SUPPLEMENTARY INFORMATION: We encourage you to submit comments (or related material) on the NY/NJ ACP. We will consider all submissions and may revise the NY/NJ ACP based on the NY/NJ Area Committee's direction and your comments. Comments should be marked with docket number USCG-2014-0602 and should provide a reason for each suggestion or recommendation. You should provide personal contact information so that we can contact you if we have questions regarding your comments; but please note that all comments will be posted to the online docket without change and that any personal information you include can be searchable online (see the **Federal Register** Privacy Act notice regarding our public dockets, 73 FR 3316, Jan. 17, 2008).

Mailed or hand-delivered comments should be in an unbound 8½ x 11 inch format suitable for reproduction. The Docket Management Facility will acknowledge receipt of mailed comments if you enclose a stamped, self-addressed postcard or envelope with your submission.

Documents mentioned in this notice, and all public comments, are in our online docket at <http://www.regulations.gov> and can be viewed by following the Web site's instructions. You can also view the docket at the Docket Management Facility (see the mailing address under **ADDRESSES**) between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Basis and Purpose

This ACP is required by Title IV, Section 4202 of the Oil Pollution Act of 1990, which amends Subsection (j) of Section 311 of the Federal Water Pollution Control Act (33 U.S.C. 1321 (j)), as amended by the Clean Water Act of 1977 (33 U.S.C. 1251 et. seq.) to address the development of a National Planning and Response System. This

ACP is also written in conjunction with the National Oil and Hazardous Substance Pollution Contingency Plan (NCP) (40 CFR 300) and the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (42 U.S.C. 9601) as amended by the Superfund Amendments and Reauthorization Act of 1986.

Under the National Contingency Plan (NCP) (40 CFR 300), the Coast Guard and Environmental Protection Agency (EPA) provide the leadership of the National Response Team (NRT), the Regional Response Teams (RRT) and local Area Committees to engage the National Response System to verify threats (spill potential), risks (resources that might be harmed in a spill), and establish the strategies necessary to prepare for and respond to a pollution incident or event. Pursuant to Executive Order 12777 of October 22, 1991, the EPA is responsible for the inland zone and the Coast Guard is responsible for the coastal zone. The Coast Guard and EPA are responsible for organizing and overseeing the NY/NJ Area Committee and the NY/NJ Area Committee is responsible for developing the NY/NJ ACP. ACPs are periodically reviewed and revised. The NY/NJ ACP is currently under review.

The coastal zone addressed by the NY/NJ ACP is situated within the boundaries of the RRT for Region 2 (RRT-II). At a meeting on April 9-10, 2014, in Albany, New York, a meeting of the RRT-II discussed response preparations for potential crude oil spills on the Hudson River with members from the NY/NJ Area Committee, numerous federal and state agencies, as well as attendees from private industry, nongovernmental organizations, the media and private citizens. The discussions that occurred at the RRT-II's April 9-10, 2014 meeting will be used in updating the NY/NJ ACP, as well as the results and lessons learned from the National Preparedness for Response Exercise Program (PREP) exercises of the ACP. The most recent full-scale PREP exercise was held on September 17, 2013 and was based upon a spill scenario in western Long Island Sound that impacted both New York and Connecticut.

Request for Comments

The Coast Guard is aware of reports of increased oil transport in the coastal zone covered by the NY/NJ ACP. We are also aware of an increased national trend to move oil via rail through the Coastal Zone. The Coast Guard is, therefore, particularly interested in

receiving public comment regarding the transport of oil via rail through the coastal zone covered by the NY/NJ ACP. Public input will be used to assist the Coast Guard in determining response resource needs in updating the NY/NJ ACP.

The Coast Guard and EPA are working with representatives from the State of New York and other federal agencies of the NY/NJ Area Committee to schedule additional public engagement opportunities to obtain public input on the NY/NJ ACP. We will announce the time and place of any meetings by a later notice in the **Federal Register**. In accordance with 40 CFR 1506.6(b)(1), the Coast Guard will inform those persons who may be interested in participating in the NY/NJ Area Committee's update of the NY/NJ ACP. Individual contact information for updates on the NY/NJ ACP or an opportunity to participate in the NY/NJ Area Committee process should be provided to the person listed in the **FOR FURTHER INFORMATION CONTACT** paragraph by October 10, 2014.

This notice is issued under authority of 33 U.S.C. 1321(j) and, 5 U.S.C. 552(a).

Dated: July 17, 2014.

G.A. Loebl,

Captain, U.S. Coast Guard, Captain of the Port, New York.

Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD has submitted to OMB a request for approval of the information collection described in Section A. The **Federal Register** notice that solicited public comment on proposed changes to the survey for a period of 60 days was published on January 28, 2014, and serves as the required 60 day notice.

A. Overview of Information Collection

Title of Information Collection: Manufactured Housing Survey (formerly known as the Survey of New Manufactured (Mobile) Home Placements).

OMB Control Number: 2528-0029.

Form Number: C-MH-9A.

Type of Review: Regular Submission.

Description of the need for the information and proposed use: This survey is used to collect data on new manufactured homes. The data are collected from manufactured home dealers. The principal user, HUD, uses the statistics to monitor trends in this type of low-cost housing; to formulate policy, draft legislation, and evaluate programs.

Starting in fiscal year 2015, HUD intends to change the way data is collected such that the survey will no longer follow each unit until it is placed on a site. Instead, each dealer receiving a manufactured housing unit selected for the sample is contacted only once to collect information about that unit. This change will substantially reduce the cost of the survey. The new data collection strategy will not be sufficient to produce estimates of dealer's inventory. However, estimates of placements will continue to be produced using a revised methodology.

Members of affected public: Business or other for profit (Manufactured home dealers).

Estimated Number of Respondents: 4,800 yearly (maximum).

Estimated Time per Response: 20 minutes.

Frequency of Response: 1 time.

Estimated Total Annual Burden Hours: 1,600.

Estimated Total Annual Cost: The only cost to respondents is that of their time. The total estimated cost in FY 2015 is \$380,000.

Respondent's Obligation: Voluntary.
