ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2009-1017; FRL-9909-30]

Product Cancellation Order for Certain Pesticide Registrations; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; correction.

SUMMARY: EPA issued a notice in the **Federal Register** of November 20, 2013, and March 13, 2014, concerning receipt of requests to voluntarily cancel certain pesticide registrations and its follow-up cancellation order, respectively. In both notices, EPA inadvertently listed the pesticide product Treflan H.F.P. (EPA Reg. No. MN-100004). The registrant had previously withdrawn the requested voluntary cancellation for this product. Therefore, EPA is not cancelling the pesticide product Treflan H.F.P. (EPA Reg. No. MN-100004). This document removes the cancellation order for Treflan H.F.P. (EPA Reg. No. MN-100004) listed in both the November 20, 2013, and March 13, 2014, **Federal Register** notices.

FOR FURTHER INFORMATION CONTACT: John W. Pates, Jr., Pesticide Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (703) 308-8195; email address: pates.john@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

The Agency included in the **Federal Register** notices of November 20, 2013 (78 FR 69666) (FRL 9902-40) and March 13, 2014 (79 FR 14247) (FRL 9905-37)

a list of those who may be potentially affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2009-1017, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), EPA West Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

II. What does this correction do?

EPA issued a notice in the **Federal Register** of November 20, 2013, and March 13, 2014, concerning receipt of requests to voluntarily cancel certain pesticide registrations and its follow-up cancellation order, respectively. In both notices, EPA listed the pesticide product Treflan H.F.P. (EPA Reg. No. MN-100004). However, soon after the registrant requested voluntary cancellation, the registrant notified the Agency on June 21, 2013, that it chose to withdraw the request for pesticide product Treflan H.F.P. (EPA Reg. No. MN-100004), since it had been mistakenly submitted. Therefore, EPA is not cancelling the pesticide product Treflan H.F.P. (EPA Reg. No. MN-100004). Herein this document, due to the inadvertent listing by EPA, the Agency is removing the cancellation order for Treflan H.F.P. (EPA Reg. No. MN-100004) listed in both the November 20, 2013, and March 13, 2014, **Federal Register** notices.

Public Water System Supervision Program Revision for the State of Alabama

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of tentative approval.

SUMMARY: Notice is hereby given that the State of Alabama is revising its approved Public Water System Supervision Program. Alabama has adopted the following rule: Ground Water Rule. The EPA has determined that Alabama's rule is no less stringent than the corresponding federal regulation. Therefore, the EPA is tentatively approving this revision to the State of Alabama's Public Water System Supervision Program.

DATES: Any interested person may request a public hearing. A request for a public hearing must be submitted by May 19, 2014, to the Regional Administrator at the EPA Region 4 address shown below. The Regional Administrator may deny frivolous or insubstantial requests for a hearing. However, if a substantial request for a public hearing is made by May 19, 2014, a public hearing will be held. If no timely and appropriate request for a hearing is received and the Regional Administrator does not elect to hold a hearing on her own motion, this tentative approval shall become final and effective on May 19, 2014. Any request for a public hearing shall include the following information: The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; a brief statement of the requesting person's interest in the Regional Administrator's determination and a brief statement of the information that the requesting person intends to submit at such hearing; and the signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

ADDRESSES: All documents relating to this determination are available for inspection between the hours of 8:30 a.m. and 4:30 p.m., Monday through Friday, at the following offices: Alabama Department of Environmental Management, Water Division, 1400 Coliseum Boulevard, Montgomery, Alabama 36110; and the U.S. Environmental Protection Agency,

Region 4, Safe Drinking Water Branch, 61 Forsyth Street SW., Atlanta, Georgia 30303.

FOR FURTHER INFORMATION CONTACT:

Robert Burns, EPA Region 4, Safe Drinking Water Branch, by mail at the Atlanta address given above, by telephone at (404) 562-9456, or by email at burns.robert@epa.gov.

EPA Analysis: On February 5, 2013, the State of Alabama submitted a request that the Region approve a revision to the State's Safe Drinking Water Act Public Water System Supervision Program to include the authority to implement and enforce the Ground Water Rule. For the revision to be approved, the EPA must find the State Rules, contained within ADEM Administrative Code Division 335-7, to be no less stringent than the Federal Rules, codified at 40 CFR part 141, Subpart S—Ground Water Rule. The EPA reviewed the application using the Federal statutory provisions (Section 1413 of the Safe Drinking Water Act), Federal regulations (at 40 CFR part 142), State regulations, rule crosswalks, and the EPA regulatory guidance to determine whether the request for revision is approvable. The EPA determined that the Alabama revision is no less stringent than the corresponding Federal regulation.

