

high-quality EOPs at the end of the grant.

VII. Agency Contact

FOR FURTHER INFORMATION CONTACT:

Amy Banks, U.S. Department of Education, 400 Maryland Avenue SW., Room 3E117, Washington, DC 20202–6450. Telephone: (202) 453–6704 or by email: Amy.Banks@ed.gov.

If you use a TDD or a TTY, call the Federal Relay Service, toll free, at 1–800–877–8339.

VIII. Other Information

Accessible Format: Individuals with disabilities can obtain this document and a copy of the application package in an accessible format (e.g., braille, large print, audiotape, or computer diskette) on request to the program contact person listed under **FOR FURTHER INFORMATION CONTACT** in section VII of this notice.

Electronic Access to This Document: The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available via the Federal Digital System at: www.gpo.gov/fdsys. At this site you can view this document, as well as all other documents of this Department published in the **Federal Register**, in text or Adobe Portable Document Format (PDF). To use PDF you must have Adobe Acrobat Reader, which is available free at this site.

You may also access documents of the Department published in the **Federal Register** by using the article search feature at: <http://www.federalregister.gov>. Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Dated: May 20, 2014.

Deborah S. Delisle,

Assistant Secretary for Elementary and Secondary Education.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Proposed Subsequent Arrangement

AGENCY: Office of Nonproliferation and International Security, Department of Energy.

ACTION: Proposed subsequent arrangement.

SUMMARY: This document is being issued under the authority of the Atomic Energy Act of 1954, as amended.

The Department is providing notice of a proposed subsequent arrangement to be carried out in the Republic of Korea under the Agreement for Cooperation between the Government of the United States of America and the Government of the Republic of Korea Concerning Civil Uses of Atomic Energy, signed November 24, 1972, as amended (the “Agreement”).

DATES: This subsequent arrangement will take effect no sooner than June 9, 2014

FOR FURTHER INFORMATION CONTACT: Ms. Katie Strangis, Office of Nonproliferation and International Security, National Nuclear Security Administration, Department of Energy. Telephone: 202–586–8623 or email: Katie.Strangis@nnsa.doe.gov.

SUPPLEMENTARY INFORMATION: This subsequent arrangement concerns a proposed Joint Determination by the Government of the United States of America and the Government of the Republic of Korea pursuant to Article VIII(C) of the Agreement, that the provisions of Article XI of the Agreement may be effectively applied for the alteration in form or content of U.S.-origin nuclear material irradiated in pressurized water reactors, CANDU reactors, and a research reactor, at the Post Irradiation Examination Facility (PIEF), the Irradiated Material Examination Facility (IMEF), the Radio Isotope Production Area (RIPA), and the DUPIC Fuel Development Facility (DFDF), along with identified analytical laboratories, at the Headquarters of the Korea Atomic Energy Research Institute (KAERI), in accordance with the plans contained in the documents KAERI/AR–1003/2013, “Post-Irradiation Examination and R&D Programs Using Irradiated Fuels at KAERI,” dated August 2013, and KAERI/AR–1004/2013, “DUPIC Fuel Fabrication Using Spent PWR Fuel at KAERI,” dated August 2013. These facilities are found acceptable to both parties pursuant to Article VIII(C) of the Agreement for the sole purpose of alteration in form or content of irradiated U.S.-origin nuclear material for post-irradiation examination and for research, development and manufacture of DUPIC fuel powders, pellets and elements for the period beginning on the date of entry into force of an agreement extending the terms of the Agreement beyond March 19, 2014, and ending on the earlier of March 19, 2016, or the date of entry into force of a successor agreement to the Agreement, unless terminated earlier by written agreement of the Parties to the Agreement. Any activities additional to the plans or

changes in the equipment in these facilities will be reviewed by both parties to ensure the general consistency with the scope and objectives of the Joint Determination.

In accordance with section 131a. of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security of the United States of America.

Dated: May 7, 2014.

For the Department of Energy.

Anne M. Harrington,

Deputy Administrator, Defense Nuclear Nonproliferation.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Proposed Subsequent Arrangement

AGENCY: Office of Nonproliferation and International Security, Department of Energy.

ACTION: Proposed subsequent arrangement.

SUMMARY: This document is being issued under the authority of the Atomic Energy Act of 1954, as amended. The Department is providing notice of a proposed subsequent arrangement under the Agreement for Cooperation Concerning Civil Uses of Nuclear Energy Between the Government of the United States of America and the Government of Canada and the Agreement for Cooperation in the Peaceful Uses of Nuclear Energy Between the United States of America and the European Atomic Energy Community.

DATES: This subsequent arrangement will take effect no sooner than June 9, 2014.

FOR FURTHER INFORMATION CONTACT: Ms. Katie Strangis, Office of Nonproliferation and International Security, National Nuclear Security Administration, Department of Energy. Telephone: 202–586–8623 or email: Katie.Strangis@nnsa.doe.gov.

