosure of the information and for treating it accordingly under the DOE Freedom of Information regulations at 10 CFR 1004.11.

Issued in Washington, DC, on March 18, 2014.

Richard Goorevich,
Senior Policy Advisor.

Airworthiness Directives; Dassault Aviation Model FALCON 7X Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for all Dassault Aviation Model FALCON 7X airplanes. This proposed AD was prompted by reports that the pintle pins installed on a certain number of airplanes may be incorrectly protected against corrosion. This proposed AD would require replacing certain pintle pins on the left- and right-hand main landing gear (MLG) with a serviceable part. We are proposing this AD to detect and correct pintle pins that have been incorrectly corrosion-protected, which could cause the pintle pins to shear under normal load and lead to the

collapse of the MLG during take-off or landing.

DATES: We must receive comments on this proposed AD by May 9, 2014.

ADDRESSES: You may send comments by any of the following methods:

- **Federal eRulemaking Portal:** Go to <http://www.regulations.gov>. Follow the instructions for submitting comments.
