SUPPLEMENTARY INFORMATION:

I. Abstract

The Division of Economic Development (DED), within the Office of Indian Energy and Economic Development (IEED), established the Native American Business Development Institute (NABDI) to provide technical assistance funding to federally recognized American Indian tribes seeking to retain universities and colleges, private consulting firms, non-academic/non-profit entities, or others to prepare studies of economic development opportunities or plans. These studies and plans will empower American Indian tribes and tribal businesses to make informed decisions regarding their economic futures. Studies may concern the viability of an economic development project or business or the practicality of a technology a tribe may choose to pursue. The DED will specifically exclude from consideration proposals for research and development projects, requests for funding of salaries for tribal government personnel, funding to pay legal fees, and requests for funding for the purchase or lease of structures, machinery, hardware or other capital items. Plans may encompass future periods of five years or more and include one or more economic development factors including but not limited to land and retail use, industrial development, tourism, energy, resource development and transportation.

This is an annual program whose primary objective is to create jobs and foster economic activity within tribal communities. The DED will administer the program within IEED; and studies and plans as described herein will be sole discretionary projects DED will consider or fund absent a competitive bidding process. When funding is available, DED will solicit proposals for studies and plans. To receive these funds, tribes may use the contracting mechanism established by Public Law 93-638, the Indian Self-Determination Act or may obtain adjustments to their funding from the Office of Self-Governance. See 25 U.S.C. 450 *et seq.*

Interested applicants must submit a tribal resolution requesting funding, a statement of work describing the project for which the study is requested or the scope of the plan envisioned, the identity of the academic institution or other entity the applicant wishes to retain (if known) and a budget indicating the funding amount requested and how it will be spent. The DED expressly retains the authority to reduce or otherwise modify proposed budgets and funding amounts.

Applications for funding will be juried and evaluated on the basis of a proposed project's potential to generate jobs and economic activity on the reservation.

II. Request for Comments

The IEED requests your comments on this collection concerning: (a) The necessity of this information collection for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) The accuracy of the agency's estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) Ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) Ways we could minimize the burden of the collection of the information on the respondents.

Please note that an agency may not conduct or sponsor, and an individual need not respond to, a collection of information unless it has a valid OMB Control Number.

It is our policy to make all comments available to the public for review at the location listed in the **ADDRESSES** section. Before including your address, phone number, email address or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
