NPRM Notice of Proposed Rulemaking

A. Regulatory History and Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest."

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. The Coast Guard received the information about the revised location of the fireworks display on June 2, 2014, and the fireworks display would occur before the rulemaking process would be completed. Because of the dangers posed by the pyrotechnics used in this fireworks display, the safety zones are necessary to provide for the safety of event participants, spectators, spectator craft, and other vessels transiting the event area. For the safety concerns noted, it is in the public interest to have these regulations in effect during the event.

B. Basis and Purpose

The legal basis for the proposed rule is 33 U.S.C. 1231; 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05-1, 6.04-1, 6.04-6, 160.5; Public Law 107-295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1, which collectively authorize the Coast Guard to establish safety zones.

San Francisco Travel Association will sponsor the San Francisco Independence Day Fireworks Display on July 4, 2014, near Aquatic Park in San Francisco, CA in approximate positions 37°48'49" N, 122°24'46" W and 37°48'39" N, 122°25'37" W (NAD83) as depicted in National Oceanic and Atmospheric Administration (NOAA) Chart 18650. These safety zones

establish a temporary restricted area on the waters 100 feet surrounding the fireworks barges during the loading, transit and arrival of the pyrotechnics from the loading site to the launch sites and until the commencement of the fireworks display. Upon the commencement of the fireworks display, the safety zones will increase in size and encompass the navigable waters around the fireworks barges within a radius of 700 feet. The fireworks display is meant for entertainment purposes. This restricted area around the fireworks barges is necessary to protect spectators, vessels, and other property from the hazards associated with pyrotechnics.

C. Discussion of the Final Rule

The Coast Guard will enforce the San Francisco Independence Day Fireworks Display safety zones from 9 a.m. on July 3, 2014 through 10:15 p.m. on July 4, 2014.

During the loading of the fireworks barges, while the barges are being towed to the display location, and until the start of the fireworks display, the safety zones apply to the navigable waters around and under the fireworks barges within a radius of 100 feet. Loading of the pyrotechnics onto the fireworks barges is scheduled to take place from 9 a.m. until 2 p.m. on July 3, 2014, and will take place at Pier 50 in San Francisco, CA. Towing of the barges from Pier 50 to the display locations is scheduled to take place from 8 p.m. until 8:45 p.m. on July 4, 2014. Upon the commencement of the 25 minute fireworks display, scheduled to take place from 9:30 p.m. until 9:55 p.m. on July 4, 2014, the safety zones will increase in size and encompass the navigable waters around and under the fireworks barges within a radius of 700 feet and the will be located 1,000 feet off of Pier 39 in approximate position 37°48'49" N, 122°24'46" W (NAD 83) and 900 feet off the Municipal Pier in approximate location 37°48'39" N, 122°25'37" W (NAD 83) for the San Francisco Independence Day Fireworks Display. At the conclusion of the fireworks display the safety zones shall terminate.

The effect of the temporary safety zones will be to restrict navigation in the vicinity of the launch site until the conclusion of the scheduled display. Except for persons or vessels authorized by the Coast Guard Patrol Commander, no person or vessel may enter or remain in the restricted areas. These regulations are needed to keep spectators and vessels away from the immediate vicinity of the launch sites to ensure the
