

SECURITIES AND EXCHANGE COMMISSION

[File No. 500–1]

In the Matter of Alternative Energy Partners, Inc. and SK3 Group, Inc.; Order of Suspension of Trading

June 6, 2014.

It appears to the Securities and Exchange Commission that there is a lack of current and accurate information concerning the securities of Alternative Energy Partners, Inc. because of questions concerning the accuracy and adequacy of publicly available information about the company, including, among other things, its business activities, the control of the company, and trading in its securities. Alternative Energy Partners, Inc. is a Florida corporation with a business address in Boca Raton, Florida and its common stock is quoted on OTC Link (previously “Pink Sheets”) operated by OTC Markets Group, Inc. (“OTC Link”) under the ticker symbol AEGY.

It appears to the Securities and Exchange Commission that there is a lack of current and accurate information concerning the securities of SK3 Group, Inc. because of questions concerning the accuracy and adequacy of publicly available information about the company, including, among other things, its business activities, the control of the company, and trading in its securities. SK3 Group, Inc. is a Delaware corporation with a business address in Los Angeles, California and its common stock is quoted on OTC Link under the ticker symbol SKTO.

The Commission is of the opinion that the public interest and the protection of investors require a suspension of trading in the securities of the above-listed companies.

Therefore, it is ordered, pursuant to Section 12(k) of the Securities Exchange Act of 1934, that trading in the securities of the above-listed companies is suspended for the period from 9:30 a.m. EDT on June 6, 2014, through 11:59 p.m. EDT on June 19, 2014.

By the Commission.

Jill M. Peterson,

Assistant Secretary.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Noise Exposure Map; Notice for Merrill Field Airport, Anchorage, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of availability.

SUMMARY: The Federal Aviation Administration (FAA) announces its determination that the noise exposure maps submitted by Municipality of Anchorage, for Merrill Field Airport under the provisions of 49 U.S.C. 47501 et. seq (Aviation Safety and Noise Abatement Act) and 14 CFR part 150 are in compliance with applicable requirements.

DATES: The effective date of the FAA’s determination on the noise exposure maps is June 3, 2014.

FOR FURTHER INFORMATION CONTACT: Michael Edelmann, Federal Aviation Administration, 222 W7th Ave. Suite 14, Anchorage, AK 99513, 907 271–5026, mike.edelmann@faa.gov

SUPPLEMENTARY INFORMATION: This notice announces that the FAA finds that the noise exposure maps submitted for Merrill Field Airport are in compliance with applicable requirements of 14 Code of Federal Regulations (CFR) part 150 (hereinafter referred to as “Part 150”), effective June 3, 2014. Under 49 U.S.C. section 47503 of the Aviation Safety and Noise Abatement Act (hereinafter referred to as “the Act”), an airport operator may submit to the FAA noise exposure maps which meet applicable regulations and which depict non-compatible land uses as of the date of submission of such maps, a description of projected aircraft operations, and the ways in which such operations will affect such maps. The Act requires such maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport. An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Part 150, promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to take to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses.

The FAA has completed its review of the noise exposure maps and accompanying documentation submitted by the Municipality of Anchorage. The documentation that

constitutes the “Noise Exposure Maps” as defined in section 150.7 of Part 150 includes: Existing Conditions NEM (2013), Forecast Conditions NEM (2018), narrative report titled Noise Exposure Map Update, Merrill Field Airport, including appendices. The FAA has determined that these noise exposure maps and accompanying documentation are in compliance with applicable requirements. This determination is effective on June 3, 2014.

FAA’s determination on an airport operator’s noise exposure maps is limited to a finding that the maps were developed in accordance with the procedures contained in Appendix A of Part 150. Such determination does not constitute approval of the applicant’s data, information or plans, or a commitment to approve a noise compatibility program or to fund the implementation of that program. If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a noise exposure map submitted under section 47503 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of section 47506 of the Act. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under Part 150 or through FAA’s review of noise exposure maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator that submitted those maps, or with those public agencies and planning agencies with which consultation is required under section 47503 of the Act. The FAA has relied on the certification by the airport operator, under section 150.21 of Part 150, that the statutorily required consultation has been accomplished.

Copies of the full noise exposure map documentation and of the FAA’s evaluation of the maps are available for examination at the following locations: Federal Aviation Administration,

Alaskan Region,
Airports Division, AAL–600,
222 W7th Ave, Suite 14,
Anchorage, AK 99513,
Available for review 8 a.m. to 4 p.m.
local time.

Municipality of Anchorage, Merrill Field Airport, 800 Merrill Field Drive, Anchorage, AK 99501, Available for review normal business hours.

Questions may be directed to the individual named above under the heading **FOR FURTHER INFORMATION CONTACT**.

Issued in Anchorage, AK, June 3, 2014.

Byron K. Huffman,

Alaskan Region Airports Division Manager, Anchorage, AK.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

[FTA Docket No. FTA-2014-0014]

Agency Information Collection Activity Under OMB Review

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice of request for comments.

SUMMARY: As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, the Federal Transit Administration invites public comment about our intention to request the Office of Management and Budget's (OMB) approval to renew the following information collection under the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 et. seq.):

Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

The **Federal Register** Notice with a 60-day comment period soliciting comments was published on April 8, 2014 (79 FR 19413). No comments were received.

DATES: Comments must be submitted before July 10, 2014. A comment to OMB is most effective if OMB receives it within 30 days of publication.

FOR FURTHER INFORMATION CONTACT: Tia Swain, Office of Administration, Office of Management Planning, (202) 366-0354.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery (OMB Number: 2132-0572)

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the

Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Federal Transit Administration and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management. Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Affected Public: Individuals and households, businesses and organizations, State, Local or Tribal Government.

Below we provide the Federal Transit Administration's projected average estimates for the next three years:

Estimated Total Annual Burden: 581.8 hours.

ADDRESSES: All written comments must refer to the docket number that appears at the top of this document and be submitted to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th

Street NW., Washington, DC 20503, Attention: FTA Desk Officer.

Comments are Invited On: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Dated: June 3, 2014.

Matthew M. Crouch,

Associate Administrator for Administration.

[FTA Docket No. 2014-0013]

Notice of Request for the Extension of a Currently Approved Information Collection

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice of request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the Federal Transit Administration (FTA) to request the Office of Management and Budget (OMB) to renew the following information collection:

Bus Testing Program

This collection involves our Bus Testing Program. The information to be collected for the Bus Testing Program is necessary to ensure that buses have been tested at the Bus Testing Center for maintainability, reliability, safety, performance (including breaking performance), structural integrity, fuel economy, emissions, and noise.

DATES: Comments must be submitted before August 11, 2014.

ADDRESSES: To ensure that your comments are not entered more than once into the docket, submit comments identified by the docket number by only one of the following methods:

1. **Web site:** www.regulations.gov. Follow the instructions for submitting comments on the U.S. Government electronic docket site. (**Note:** The U.S. Department of Transportation's (DOT's) electronic docket is no longer accepting
