SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-71810; File No. SR-ICC-2014-02]

Self-Regulatory Organizations; ICE Clear Credit LLC; Notice of Filing of Proposed Rule Change To Update ICC's Liquidity Thresholds for Euro Denominated Products

March 26, 2014.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder² notice is hereby given that on March 12, 2014, ICE Clear Credit LLC ("ICC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared primarily by ICC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The purpose of the proposed rule change is to update ICC's liquidity thresholds for Euro denominated products.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, ICC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received regarding the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. ICC

has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The proposed revisions are intended to update ICC's liquidity thresholds for Euro denominated products. ICC will require the first 65% of Clearing Participant Non-Client Initial Margin and Guaranty Fund Liquidity Requirements ("Non-Client Liquidity Requirements") to be satisfied with collateral in the currency of the underlying instrument. Accordingly, ICC proposes updating the liquidity thresholds for Euro denominated products, listed in Schedule 401 of the ICC Rules, to require the first 65% of Non-Client Liquidity Requirements for Euro denominated products to be satisfied with Euro cash.

ICC believes such changes will facilitate the prompt and accurate clearance and settlement of securities transactions and derivative agreements, contracts, and transactions for which it is responsible. The proposed changes are described in detail as follows.

For United States Dollar ("USD") denominated products, the first 65% of Non-Client Liquidity Requirements must be satisfied with USD denominated collateral. Specifically, the first 45% of Non-Client Liquidity Requirements must be posted in USD cash and the next 20% may be posted in USD denominated assets (USD cash and/or US Treasury securities). Currently, for Euro denominated products, 45% of Non-Client Liquidity Requirements must be posted in Euro cash and the next 20% may be posted in Euro cash, USD cash, and/or US Treasury securities.

ICC proposes to require the first 65% of Non-Client Liquidity Requirements for both USD and Euro denominated products to be satisfied with collateral in the currency of the underlying instrument. Accordingly, ICC is updating its liquidity thresholds for Euro denominated products so that the first 65% of Non-Client Liquidity Requirements for Euro denominated products must be satisfied with Euro cash. This change will increase the Euro cash Non-Client Liquidity Requirements for Euro denominated products and create more consistent liquidity requirements across USD and Euro denominated products.

Redundant references to "US cash" in Schedule 401 of the ICC Rules have

been removed, as US cash is included in all "G7 cash" references.

The ICC Treasury Operations Policies and Procedures have been updated to reflect the update to ICC's Non-Client Liquidity Requirements for Euro denominated products. The changes to the Euro cash Non-Client Liquidity Requirements do not require any operational changes.

Section 17A(b)(3)(F) of the Act³ requires, among other things, that the rules of a clearing agency be designed to promote the prompt and accurate clearance and settlement of securities transactions and, to the extent applicable, derivative agreements, contracts, and transactions. ICC believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to ICC, in particular, to Section 17A(b)(3)(F),⁴ because ICC believes that the update to its liquidity thresholds for Euro denominated products will facilitate the prompt and accurate settlement of securities, specifically security-based swaps, and contribute to the safeguarding of securities and funds associated with security-based swap transactions in ICC's custody or control, or for which ICC is responsible. This change will increase available liquidity and make liquidity requirements consistent across USD and Euro denominated products.

B. Self-Regulatory Organization's Statement on Burden on Competition

ICC does not believe the proposed rule change would have any impact, or impose any burden, on competition. The proposed update to ICC's liquidity thresholds for Euro denominated products applies consistently across all market participants and the implementation of the proposed liquidity thresholds for Euro denominated products does not preclude the implementation of similar changes by other market participants. Therefore, ICC does not believe the update to its liquidity thresholds for Euro denominated products imposes any burden on competition that is inappropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments relating to the proposed rule change have not been solicited or received. ICC will notify the
