Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

(OMB Number: 2132-0572)

Background: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield

quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Federal Transit Administration and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management. Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Affected Public: Individuals and Households, Businesses and Organizations, State, Local or Tribal Government.

Below we provide the Federal Transit Administration's projected average estimates for the next three years:

Average Expected Annual Number of Activities: 4.

Respondents: 2,700.

Annual Responses: 2,700.

Frequency of Response: Once per request.

Average Minutes per Response: 3.8.

Burden Hours: 592 annually.

Matthew M. Couch,

Associate Administrator for Administration.

Title: Survey of FTA Stakeholders
(OMB Number: 2132-0564)

Background: Executive Order 12862, "Streamlining Service Delivery and Improving Customer Service," requires FTA to identify its stakeholders and address how the agency will provide services in a manner that seeks to streamline service delivery and improve the experience of its customers. The survey covered in this request will provide FTA with a means to gather data directly from its stakeholders. The information obtained from the survey will be used to assess how FTA's services are perceived by stakeholders, determine opportunities for improvement and establish goals to measure results. The survey will be limited to data collections that solicit voluntary opinions and will not involve information that is required by regulations.

Estimated Annual Burden on Respondents: 1 hour for each of the 1,200 respondents.

Estimated Total Annual Burden: 1,200 hours.

Frequency: Every two years.

Matthew Crouch,
Associate Administrator for Administration.
