Final Southeast Missouri Ozarks Regional Restoration Plan and Environmental Assessment and Finding of No Significant Impact

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability

SUMMARY: This notice advises the public and other agencies of the availability of the Finding of No Significant Impact for the Final Southeast Missouri Ozarks Regional Restoration Plan and Environmental Assessment. The chosen alternative, Alternative D, provides a project selection process for natural resource-based restoration, using a tiered project selection process that evaluates the feasibility of primary restoration, compensatory restoration, and acquisition of equivalent resources. The Plan was written to facilitate the expenditure of restoration funds in the southeast Missouri Ozarks resulting from the release of mining-related hazardous substances. The restoration plan complies with statutory requirement under the Comprehensive Environmental Response, Compensation, and Liability Act, enabling the expenditures of recovered restoration funds to benefit natural resources. This notice is provided

pursuant to Natural Resource Damage Assessment and Restoration regulations and National Environmental Policy Act regulations.

SUPPLEMENTARY INFORMATION: This notice advises the public and other agencies of the availability of the Finding of No Significant Impact (FONSI) for the Final Southeast Missouri Ozarks Regional Restoration Plan and Environmental Assessment (Plan). The following agencies formally selected Alternative D of the Plan through signing of the FONSI: The U.S. Department of the Interior (DOI), acting through the U.S. Fish and Wildlife Service (FWS); the United States Department of Agriculture, acting through the U.S. Forest Service (USFS); and the State of Missouri, acting through the Missouri Department of Natural Resources (MDNR). Alternative D provides a project selection process for natural resource-based restoration, using a tiered project selection process that evaluates the feasibility of primary restoration, compensatory restoration, and acquisition of equivalent resources. The Plan was written to facilitate the expenditure of restoration in the southeast Missouri Ozarks resulting from the release of mining-related hazardous substances.

The FWS, the USFS, and the MDNR (Trustees) are trustees for natural resources considered in the Plan, pursuant to subpart G of the National Oil and Hazardous Substances Pollution Contingency Plan (40 CFR 300.600 and 300.610) and Executive Order 12580. The *Memorandum of Understanding*

Between the Missouri Department of Natural Resources, U.S. Department of Agriculture, and U.S. Department of the Interior establishes a Trustee Council charged with developing and implementing a restoration plan for ecological restoration in the southeast Missouri Ozarks. The Trustees followed the Natural Resource Damage Assessment and Restoration (NRDAR) regulations found at 43 CFR part 11 for the development of the Plan. The development of the restoration plan is required under section 111 of the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 111; CERCLA).

The objective of the NRDAR process is to compensate the public for losses to natural resources and their services that have been injured by releases of hazardous substances into the environment. The Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA, more commonly known as the Federal “Superfund” law; 42 U.S.C. 9601, *et seq.*) and the Federal Water Pollution Control Act (commonly known as the Clean Water Act (CWA); 33 U.S.C. 1251, *et seq.*) authorize States, federally recognized tribes, and certain Federal agencies that have authority for natural resources “belonging to, managed by, held in trust by, appertaining to, or otherwise controlled by the United States” to act as “trustees” on behalf of the public, to restore, rehabilitate, replace, and/or acquire natural resources equivalent to those injured by releases of hazardous substances.

The Trustees have worked together to determine the appropriate restoration process to identify and select restoration projects to address natural resource injuries caused by the release of hazardous substances into the southeast Missouri Ozarks environment. The results of this administrative process are contained in a series of planning and decision documents that were published for public review on the following Web sites:

<http://www.fws.gov/midwest/es/ec/nrda/SEMONRDA/index.html>
<http://www.dnr.mo.gov/env/hwp/sfund/nrda.htm>

On September 20, 2013, the FWS published a **Federal Register** notice opening a 45-day public comment period on the Draft Southeast Missouri Ozarks Regional Restoration Plan and Environmental Assessment (78 FR 57875). In response to comments received, the Trustees extended the original public comment period for an additional 30 days to December 4, 2013.

Comments received during the above public comment period were incorporated into the final document. This current notice of availability informs the public that the Trustees have formally selected Alternative D of the Plan through the signing of a Finding of No Significant Impact (FONSI).

Authority

This notice is provided pursuant to Natural Resource Damage Assessment and Restoration (NRDAR) regulations (43 CFR 11.81(d)(4)) and NEPA (National Environmental Policy Act) regulations (40 CFR 1506.6).

Dated: June 26, 2014.

Charles Wooley,

*Acting Regional Director, Midwest Region,
U.S. Fish and Wildlife Service.*

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Decision Approving Lands for Conveyance.

SUMMARY: As required by 43 CFR 2650.7(d), notice is hereby given that an appealable decision will be issued by the Bureau of Land Management (BLM) to NANA Regional Corporation, Inc. Successor in Interest to Katyaak Corporation. The decision approves the surface estate in the lands described below for conveyance pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601, *et seq.*). The subsurface estate in these lands will be conveyed to NANA Regional Corporation, Inc. when the surface estate is conveyed to NANA Regional Corporation, Inc., as Successor in Interest to Katyaak Corporation. Katyaak Corporation was the original ANCSA corporation for the village of Kiana, but merged with the NANA Regional Corporation in 1976 under the authority of PL 94-204. The lands are in the vicinity of Kiana, Alaska, and are located in:

Kateel River Meridian, Alaska

T. 17 N., R. 8 W.,
Sec. 18.

Containing 365.34 acres.

Notice of the decision will also be published once a week for four

consecutive weeks in the *Arctic Sounder*.

DATES: Any party claiming a property interest in the lands affected by the decision may appeal the decision in accordance with the requirements of 43 CFR part 4 within the following time limits:

1. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, parties who fail or refuse to sign their return receipt, and parties who receive a copy of the decision by regular mail which is not certified, return receipt requested, shall have until August 25, 2014 to file an appeal.

2. Parties receiving service of the decision by certified mail shall have 30 days from the date of receipt to file an appeal.

Parties who do not file an appeal in accordance with the requirements of 43 CFR part 4 shall be deemed to have waived their rights. Notices of appeal transmitted by electronic means, such as facsimile or email, will not be accepted as timely filed.

ADDRESSES: A copy of the decision may be obtained from: Bureau of Land Management, Alaska State Office, 222 West Seventh Avenue, #13, Anchorage, AK 99513-7504.