EPA Action: The EPA is tentatively approving this revision. If the EPA does not receive a timely and appropriate request for a hearing and the Regional Administrator does not elect to hold a hearing on her own motion, this tentative approval will become final and effective on May 19, 2014.

Authority: Section 1413 of the Safe Drinking Water Act, as amended (1996), and 40 CFR part 142.

Dated: March 26, 2014.

A. Stanley Meiburg,

Acting Regional Administrator, Region 4.

Request for Nominations of Candidates to the EPA's Clean Air Scientific Advisory Committee (CASAC) and EPA's Science Advisory Board (SAB)

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency (EPA) invites

nominations of scientific experts from a diverse range of disciplines to be considered for appointment to the Clean Air Scientific Advisory Committee (CASAC), the Science Advisory Board (SAB) and four SAB committees described in this notice. Appointments are anticipated to be filled by the start of Fiscal Year 2015 (October 2015).

DATES: Nominations should be submitted in time to arrive no later than May 19, 2014.

FOR FURTHER INFORMATION CONTACT:

Nominators unable to submit nominations electronically as described below may submit a paper copy to the Designated Federal Officers for the committees, as identified below. General inquiries regarding the work of the CASAC and SAB or SAB committees may also be directed to the designated DFOs.

Background: Established by statute, the CASAC (42 U.S.C. 7409) and SAB (42 U.S.C. 4365) are chartered Federal Advisory Committees that provide independent scientific and technical peer review, consultation, advice and recommendations directly to the EPA Administrator on the scientific bases for EPA's actions and programs. Members of the CASAC and the SAB constitute distinguished bodies of non-EPA scientists, engineers, economists, and behavioral and social scientists who are nationally and internationally recognized experts in their respective fields. Members are appointed by the EPA Administrator for a three-year term.

Expertise Sought for CASAC: Established in 1977 under the Clean Air Act (CAA) Amendments, the chartered CASAC reviews and offers scientific advice to the EPA Administrator on technical aspects of national ambient air quality standards for criteria pollutants (ozone; particulate matter; carbon monoxide; nitrogen oxides; sulfur dioxide; and lead). As required under the CAA section 109(d), CASAC is composed of seven members, with at least one member of the National Academy of Sciences, one physician, and one person representing state air pollution control agencies. Accordingly, the SAB Staff Office is seeking nominations of experts to serve on the CASAC who are members of the National Academy of Sciences as well as physicians who have a special expertise in health effects of air pollution. The SAB Staff Office is also seeking nominations of experts who have demonstrated experience in the following science related to air pollution: Atmospheric sciences; ecological and welfare effects; engineering; health sciences; medicine;

public health; modeling; and/or risk assessment.

The SAB Staff Office is especially interested in scientists with expertise described above who have knowledge and experience in air quality relating to criteria pollutants. For further information about the CASAC membership appointment process and schedule, please contact Mr. Aaron Yeow, DFO, by telephone at 202-564-2050 or by email at yeow.aaron@epa.gov.

Expertise Sought for the SAB: The SAB was established in 1978 by the Environmental Research, Development and Demonstration Authorization Act to provide independent advice to the Administrator on scientific and technical matters underlying the agency's policies and actions. The chartered SAB provides strategic advice to the EPA Administrator on a variety of EPA science and research programs. All the work of SAB committees and panels is under the direction of the chartered SAB. The chartered SAB reviews all SAB committee and panel draft reports and determines whether they are appropriate to send to the EPA Administrator.

The SAB Staff Office is seeking nominations of experts to serve on the chartered SAB in the following disciplines as they relate to the human health and the environment: Analytical chemistry; ecological sciences and ecological assessment; economics; engineering; geochemistry, health disparities; health sciences; hydrology; hydrogeology; medicine; microbiology; modeling; pediatrics; public health; risk assessment; social, behavioral and decision sciences; and statistics. The SAB Staff Office is especially interested in scientists with expertise described above who have knowledge and experience in air quality; agricultural sciences; climate change; drinking water; energy and the environment; water quality; water quantity; water re-use; ecosystem services; community environmental health; sustainability; chemical safety; green chemistry; human health risk assessment; homeland security; and waste and waste management. For further information about the SAB membership appointment process and schedule, please contact Dr. Angela Nugent, DFO, by telephone at 202-564-2218 or by email at nugent.angela@epa.gov.

The SAB Staff Office is also seeking nominations for experts for four SAB committees: The Chemical Assessment Advisory Committee; the Drinking Water Committee; the Ecological Processes and Effects Committee; and, the Radiation Advisory Committee.
