2. Request for Review of Hearing Decision/Order—20 CFR 404.967–404.981, 416.1467–416.1481–0960–0277. Claimants have a statutory right under the Act and current regulations to request review of an administrative law judge's (ALJ) hearing decision or dismissal of a hearing request on Title II and Title XVI claims. Claimants may request Appeals Council review by

filing a written request using Form HA-520. SSA uses the information to establish the claimant filed the request for review within the prescribed time, and to ensure the claimant completed the requisite steps permitting the Appeals Council review. The Appeals Council uses the information to: (1) Document the claimant's reason(s) for disagreeing with the ALJ's decision or

dismissal; (2) determine whether the claimant has additional evidence to submit; and (3) determine whether the claimant has a representative or wants to appoint one. The respondents are claimants requesting review of an ALJ's decision or dismissal of hearing.

Type of Request: Revision of an OMB-approved information collection.

DEPARTMENT OF TRANSPORTATION**Federal Motor Carrier Safety Administration**

[Docket No. FMCSA-2014-0003]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to exempt 75 individuals from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs). They are unable to meet the vision requirement in one eye for various reasons. The exemptions will enable these individuals to operate commercial motor vehicles (CMVs) in interstate commerce without meeting the prescribed vision requirement in one eye. The Agency has concluded that granting these exemptions will provide a level of safety that is equivalent to or greater than the level of safety maintained without the exemptions for these CMV drivers.

DATES: The exemptions are effective May 16, 2014. The exemptions expire on May 16, 2016.

You may review DOT's Privacy Act Statement for the Federal Docket Management System (FDMS) published in the **Federal Register** on January 17, 2008 (73 FR 3316).

Background

On March 14, 2014, FMCSA published a notice of receipt of exemption applications from certain individuals, and requested comments from the public (79 FR 14571). That notice listed 75 applicants' case histories. The 75 individuals applied for exemptions from the vision requirement in 49 CFR 391.41(b)(10), for drivers who operate CMVs in interstate commerce.

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption." The statute

also allows the Agency to renew exemptions at the end of the 2-year period. Accordingly, FMCSA has evaluated the 75 applications on their merits and made a determination to grant exemptions to each of them.

Vision and Driving Experience of the Applicants

The vision requirement in the FMCSRs provides:

A person is physically qualified to drive a commercial motor vehicle if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of at least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° in the horizontal meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing red, green, and amber (49 CFR 391.41(b)(10)).

FMCSA recognizes that some drivers do not meet the vision requirement but have adapted their driving to accommodate their vision limitation and demonstrated their ability to drive safely. The 75 exemption applicants listed in this notice are in this category. They are unable to meet the vision requirement in one eye for various reasons, including retinal scar, amblyopia, complete loss of vision, retinal detachment, cataract, macular hole, macular edema, corneal scarring, macular degeneration, aphakia, prosthetic eye, strabismic amblyopia, coloboma, optic atrophy, refractive amblyopia, ischemic optic neuropathy, congenital esotropia, optic nerve damage, congenital neuropathy, Coat's disease, myopia, strabismus, glaucoma, exfoliative glaucoma, central vision decrease, retinal artery occlusion, and scar tissue. In most cases, their eye conditions were not recently developed. Forty-eight of the applicants were either born with their vision impairments or have had them since childhood.

The twenty-seven individuals that sustained their vision conditions as adults have had it for a period of 2 to 55 years.

Although each applicant has one eye which does not meet the vision requirement in 49 CFR 391.41(b)(10), each has at least 20/40 corrected vision in the other eye, and in a doctor's opinion, has sufficient vision to perform all the tasks necessary to operate a CMV. Doctors' opinions are supported by the applicants' possession of valid commercial driver's licenses (CDLs) or non-CDLs to operate CMVs. Before issuing CDLs, States subject drivers to knowledge and skills tests designed to