SUPPLEMENTARY INFORMATION: This subsequent arrangement concerns the retransfer of 423,063 kg of U.S.-origin natural uranium trioxide (UO₃) (82.73% U), 350,000 kg of which is uranium, from Cameco Corporation (Cameco) in Saskatoon, Saskatchewan, to Springfields Fuels Ltd. in Lancashire, United Kingdom. The material, which is currently located at Cameco in Blind River, Ontario, will be converted to uranium hexafluoride (UF₆) by Springfields Fuels, Ltd. in Lancashire,

United Kingdom. The material was originally obtained by Cameco from Cameco Resources-Crowe Butte Operation pursuant to export license XSOU8798.

In accordance with section 131a. of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement concerning the retransfer of nuclear material of United States origin will not be inimical to the common defense and security of the United States of America.

Dated: May 7, 2014.

For the Department of Energy.

Anne M. Harrington,

Deputy Administrator, Defense Nuclear Nonproliferation.

DEPARTMENT OF ENERGY

Energy Information Administration

Agency Information Collection Extension

AGENCY: U.S. Energy Information Administration (EIA), Department of Energy.

ACTION: Agency Information Collection Activities: Information Collection Extension; Notice and Request for Comments.

SUMMARY: The EIA, pursuant to the Paperwork Reduction Act of 1995, intends to extend for three years with the Office of Management and Budget (OMB), Form EIA-846, "Manufacturing Energy Consumption Survey." Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Comments regarding this proposed information collection must be received on or before July 22, 2014. If you anticipate difficulty in submitting comments within that period, contact the person listed in **ADDRESSES** as soon as possible.

ADDRESSES: Written comments may be sent to Tom Lorenz, Office of Energy Consumption and Efficiency Statistics, E1-22, Forrestal Building, U.S. Department of Energy, 1000 Independence Ave. SW., Washington, DC 20585 or by fax at (202) 586-9753, or by email at Thomas.Lorenz@eia.gov.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Tom Lorenz at the address listed above. To view the form online please go to: http://www.eia.gov/survey/notice/consumption_mecs2014.cfm.

SUPPLEMENTARY INFORMATION: This information collection request contains:

- (1) OMB No.: 1905-0169;
- (2) *Information Collection Request Title:* Manufacturing Energy Consumption Survey (MECS);
- (3) *Type of Request:* Reinstatement, with change, of a previously approved collection for which approval has expired;
- (4) *Purpose:*

The Federal Energy Administration Act of 1974 (15 U.S.C. 761 *et seq.*) and (42 U.S.C. 7135(i)) require the EIA to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles, analyzes, and disseminates information on energy resource reserves, production, demand, technology, and related economic and statistical information. This information is used to assess the adequacy of energy resources to meet near and longer term domestic demands and to promote sound policymaking, efficient markets, and public understanding of energy and its interaction with the economy and the environment.

The Manufacturing Energy Consumption Survey (MECS) is a self-administered sample survey designed to collect energy consumption and expenditures data from establishments in the manufacturing sector; i.e., North American Industry Classification System (NAICS) codes 31-33. Previous MECS required multiple collection forms depending on an establishment's primary business activity classification under NAICS. The increased use of technology by means of an Internet data collection system however, has allowed the MECS to eliminate the need to have multiple forms.

The 2014 MECS will collect information during 2015 for business activities in calendar year 2014, and the 2016 MECS, if implemented, will collect information during 2017 for business activities in calendar year 2016. For the 2014 and 2016 MECS, as in the past,

EIA proposes to collect the following data from each MECS establishment: (1) For each energy source consumed—consumption (total, fuel and nonfuel uses) and the expenditures for each energy source, energy storage (as applicable), energy produced onsite, and shipments (as applicable); (2) energy end uses; (3) fuel-switching capabilities; (4) general energy-saving technologies; (5) energy management activities; and (6) square footage, and number of buildings in the establishment.

The MECS has been conducted eight times previously, covering the years 1985, 1988, 1991, 1994, 1998, 2002, 2006, and 2010. In all eight survey years, the MECS has collected baseline data on manufacturers' energy consumption and expenditures. The MECS collected data on fuel-switching capabilities in all years except 1998. In the 1991, 1994, 1998, 2002, 2006, and 2010 surveys, the MECS also collected data on end-uses, energy management activities, building square footage, and energy-saving technologies.

The MECS information is the basis for data and analytic products that can be found at <http://www.eia.gov/consumption/manufacturing>. Also on this Web site are past publications, articles, and a special analytic series, "Industry Analysis Briefs." The 2014 and 2016 MECS will also be used to benchmark EIA's industry forecasting model and update changes in the energy intensity and greenhouse gases data series.

The proposed 2014 and 2016 MECS uses experience gained from the administration and processing of the seven previous surveys and past consultations with respondents, trade association representatives, and data users to improve the survey.

Please refer to the forms and instructions for more information about the purpose, who must report, when to report, where to submit, the elements to be reported, detailed instructions, provisions for confidentiality, and uses of the information. For instructions on obtaining materials, see the "For Further Information Contact" section;

(4a) Proposed Changes to Information Collection:

EIA proposes making several changes from the 2010 MECS for use in the 2014 and 2016 MECS. The first substantial change for the 2014 and 2016 MECS is shortening the collection time frame. The past MECS cycles, going back to 1988, have been quadrennial surveys; however with the increased importance of relevant energy data, EIA is proposing to shorten the collection time frame from a quadrennial to a biennial survey.
