[Docket No. FAA–2014–0046; Airspace
Docket No. 14–ASO–1]

Amendment of Class E Airspace; Elkin, NC

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E Airspace at Elkin, NC, to accommodate a new Area Navigation (RNAV) Global Positioning System (GPS) Standard Instrument Approach Procedure (SIAP) serving Elkin Municipal Airport. This enhances the safety and management of aircraft operations at the airport. This action also updates the geographic coordinates of airport.

DATES: Effective 0901 UTC, July 24, 2014. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:**History**

On March 18, 2014, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to amend Class E airspace at Elkin Municipal Airport, Elkin, NC, (79 FR 15067). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9X dated August 7, 2013, and effective September 15, 2013, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 amends Class E airspace extending upward from 700 feet above the surface within a 9.3-mile radius of Elkin Municipal Airport, Elkin, NC. Airspace

reconfiguration is necessary due to the development of the RNAV (GPS) RWY 7 approach and for continued safety and management of IFR operations at the airport. The geographic coordinates of the airport also are adjusted to be in concert with FAA's aeronautical database.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Elkin Municipal Airport, Elkin, NC.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment

Addition of Certain Persons to the Entity List

AGENCY: Bureau of Industry and
Security, Commerce.

ACTION: Final rule.

SUMMARY: This rule amends the Export Administration Regulations (EAR) by adding twenty-six persons under thirty-one entries to the Entity List (Supplement No. 4 to Part 744). The persons who are added to the Entity List have been determined by the U.S. Government to be acting contrary to the national security or foreign policy

interests of the United States. These persons will be listed on the Entity List under the destinations of China, Hong Kong, Lebanon and the United Arab Emirates (U.A.E.). There are thirty-one entries for twenty-six persons because five persons are listed under multiple countries, resulting in the additional five entries. Specifically, those five additional entries cover two persons in Lebanon who also have addresses in the U.A.E., and three persons in Hong Kong who also have addresses in China.

In addition to the Entity List changes described above, this final rule updates the authority for part 730 (15 CFR part 730) because of the publication of the Notice of May 7, 2014, *Continuation of the National Emergency With Respect to the Actions of the Government of Syria*, which resulted in a change to the legal authority for part 730 of the EAR.

DATES: *Effective Date:* This rule is effective June 5, 2014.

SUPPLEMENTARY INFORMATION:

Background

The Entity List notifies the public about entities that have engaged in activities that could result in an increased risk of the diversion of exported, reexported or transferred (in-country) items to weapons of mass destruction (WMD) programs. Since its initial publication, grounds for inclusion on the Entity List have expanded to include activities sanctioned by the State Department and activities contrary to U.S. national security or foreign policy interests, including terrorism and export control violations involving abuse of human rights. Certain exports, reexports, and transfers (in-country) to entities identified on the Entity List require licenses from BIS and are usually subject to a policy of denial. The availability of license exceptions in such transactions is very limited. The license review policy for each entity is identified in the license review policy column on the Entity List and the availability of license exceptions is noted in the **Federal Register** notices adding persons to the Entity List. BIS places entities on the Entity List based on certain sections of part 744 (Control Policy: End-User and End-Use Based) of the EAR.

The End-user Review Committee (ERC), composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote and all decisions to remove or modify an entry by unanimous vote.

ERC Entity List Decisions

Additions to the Entity List

This rule implements the decision of the ERC to add twenty-six persons under thirty-one entries to the Entity List on the basis of § 744.11 (License requirements that apply to entities acting contrary to the national security or foreign policy interests of the United States) of the EAR. The thirty-one entries added to the Entity List consist of three entries in China, seven entries in Hong Kong, six entries in Lebanon, and fifteen in the U.A.E.

The ERC reviewed § 744.11(b) (Criteria for revising the Entity List) in making the determination to add these twenty-six persons to the Entity List. Under that paragraph, persons for whom there is reasonable cause to believe, based on specific and articulable facts, have been involved, are involved, or pose a significant risk of being or becoming involved in, activities that are contrary to the national security or foreign policy interests of the United States, and those acting on behalf of such persons, may be added to the Entity List. Paragraphs (b)(1) through (b)(5) of § 744.11 include an illustrative list of activities that could be contrary to the national security or foreign policy interests of the United States.

The twenty-six persons being added have been determined by the ERC to be involved in activities that are contrary to the national security or foreign policy interests of the United States, specifically the activities described under paragraphs (b)(1), (b)(2) and/or (b)(4) of § 744.11.

The ERC has determined that two persons being added to the Entity List under the destination of Hong Kong have been involved in activities contrary to the national security and foreign policy interests of the United States, specifically the activities described under paragraph (b)(4)(Preventing Accomplishment of an End-Use Check) of § 744.11 of the EAR. The ERC has reasonable cause to believe that Sinovac Technology Limited and Bing Lu have been involved in the reexport of sensitive U.S.-origin items to

unauthorized end-users and have prevented the accomplishment of an end-use check by or on behalf of BIS.

