Notice of Intent To Prepare a Programmatic Environmental Assessment and Notice of Public Scoping Period; Wildfire Mitigation Programmatic Environmental Assessment

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, the Federal Emergency Management Agency (FEMA) is proposing to prepare a programmatic environmental assessment (PEA) to evaluate the potential beneficial and adverse impacts from eligible wildfire mitigation activities funded under the Hazard Mitigation Grant Program (HMGP) and Pre-Disaster Mitigation (PDM) Program. This PEA will evaluate the environmental impacts of continuing to fund eligible activities under these programs (Proposed Action). FEMA anticipates that this programmatic approach will result in better decision-making, and will improve the timeliness and efficiency of environmental reviews. The identification of specific activities that would not require additional environmental review, along with project-specific reviews informed by or "tiered to" the PEA, will improve efficiency by helping to streamline the process of environmental review.

FEMA provides this notice to advise other Federal and State agencies, Territories, Indian Tribal Governments, local governments, private non-profit and other non-governmental organizations, and the public of our intent to prepare a PEA, to provide information on the nature of the analysis, and to invite public input on the scope of issues, proposed alternatives, potential effects and measures to lessen those effects that may be considered. Agencies, interested parties, and the public are invited to submit comments on the scope of the PEA at any time during the public comment period.

II. Background

The Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), 42 U.S.C. 5121 *et seq.*, authorizes FEMA to provide funding for the purpose of reducing or eliminating risks to human life and property from future hazard events, such as wildfire. Wildfires are defined as any uncontrolled fires occurring within natural landscapes such as forests and brush. FEMA funds wildfire mitigation activities through two programs: the Pre-Disaster Mitigation (PDM) program (authorized by Section 203 of the Stafford Act, 42 U.S.C. 5133) and the Hazard Mitigation Grant Program (HMGP) (authorized by Section 404 of the Stafford Act, 42 U.S.C. 5170c). Through these programs, FEMA provides grants to local governments, private non-profit organizations, Territories, Indian Tribal Governments,
