Additional information about the 2015 DGAC and this meeting is available on the Internet at www.DietaryGuidelines.gov.

SUPPLEMENTARY INFORMATION: Under Section 301 of Public Law 101-445 (7 U.S.C. 5341, the National Nutrition Monitoring and Related Research Act of 1990, Title III) the Secretaries of Health and Human Services (HHS) and Agriculture (USDA) are directed to issue at least every five years a report titled *Dietary Guidelines for Americans*. The law instructs that this publication shall contain nutritional and dietary information and guidelines for the general public, shall be based on the preponderance of scientific and medical knowledge current at the time of publication, and shall be promoted by each federal agency in carrying out any federal food, nutrition, or health

program. The *Dietary Guidelines for Americans* was issued voluntarily by HHS and USDA in 1980, 1985, and 1990; the 1995 edition was the first statutorily mandated report, followed by subsequent editions at appropriate intervals. To assist with satisfying the mandate, a discretionary federal advisory committee is established every five years to provide independent, science-based advice and recommendations. The DGAC consists of a panel of experts who were selected from the public/private sector. Individuals who were selected to serve on the Committee have current scientific knowledge in the field of human nutrition and chronic disease.

Appointed Committee Members:

Fourteen members currently serve on the 2015 DGAC. They were appointed by the Secretaries of HHS and USDA in May 2013. Information on the DGAC membership is available at www.DietaryGuidelines.gov.

Authority: The 2015 DGAC is authorized under 42 U.S.C. 217a, Section 222 of the Public Health Service Act, as amended.

Committee's Task: The work of the DGAC is solely advisory in nature and time-limited. The Committee is tasked with developing recommendations based on the preponderance of current scientific and medical knowledge using a systematic review approach. The DGAC will examine the current *Dietary Guidelines for Americans*, take into consideration new scientific evidence and current resource documents, and develop a report that is to be given to the Secretaries of HHS and USDA. The report will outline science-based recommendations and rationales which will serve as the basis for developing the eighth edition of the *Dietary Guidelines for Americans*. It is planned for the Committee to hold approximately six public meetings to review and discuss recommendations. This will be the fifth meeting of the 2015 DGAC. Meeting dates, times, locations, and other relevant information are announced at least 15 days in advance of each meeting via **Federal Register** notice. As stipulated in the charter, the Committee will be terminated after delivery of its final report to the Secretaries of HHS and USDA or two years from the date the charter was filed, whichever comes first.

Purpose of the Meeting: In accordance with FACA and to promote transparency of the process, deliberations of the Committee will occur in a public forum. At this meeting, the Committee will continue its deliberations.

Meeting Agenda: The meeting agenda will include (a) review of Committee work since the last public meeting and (b) plans for future Committee work.

Meeting Registration: The meeting will be publicly accessible by webcast on the Internet; registration is required and is expected to open on August 19, 2014. To register, please go to www.DietaryGuidelines.gov and click on the link for "Meeting Registration." To register by phone, please call National Capitol Contracting, Andrea Popp at (703) 243-9696 by 5:00 p.m. E.D.T., September 10, 2014. Registration must include name, affiliation, and phone number or email address. After registering, individuals will receive webcast access information via email.

Written Public Comments: Written comments from the public will continue to be accepted throughout the Committee's deliberative process. Written public comments can be submitted and/or viewed at www.DietaryGuidelines.gov using the "Submit Comments" and "Read Comments" links, respectively. Those commenting are asked to provide comments as early as possible in the Committee's process to increase the opportunity for meaningful impact. There is no deadline for comment submission prior to each public meeting. The Committee requests that commenters provide a brief (250 words) summary of the points or issues in the comment text box. If commenters are providing literature or other resources, complete citations or abstracts and electronic links to full articles or reports are preferred instead of attaching these documents to the comment. As the Committee continues its work, it may request additional public comments on specific topics; these requests and any instructions for submitting them are posted on the Web site.

Meeting Documents: Documents pertaining to Committee deliberations, including meeting agendas, summaries, and webcasts will be available on www.DietaryGuidelines.gov under "Meetings." Meeting information will continue to be accessible online, at the NIH Library, and upon request at the Office of Disease Prevention and Health Promotion, OASH/HHS; 1101 Wootton Parkway, Suite LL100 Tower Building; Rockville, MD 20852; Telephone (240) 453-8280; Fax: (240) 453-8281.

Dated: August 4, 2014.

Don Wright,

Deputy Assistant Secretary for Health, Office of Disease Prevention and Health Promotion, Office of the Assistant Secretary for Health, U.S. Department of Health and Human Services.

Dated: August 5, 2014.

Angela Tagtow,

Executive Director, Center for Nutrition Policy and Promotion, U.S. Department of Agriculture.

Dated: August 7, 2014.

Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. To request more information on the below proposed project or to obtain a copy of the information collection plan and instruments, call 404-639-7570 or send comments to Leroy A. Richardson, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an email to omb@cdc.gov.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget (OMB) approval. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services

to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. Written comments should be received within 60 days of this notice.

Proposed Project

Survey of Rapid Influenza Diagnostic Testing (RIDT) Practices in Clinical Laboratories and Evaluation of Laboratory Course (OMB Control No. 0920-0924, expired 02/28/2013)—Reinstatement with Change — Center for Surveillance, Epidemiology, and Laboratory Services, Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The purpose of this request is to obtain Office of Management and Budget (OMB) approval to reinstate with change, the data collection for the Survey of Rapid Influenza Diagnostic Test (RIDT) Practices in Clinical Laboratories (OMB Control No. 0920-0924). OMB approval for the 2012 RIDT project expired February 28, 2013. CDC seeks a three year approval to conduct the RIDT project.

Changes incorporated into this reinstatement request include changing the name of the collection to "Survey of Rapid Influenza Diagnostic Testing (RIDT) Practices in Laboratories and Evaluation of RIDT Laboratory Course" and adding a question about whether or not the participants have taken the free CDC rapid influenza testing course, Strategies for Improving Rapid Influenza Testing in Ambulatory Settings, and to rate the usefulness of the course in their clinical setting.

The Survey of Rapid Influenza Diagnostic Testing Practices in Clinical Laboratories and Evaluation of Laboratory Course is a national systematic study investigating rapid influenza diagnostic testing practices in clinical laboratories. The survey will be funded in full by the Center for Surveillance, Epidemiology, and Laboratory Services of the Centers for Disease Control and Prevention.