The ERC also determined that the following nineteen persons being added to the Entity List under the destinations of Lebanon and the U.A.E. have been involved in activities contrary to the national security and foreign policy interests of the United States, specifically the activities described under paragraph (b)(1)(Supporting persons engaged in acts of terror) of § 744.11 of the EAR. The ERC has reasonable cause to believe that Lebanon-based New Intelcom, Power S.A.L., Zener Lebanon, and Wave Tech, as well as U.A.E.-based Wave Tech Computers, Wave Tech Group, Source Com, al Tawasul al Arabi Net Systems, Zener Marine, Zener Navcom, Zener One Net, Zener Electrical & Electronics, Zener Electronics Services, Ivan Desouza, Girish Purushothama, Taha Mansur and Ahmad Assad Fa'ur, as well as al Ajwa al Tiqniah, and Husayn Fa'ur have attempted to procure U.S. technology on behalf of persons involved in activities contrary to the national security and foreign policy interests of the United States. Specifically, these persons have been involved in supplying U.S.-origin items to persons designated by the Secretary of State as Foreign Terrorist Organizations without the required authorizations. Two of the persons, al Ajwa al Tiqniah and Husayn Fa'ur, are being listed under addresses in both Lebanon and the U.A.E. These two additional addresses account for the twenty-seventh and twenty-eighth entries for the twenty-six persons being added to the Entity List in this rule.

Finally, the ERC determined that the following five persons being added to the Entity List under the destinations of Hong Kong and China have engaged in actions contrary to the national security and foreign policy interests of the United States, specifically the activities described under paragraph (b)(2) of § 744.11 of the EAR (Actions that could enhance the military capability of, or the ability to support terrorism of governments that have been designated by the Secretary of State as having repeatedly provided support for international acts of terrorism). Specifically, these persons have engaged in actions that could enhance the capabilities of the Syrian government. These persons are also being added because their overall conduct and deceptive practices pose a risk of ongoing violations of the EAR. These persons, Kinglead Electronic Co., Ltd., JLD Technology Hong Kong Co., Ltd., Synergy Express Ltd., BVI Electronics

and Alpha Lam, participated in a complex and layered network that diverted U.S. origin items through China and Hong Kong and engaged in deceptive actions, including shifting/circuitous routes and false or omitted information on shipping documentation, in an attempt to conceal their activities. These persons, while not under the same ownership or management, are interrelated and arranged for the transshipment of items subject to the EAR to end-users associated with the government of Syria and knowingly engaged in violations of U.S. export control laws. Three of the persons, Kinglead Electronics Co., Ltd., Alpha Lam, and BVI Electronics, are listed under addresses in both Hong Kong and China. These three additional addresses account for the twenty-ninth, thirtieth and thirty-first entries for the twenty-six persons being added to the Entity List in this rule.

Pursuant to § 744.11(b)(1), (b)(2), and (b)(4) of the EAR, the ERC determined that the conduct of these twenty-six persons raises sufficient concern that prior review of exports, reexports, or transfers (in-country) of items subject to the EAR involving these persons, and the possible imposition of license conditions or license denials on shipments to the persons, will enhance BIS's ability to prevent violations of the EAR.

For the twenty-six persons recommended for addition, the ERC specified a license requirement for all items subject to the EAR and a license review policy of presumption of denial. The license requirements apply to any transaction in which items are to be exported, reexported, or transferred (in-country) to any of the persons or in which such persons act as purchaser, intermediate consignee, ultimate consignee, or end-user. In addition, no license exceptions are available for exports, reexports, or transfers (in-country) to the persons being added to the Entity List in this rule.

This final rule adds the following twenty-six persons under thirty-one entries to the Entity List:

Updated Statement of Legal Authority for the EAR

In addition to the Entity List changes described above, this final rule also

updates the authority for part 730 (15 CFR part 730) because of the publication of the Notice of May 7, 2014, *Continuation of the National Emergency With Respect to the Actions of the Government of Syria*, 79 FR 26589 (May 9, 2014), which resulted in a change to the legal authority for part 730 of the EAR. This change is purely procedural and makes no changes other than to revise the CFR authority paragraph in part 730 for the purpose of making the authority citations current. It does not change the text of any section of part 730, nor does it alter any right, obligation or prohibition that applies to any person under the EAR.

Savings Clause

Shipments of items removed from eligibility for a License Exception or export or reexport without a license (NLR) as a result of this regulatory action that were en route aboard a carrier to a port of export or reexport, on June 5, 2014, pursuant to actual orders for export or reexport to a foreign destination, may proceed to that destination under the previous eligibility for a License Exception or export or reexport without a license (NLR).

Export Administration Act

Although the Export Administration Act expired on August 20, 2001, the President, through Executive Order 13222 of August 17, 2001, 3 CFR, 2001 Comp., p. 783 (2002), as amended by Executive Order 13637 of March 8, 2013, 78 FR 16129 (March 13, 2013) and as extended by the Notice of August 8, 2013, 78, 2013, 78 FR 49107 (August 12, 2013), has continued the Export Administration Regulations in effect under the International Emergency Economic Powers Act. BIS continues to carry out the provisions of the Export Administration Act, as appropriate and to the extent permitted by law, pursuant to Executive Order 13222 as amended by Executive Order 13637.

