SUPPLEMENTARY INFORMATION:

Public Comments

We will accept written comments and information during this extended comment period on our draft policy regarding implementation of section 4(b)(2) of the Endangered Species Act of 1973, as amended (Act; 16 U.S.C. 1531 *et seq.*), that was published in the *Federal Register* on May 12, 2014 (79 FR 27052). We will consider information we receive from all interested parties on or before the close of the comment period (see **DATES**).

If you submitted comments or information during the public comment period that began May 12, 2014, please do not resubmit them. We have incorporated them into the public record, and we will fully consider them in the preparation of our final policy.

You may submit your comments and materials by one of the methods listed in **ADDRESSES**. We request that you send comments only by the methods described in **ADDRESSES**.

If you submit a comment via <http://www.regulations.gov>, your entire comment—including any personal identifying information—will be posted on the Web site. We will post all

Background

On May 12, 2014, we published three related documents concerning designation and implementation of critical habitat under the Act: Two proposed regulation amendments and one draft policy. This notice extends the comment period for the draft policy, and a separate document published elsewhere in today's issue of the *Federal Register* extends the comment periods for the two proposed regulation amendments. The document for which we are extending the comment period in this notice announces a draft policy regarding implementation of section 4(b)(2) of the Act.

Specifically, the draft policy on exclusions from critical habitat under the Act provides the Services' position on how we consider partnerships and conservation plans, conservation plans permitted under section 10 of the Act, tribal lands, national security and homeland security impacts and military lands, Federal lands, and economic impacts in the exclusion process. The draft policy is meant to complement the amendments to our regulations regarding impact analyses of critical habitat designations and is intended to clarify expectations regarding critical habitat and provide for a credible, predictable, and simplified critical-habitat-exclusion process.
