

States for the testing and certification of small electric motors, the organization operating the program must submit a petition to the Department requesting such classification, in accordance with sections 431.447 and 431.448. In sum, for the Department to grant such a petition, the certification program must: (1) Have satisfactory standards and procedures for conducting and administering a certification system, and for granting a certificate of conformity; (2) be independent of small electric motor manufacturers, importers, distributors, private labelers or vendors; (3) be qualified to operate a certification system in a highly competent manner; and (4) be expert in the test procedures and methodologies in IEEE Standard 112–2004 Test Methods A and B, IEEE Standard 114–2010, CSA Standard C390–10, and CSA C747 or similar procedures and methodologies for determining the energy efficiency of small electric motors, and have satisfactory criteria and procedures for selecting and sampling small electric motors for energy efficiency testing. 10 CFR 431.447(b).

Each petition requesting classification as a nationally recognized certification program must contain a narrative statement as to why the organization meets the above criteria, be accompanied by documentation that supports the narrative statement, and be signed by an authorized representative. 10 CFR 431.447(c).

II. Discussion

Pursuant to sections 431.447 and 431.448, on November 1, 2013, CSA submitted a “Petition for Recognition as a *Nationally Recognized Certification Program* for small electric motors” (“Petition” or “CSA Petition”). The Petition was accompanied by a cover letter from CSA to the Department, and the petition itself contained five separate sections—(1) Scope and Application, (2) Overview of CSA Group, (3) Certification and Testing—Quality Management System, (4) CSA Group’s Motor Efficiency Verification Program—Product Directory, and (5) Examples of Other CSA Group Accreditations. In accordance with the requirements of section 431.448(b), DOE published CSA’s petition in the **Federal Register** on December 30, 2013 and requested public comments. 78 FR 79423.

In response to the notice of petition, the National Electrical Manufacturers Association (NEMA), a trade association representing manufacturers of electrical products and equipment, including small electric motors, submitted comments to DOE in a letter dated

January 24, 2013 (Comment response to the published Notice of Petition, No. 3). In these comments, NEMA generally stated its support for CSA’s petition and recommended that DOE grant recognition to CSA. The comments also specifically explained that, in NEMA’s view, (1) CSA has satisfactory standards and procedures for conducting and administering a certification system, including periodic follow-up to ensure basic model compliance; (2) CSA is independent of small motor manufacturers, importers, distributors, private labelers, or vendors; and (3) CSA is expert in the content and application of the test procedures and methodologies in IEEE Std 112–2004 Test Methods A and B, IEEE Std 114–2010, CSA 390–10, and CSA C747 or similar procedures and methodologies for determining the energy efficiency of small electric motors. NEMA added that CSA uses technically appropriate and statistically rigorous criteria and procedures for selecting and sampling small electric motors for energy efficiency testing.

As required by 10 CFR 431.448(d), DOE published on March 4, 2014 an interim notice of determination regarding CSA’s petition. 79 FR 12189. Having received no comments on the interim determination, the Department hereby announces its final determination pursuant to 10 CFR 431.448(e) that CSA is classified as a nationally recognized certification program for small electric motors.

Issued in Washington, DC, on April 25, 2014.

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.
