

in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed rulemaking action, in which EPA is proposing approval of the redesignation requests and maintenance plan submitted by the District of Columbia, the Commonwealth of Virginia, and the State of Maryland for the 1997 annual PM_{2.5} Washington Area, does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

Summary

We extend the deadline for filing reply comments in response to the *Further Notice of Proposed Rulemaking (FNPRM)* to allow parties to more thoroughly address the complex technical, legal, and policy issues raised in the *FNPRM* and in the record. Interested parties will now have until August 15, 2014 to file reply comments.

On July 23, 2014, the Satellite Industry Association (SIA) filed a motion to extend the reply comment deadline for the *FNPRM* from August 1 until August 15, 2014. SIA asserts that additional time is needed to respond to significant technical issues raised in the extensive record. In addition, SIA notes that, during the scheduled reply comment period, many of the technical personnel responsible for analyzing issues raised in the *FNPRM* on behalf of SIA member companies will be unavailable. These personnel will be attending meetings of the ITU Joint Task Working Groups preparing for WRC-15.

On July 24, 2014, the Public Interest Spectrum Coalition, Utilities Telecom Council, and Wireless Internet Service Providers Association (Petitioners) filed a joint request (Joint Extension Request) to extend the reply comment deadline until August 15, 2014. Petitioners assert that extenuating circumstances warrant an extension and that the requested extension would be consistent with the public interest. Specifically, the Joint Extension Request asserts that additional time is needed to accurately assess and prepare responses to the relatively large volume of comments filed in response to the *FNPRM*, many of which addressed complicated technical issues. The Petitioners also note that the Commission's Electronic Comment Filing System was largely inaccessible during the two days following the July 14, 2014 comment deadline and that the **Federal Register** publication date of the *FNPRM* removed an additional two days from the contemplated reply comment window. In addition, the Petitioners note that many of the parties that have filed

comments in this proceeding have also been participating in the Open Internet proceeding and other Commission rulemakings with overlapping deadlines. The Petitioners contend that the requested extension would not prejudice other parties or delay consideration of the record and that the Commission's work would be assisted by more robust participation in the reply comment phase.

It is the general policy of the Commission that extensions of time shall not be routinely granted. *See* 47 CFR 1.46(a). However, under these circumstances, we agree that an extension of time to file reply comments is warranted to ensure that the Commission obtains a complete and thorough record in response to the *FNPRM*. The *FNPRM* sought comment on a wide variety of novel technical, policy and legal issues related to the establishment of the proposed Citizens Broadband Radio Service. We conclude that a short extension of time is warranted to enable interested parties sufficient opportunity to review and respond to the complex issues raised by the *FNPRM*. Accordingly, pursuant to section 4(i) of the Communications Act of 1934, 47 U.S.C. 154(i), as amended, and section 1.46 of the Commission's rules, 47 CFR 1.46, we extend the deadline for filing reply comments until August 15, 2014.

Federal Communications Commission.

John Leibovitz,

Deputy Chief, Wireless Telecommunications Bureau.