Rulemaking Requirements

1. Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule has been determined to be not

significant for purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to nor be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections previously approved by OMB under control number 0694–0088, Simplified Network Application Processing System, which includes, among other things, license applications and carries a burden estimate of 43.8 minutes for a manual or electronic submission. Total burden hours associated with the PRA and OMB control number 0694–0088 are not expected to increase as a result of this rule. You may send comments regarding the collection of information associated with this rule, including suggestions for reducing the burden, to Jasmeet K. Seehra, Office of Management and Budget (OMB), by email to Jasmeet_K_Seehra@omb.eop.gov, or by fax to (202) 395–7285.

3. This rule does not contain policies with Federalism implications as that term is defined in Executive Order 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public comment and a delay in effective date are inapplicable because this regulation involves a military or foreign affairs function of the United States. (See 5 U.S.C. 553(a)(1)). BIS implements this rule to protect U.S. national security or foreign policy interests by preventing items from being exported, reexported, or transferred (in country) to the persons being added to the Entity List. If this rule were delayed to allow for notice and comment and a delay in effective date, then entities being added to the Entity List by this action would continue to be able to receive items without a license and to conduct activities contrary to the national security or foreign policy interests of the United States. In addition, because these parties may receive notice of the U.S. Government's intention to place these entities on the Entity List if a proposed rule is published, doing so would create an incentive for these persons to either accelerate receiving items subject to the EAR to conduct activities that are contrary to the national security or foreign policy interests of the United States, or to take steps to set up

additional aliases, change addresses, and effect other measures to try to limit the impact of the listing on the Entity List once a final rule was published. Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are not applicable. Accordingly, no regulatory flexibility analysis is required and none has been prepared.

5. For the updated statement of legal authority for the EAR change, the Department finds that there is good cause under 5 U.S.C. 553(b)(3)(B) to waive the provisions of the Administrative Procedure Act requiring prior notice and the opportunity for public comment because they are unnecessary. This change only updates the legal authority citation for part 730. It clarifies information and is non-discretionary. This change does not alter any right, obligation or prohibition that applies to any person under the EAR. Because this revision is not a substantive change, it is unnecessary to provide notice and opportunity for public comment. In addition, the 30-day delay in effectiveness required by 5 U.S.C. 553(d) is not applicable because this change is not substantive. Because neither the Administrative Procedure Act nor any other law requires that notice of proposed rulemaking and an opportunity for public comment be given for this rule, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable.

[Docket No. 120813326-4163-02]

RIN 0648-BC18

U.S. Integrated Ocean Observing
System; Regulations To Certify and
Integrate Regional Information
Coordination Entities

AGENCY: U.S. Integrated Ocean
Observing System Program Office
(IOOS), National Oceanic and
Atmospheric Administration (NOAA),
Commerce.

ACTION: Final rule.

SUMMARY: The U.S. Integrated Ocean
Observing System Program Office, led
by the National Oceanic and

Atmospheric Administration (NOAA),
issues this final rule to implement
provisions of the Integrated Coastal and
Ocean Observation System Act of 2009
(ICOOS Act). Among other things, the
ICOOS Act directs the Interagency
Ocean Observation Committee (IOOC) to
develop and approve certification
criteria and procedures for integrating
regional information coordination
entities (RICEs) into the National
Integrated Coastal and Ocean
Observation System (System). This rule
accomplishes that goal. This rule also
implements the provisions of the ICOOS
Act establishing that certified entities
integrated into the System are, for the
purposes of determining liability arising
from the dissemination and use of
observation data, considered part of
NOAA and therefore their employees
engaged in the collection, management,
and dissemination, of observation data
in the System receive the same tort
protections for use of that data as
Federal employees.

DATES: *Effective date:* July 7, 2014.

ADDRESSES: Copies of the final rule are
available upon request to U.S. Integrated
Ocean Observing System Program
Office, 1100 Wayne Ave., Suite 1225,
Silver Spring, MD 20910. The final rule

can also be viewed on the Web and
downloaded at [http://

SUPPLEMENTARY INFORMATION:**Background**

The Integrated Coastal and Ocean
Observation System Act of 2009 (Pub. L.
111-11) (ICOOS Act or Act) (codified at
33 U.S.C. 3601-3610) directs the
President, acting through the National
Ocean Research Leadership Council
(Council), to establish a National
Integrated Coastal and Ocean
Observation System (System). The
System must “include[] in situ, remote,
and other coastal and ocean observation,
technologies, and data management and
communication systems, and [be]
designed to address regional and
national needs for ocean information, to
gather specific data on key coastal,
ocean, and Great Lakes variables, and to
ensure timely and sustained
dissemination and availability of these
data.” 33 U.S.C. 3601(1). Another
purpose of the System is “to fulfill the
Nation’s international obligations to
