## NATIONAL SCIENCE FOUNDATION

### Request of Recommendations for Membership for Directorate and Office Advisory Committees

**ACTION:** Notice.

**SUMMARY:** The National Science Foundation (NSF) requests recommendations for membership on its scientific and technical Federal advisory committees. Recommendations should consist of the submitting person's or organization's name and affiliation, the name of the recommended individual, the recommended individual's curriculum vita (2-5 pages), an expression of the individual's interest in serving, and the following recommended individual's contact information: Employment address, telephone number, FAX number, and email address. Self recommendations are accepted. If you would like to make a recommendation for membership on any of our committees, please send your recommendation to the committee contact person listed below.

**ADDRESSES:** The mailing address for the National Science Foundation is 4201 Wilson Boulevard, Arlington, VA 22230.

Web links to individual committee information may be found on NSF Web site: *NSF Advisory Committees*.

**SUPPLEMENTARY INFORMATION:** Each Directorate and Office has an external advisory committee that typically meets twice a year to review and provide advice on program management; discuss current issues; and review and provide advice on the impact of policies, programs, and activities in the disciplines and fields encompassed by the Directorate or Office. In addition to Directorate and Office advisory committees, NSF has several committees that provide advice and recommendation on specific topics: astronomy and astrophysics; environmental research and education; equal opportunities in science and engineering; direction, development, and enhancements of innovations; advanced cyberinfrastructure; international and integrative activities; and business and operations.

A primary consideration when formulating committee membership is recognized knowledge, expertise, or demonstrated ability.<sup>1</sup> Other factors that may be considered are balance among diverse institutions, regions, and groups underrepresented in science, technology, engineering, and mathematics. Committee members serve for varying term lengths, depending on the nature of the individual committee. Although we welcome the recommendations we receive, we regret that NSF will not be able to acknowledge or respond positively to each person who contacts NSF or has been recommended. NSF intends to publish a similar notice to this on an annual basis. NSF will keep recommendations active for 12 months from the date of receipt.

The chart below is a listing of the committees seeking recommendations for membership. Recommendations should be sent to the contact person identified below. The chart contains web addresses where additional information about individual committees is available.

## NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2014-0026]

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

**SUMMARY:** The NRC invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR Part 75, "Safeguards on Nuclear Material—Implementation of US/IAEA Agreement."
2. *Current OMB approval number:* 3150-0055.
3. *How often the collection is required:* Reporting is done when specified events occur. Recordkeeping for nuclear material

accounting and control information is done in accordance with specific instructions.

4. *Who is required or asked to report:* Licensees of facilities on the U.S. eligible list who have been selected by the International Atomic Energy Agency (IAEA) for reporting or recordkeeping activities.
5. *The number of annual respondents:* 7 (2 reporting + 5 recordkeeping).
6. *The number of hours needed annually to complete the requirement or request:* 3960.4.
7. *Abstract:* Part 75 of Title 10 of the *Code of Federal Regulations*, requires selected licensees to provide reports of nuclear material inventory and flow for selected facilities under the US/IAEA Safeguards Agreement, permit inspections by IAEA inspectors, complementary access of IAEA inspectors under the Additional Protocol, give immediate notice to the NRC in specified situations involving the possibility of loss of nuclear material, and give notice for imports and exports of specified amounts of nuclear material. These licensees will also follow written material accounting and control procedures, although actual reporting of transfer and material balance records to the IAEA will be done through the U.S. State system (Nuclear Materials Management and Safeguards System, collected under OMB clearance numbers 3150-0003, 3150-0004, 3150-0057, and 3150-0058.) The NRC needs this information to implement its responsibilities under the US/IAEA agreement.

Submit, by June 20, 2014, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

The public may examine and have copied for a fee publicly-available documents, including the draft supporting statement, at the NRC's Public Document Room, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The OMB clearance requests are available at the NRC's Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/>.

The document will be available on the NRC's home page site for 60 days after the signature date of this notice. Comments submitted in writing or in electronic form will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. Comments submitted should reference Docket No. NRC-2014-0026.

You may submit your comments by any of the following methods: Electronic comments go to <http://www.regulations.gov> and search for Docket No. NRC-2014-0026. Mail comments to the Acting NRC Clearance Officer, Kristen Benney (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Questions about the information collection requirements may be directed to the Acting NRC Clearance Officer, Kristen Benney (T-5 F53), U.S. Nuclear
