The WPA 246/248 Draft Supplemental EIS provides updates on the baseline conditions and potential environmental effects of oil and natural gas leasing, exploration, development, and production in the WPA. BOEM conducted an extensive search for new information, reviewing scientific journals and available scientific data and information from academic institutions and Federal, State, and local agencies; and interviewing personnel from academic institutions and Federal, State, and local agencies. BOEM examined the potential impacts of routine activities and accidental events and the proposed lease sales’ incremental contribution to the cumulative impacts on environmental and socioeconomic resources. resources and activities estimated for a proposed WPA lease sale.
