Project purpose: The purpose of the I–25 North project is to make improvements to provide modal alternatives, correct geometric deficiencies, improve safety, mobility and accessibility, and replace aging and obsolete infrastructure. Signed NEPA documents and permits: FEIS was signed August 19, 2011 and ROD was signed December 29, 2011. This configuration is known as a split diamond interchange. The split diamond interchange will connect Platteville Boulevard/Dillon Drive and Eden Road. A new one-way frontage road east of I–25 and a two-way frontage road along the west side of I–25 would connect the south half of this interchange at Platteville Boulevard/Dillon Drive with the north half at Eden Road. Project purpose: The project is designed to provide more direct access to I–25 from Pueblo West, and to accommodate traffic from existing and planned growth along Platteville Boulevard/Dillon Drive west of I–25. Signed NEPA documents and permits: EA was signed on January 26, 2011 and the FONSI signed on July 27, 2011. <http://www.pacog.net/pacog/dillon-eden-interchange-project>

Additionally, the project will improve operations and safety in the vicinity of the I–25/Meadows Parkway interchange, which is being compromised by off-ramp backups on the mainline I–25 and by over-capacity on-ramp merges. Project purpose: The purpose of the project is to relieve traffic congestion and improve safety at the US 85/Meadows Parkway intersection and I–25/Meadows Parkway interchange. Signed NEPA documents and permits: EA was signed on March 23, 2010 and the FONSI was signed on March 17, 2011. <http://crgov.com/index.aspx?nid=373>.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2013-0445]

Qualification of Drivers; Exemption Applications; Epilepsy and Seizure Disorders

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of applications for exemption, request for comments.

SUMMARY: FMCSA announces receipt of applications from 11 individuals for an

exemption from the prohibition against persons with a clinical diagnosis of epilepsy or any other condition which is likely to cause a loss of consciousness or any loss of ability to operate a commercial motor vehicle (CMV) from operating CMVs in interstate commerce. The regulation and the associated advisory criteria published in the Code of Federal Regulations as the "Instructions for Performing and Recording Physical Examinations" have resulted in numerous drivers being prohibited from operating CMVs in interstate commerce based on the fact that they have had one or more seizures and are taking anti-seizure medication, rather than an individual analysis of their circumstances by a qualified medical examiner. If granted, the exemptions would enable these individuals who have had one or more seizures and are taking anti-seizure medication to operate CMVs for 2 years in interstate commerce.

DATES: Comments must be received on or before July 3, 2014.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) Docket ID FMCSA-2013-0445 using any of the following methods:

Office hours are from 8:30 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31315 and 31136(e), FMCSA may grant an exemption for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption." The statutes also allow the Agency to renew exemptions at the end of the 2-year period. The 11 individuals listed in this notice have recently requested an exemption from the epilepsy prohibition in 49 CFR 391.41(b)(8), which applies to drivers who operate CMVs as defined in 49 CFR 390.5, in interstate commerce. Section 391.41(b)(8) states that a person is physically qualified to drive a commercial motor vehicle if that person has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause the loss of consciousness or any loss of ability to control a CMV.

FMCSA provides medical advisory criteria for use by medical examiners in determining whether drivers with certain medical conditions should be certified to operate CMVs in interstate commerce. The advisory criteria indicate that if an individual has had a sudden episode of a non-epileptic seizure or loss of consciousness of unknown cause which did not require anti-seizure medication, the decision whether that person's condition is likely to cause the loss of consciousness or loss of ability to control a CMV should
