

registration review process and the stipulated injunction reinstates the buffers in the interim.

The no-spray buffers in the proposed stipulated injunction extend 300 feet from salmon supporting waters for aerial applications of the five pesticides and 60 feet for ground applications.

Under this settlement agreement, there are three relevant use exemptions carried over from the WTC case:

1. Public health vector control administered by public entities, such as the use of malathion by local governments for mosquito control.

2. NMFS-authorized programs (i.e., where a NMFS finding or permit allows use within the buffers).

3. Use of carbaryl under a Washington state-issued 24(c) registration for oyster beds in the estuarine mudflats of Willapa Bay and Grays Harbor.

B. What is the Agency's authority for taking this action?

On November 29, 2010, NCAP and other environmental groups and fishing interests filed a lawsuit in the Federal District Court for the Western District of Washington alleging that EPA failed to comply with sections 7 and 9 of the ESA (16 U.S.C. 1536, 1538) with regard to the effects of six EPA-registered pesticides (carbaryl, carbofuran, chlorpyrifos, diazinon, malathion, and methomyl) on 28 Pacific salmonid species that are listed as endangered or threatened under the ESA (*NCAP, et al. v. EPA*, C10-01919 (W.D. Wash.)). Subsequent to the filing of the case, all carbofuran end-use product registrations were cancelled, effectively leaving only five pesticides at issue in the litigation.

On February 21, 2013, in *Dow Agrosciences LLC v. NMFS*, 707 F.3d 462 (4th Cir. 2013), the U.S. Court of Appeals for the 4th Circuit vacated the NMFS biological opinion addressing chlorpyrifos, diazinon, and malathion. Following that ruling, the Plaintiffs in the *NCAP v. EPA* litigation supplemented their original complaint to assert that in the absence of a valid biological opinion, EPA had failed to complete consultation on those three pesticides. In the fall of 2013, the intervenors, CropLife America and other pesticide industry and pesticide user groups, filed a motion to dismiss both that claim and claims that EPA's registration of the pesticides was in violation of the "take" provisions of section 9 of the ESA.

On January 28, 2014, Judge Zilly denied intervenors' motion to dismiss these claims. Subsequent to that ruling, the parties filed a stipulated motion to stay the *NCAP v. EPA* litigation to allow

the parties to discuss the potential for settlement.

On June 6, 2014, EPA sought public comment on a proposed agreement with plaintiffs, in the form of a stipulated injunction, to reinstitute the no-spray buffers originally established in the *WTC v. EPA* litigation during the period that EPA develops new biological evaluations for salmonid species (which will be completed in connection with the development of EPA's national FIFRA registration reviews for these pesticides). Following review of the comments, most of which supported the proposed agreement, EPA filed the agreement with the Court and the Court entered the stipulated injunction on August 15, 2014. These buffer zones will remain in place until EPA implements any necessary protections for Pacific salmon and steelhead based on reinitiated consultations with NMFS. In separate litigation, *NCAP v. NMFS*, C07-1791 (W.D. Wash.), NMFS has agreed to complete any consultation EPA reinitiates on chlorpyrifos, diazinon, and malathion by December 2017, and any consultation EPA reinitiates on carbaryl and methomyl by December 2018. These dates are intended to correspond with EPA's FIFRA registration review schedule for these pesticides.

The stipulated injunction also requires EPA to provide notice of the reinstitution of the no-spray buffers zones to numerous groups, including certified applicators, state and local governments, federal agencies, user groups, extension services and land grant universities in affected portions of California, Oregon, and Washington. It also requires EPA to provide certain information to the public and pesticide users through the EPA Web site, including maps that highlight the stream reaches where the buffer zones apply. The stipulated injunction is available at <http://www.regulations.gov/#!documentDetail;D=EPA-HQ-OPP-2014-0301-0001>.

SUPPLEMENTARY INFORMATION:

A. Purpose

This is a request for an extension of an existing information collection requirement concerning the Office of Management and Budget (OMB) Control Number 9000-0183, Preventing Personal Conflicts of Interest for Contractor Employees Performing Acquisition Functions. The request uses the burden hours provided in the proposed FAR rule (2013-022).

The proposed rule expands the coverage and proposes to amend the FAR by implementing section 829 of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239) to extend the limitations on contractor employee personal conflicts of interest. The limits on personal conflicts of interest are being extended to: (1) The performance of all functions that are closely associated with inherently governmental functions (not just acquisition functions) and (2) contracts for personal services (to the extent such contracts are authorized by law, e.g., legal or medical services).

In the current information collection, Section 841(a) requires the Administrator for Federal Procurement Policy to develop and issue a standard policy to prevent personal conflicts of interest by contractor employees performing acquisition functions. The policy is related to inherently governmental functions, and an associated personal conflicts-of-interest clause or set off clauses.

Contractors are required to notify contracting officers whenever they become aware of any personal conflict of interest violations by a covered

employee. The objective of the notification requirement is to emphasize the critical importance of integrity in contracting and reduce the occurrence of personal conflict-of-interest violations by contractor employees performing acquisition-related functions.

In addition, contractors have the opportunity, in exceptional circumstances, to request mitigation or waiver of the personal conflict-of-interest standards. The information is used by the Government to evaluate the requested mitigation/waiver.

B. The Annual Reporting Burden Estimated as Follows

Respondents: 188.

Responses per Respondent: 1.

Total Responses: 188.

Hours per Response: 30.

Total Burden Hours: 5640.

The annual recordkeeping burden is estimated as follows:

Recordkeepers: 9,361.

Hours per recordkeeper: 59.

Total recordkeeping hours: 552,299.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals:

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405-0001 telephone 202-501-4755. Please cite OMB Control No. 9000-0183, Preventing Personal Conflicts of Interest for Contractor Employees Performing Acquisition Functions, in all correspondence.

Dated: September 4, 2014.
