

the end of the *Interim Final Rule*.⁵ All segments of any antidumping duty or countervailing duty proceedings initiated on or after August 16, 2013, should use the formats for the revised certifications provided at the end of the *Final Rule*.⁶ The Department intends to reject factual submissions in any proceeding segments if the submitting party does not comply with applicable revised certification requirements.

Revised Extension of Time Limits Regulation

On September 20, 2013, the Department modified its regulation concerning the extension of time limits for submissions in antidumping and countervailing duty proceedings: *Final Rule*, 78 FR 57790 (September 20, 2013). The modification clarifies that parties may request an extension of time limits before a time limit established under Part 351 expires, or as otherwise specified by the Secretary. In general, an extension request will be considered untimely if it is filed after the time limit established under Part 351 expires. For submissions which are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. on the due date. Examples include, but are not limited to: (1) Case and rebuttal briefs, filed pursuant to 19 CFR 351.309; (2) factual information to value factors under 19 CFR 351.408(c), or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2), filed pursuant to 19 CFR 351.301(c)(3) and rebuttal, clarification and correction filed pursuant to 19 CFR 351.301(c)(3)(iv); (3) comments concerning the selection of a surrogate country and surrogate values and rebuttal; (4) comments concerning U.S. Customs and Border Protection data; and (5) quantity and value questionnaires. Under certain circumstances, the Department may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, the

Department will inform parties in the letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. This modification also requires that an extension request must be made in a separate, stand-alone submission, and clarifies the circumstances under which the Department will grant untimely-filed requests for the extension of time limits. These modifications are effective for all segments initiated on or after October 21, 2013. Please review the final rule, available at <http://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>, prior to submitting factual information in these segments.

These initiations and this notice are in accordance with section 751(a) of the Act (19 USC 1675(a)) and 19 CFR 351.221(c)(1)(i).

Dated: July 24, 2014.

Ferrosilicon From the Russian Federation: Final Determination of Sales at Not Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("the Department") determines that ferrosilicon from the Russian Federation ("Russia") is not being, nor is likely to be, sold in the United States at less than fair value ("LTFV"), as provided in section 735 of the Tariff Act of 1930, as amended ("the Act"). The final weighted-average dumping margin is listed below in the section entitled "Final Determination."

DATES: *Effective Date:* July 31, 2014.

FOR FURTHER INFORMATION CONTACT: Irene Gorelik, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-6905.

SUPPLEMENTARY INFORMATION:

Background

On March 11, 2014, the Department published in the **Federal Register** the

preliminary determination of sales at not LTFV in the antidumping duty investigation of ferrosilicon from Russia.¹ The following events have occurred since we issued the *Preliminary Determination*. We issued a supplemental questionnaire to RFA International LP ("RFAI") and received a response on March 14, 2014. On March 24, 2014, CC Metals and Alloys, LLC and Globe Specialty Metals, Inc.² (together, "Petitioners") filed pre-verification comments. The Department conducted the home market cost and sales verifications from March 24, through April 8, 2014, and the U.S. sales verification from April 14, through April 17, 2014. The Department issued the cost verification report on April 23, 2014. On April 25, 2014, Petitioners filed comments regarding the home market sales verification. Petitioners also requested a meeting to discuss those verification comments which we held on May 30, 2014. The Department released the home market sales verification report on May 23, 2014, and the constructed export price ("CEP") verification report on May 27, 2014. On the same date, the Department (1) requested that RFAI submit revised U.S. sales data based on the CEP verification corrections, and (2) notified interested parties of the case and rebuttal brief schedule. On June 10, 2014, Petitioners and RFAI filed case briefs. On June 20, 2014, Petitioners and RFAI filed rebuttal briefs.³ On July 7, 2014, the Department held closed and public hearings, based on Petitioners' timely filed requests.

Period of Investigation

The period of investigation ("POI") is July 1, 2012, through June 30, 2013.

Scope of the Investigation

The merchandise covered by this investigation is all forms and sizes of ferrosilicon, regardless of grade, including ferrosilicon briquettes. Ferrosilicon is a ferroalloy containing by weight four percent or more iron, more

¹ See *Ferrosilicon From the Russian Federation: Preliminary Determination of Sales at Not Less Than Fair Value*, 79 FR 13620 (March 11, 2014).

² The original Petitions were filed on behalf of Globe Specialty Metals, Inc. ("GSM"), CC Metals and Alloys, LLC ("CCMA"), and the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, and the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America. However, only GSM and CCMA filed comments and arguments on behalf of these parties since before the *Preliminary Determination*.

³ On July 3, 2014, Petitioners filed rebuttal briefs excluding information which we directed Petitioners to redact from their rebuttal brief dated June 20, 2014. See Letter to Petitioners dated July 2, 2014, requesting filing of rebuttal brief excluding redacted information.

than eight percent but not more than 96 percent silicon, three percent or less phosphorus, 30 percent or less manganese, less than three percent magnesium, and 10 percent or less any other element. The merchandise covered also includes product described as slag, if the product meets these specifications.

Ferrosilicon is currently classified under U.S. Harmonized Tariff Schedule ("HTSUS") subheadings 7202.21.1000, 7202.21.5000, 7202.21.7500, 7202.21.9000, 7202.29.0010, and 7202.29.0050. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties in this investigation are addressed in the Issues and Decision Memorandum,⁴ which is hereby adopted by this notice. A list of the issues raised is attached to this notice as an Appendix. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). IA ACCESS is available to registered users at <http://iaaccess.trade.gov> and it is available to all parties in the Central Records Unit, Room 7046 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

Changes Since the Preliminary Determination

Based on our analysis of the comments received and our findings at verification, we made certain changes to the margin calculations. For a discussion of these changes, see the "Margin Calculations" section of the Issues and Decision Memorandum.

Verification

As provided in section 782(i) of the Act, in March and April 2014, we verified RFAI's cost and sales information for use in our final determination. We used standard verification procedures, including an

examination of relevant accounting and production records and RFAI's original source documents.⁵

Final Determination

The weighted-average dumping margin is as follows:

Producer or exporter	Weighted-average margin (percent)
RFA International LP ⁶	0.00

Consistent with section 735(c)(1)(B) of the Act, the Department has not calculated a weighted-average dumping margin for all other producers or exporters because it has not made an affirmative final determination of sales at LTFV.

Disclosure

We will disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

Suspension of Liquidation

Because the weighted-average dumping margin for the examined company is *de minimis*, we are not directing U.S. Customs and Border Protection to suspend liquidation of entries of ferrosilicon from Russia.

U.S. International Trade Commission ("ITC") Notification

In accordance with section 735(d) of the Act, we notified the ITC of our final determination. As our final determination is negative, this proceeding is terminated.

Return or Destruction of Proprietary Information

This notice will serve as the only reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the

destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this determination and notice in accordance with sections 735(d) and 777(i) of the Act.

Dated: July 24, 2014.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

⁶ In the *Preliminary Determination*, we found that RFAI, CHEMK, and JSC Kuznetskie Ferrosplavy comprise a single entity. See *Preliminary Determination*, 79 FR at 13621 & n.7. The Department has not received any information that places that determination into doubt. Therefore, we continue to find that these three companies comprise a single entity for purposes of the antidumping duty law.
