Title of Collection: Charter School Facilities National Questionnaire.

OMB Control Number: 1855-0024.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 369.

Total Estimated Number of Annual Burden Hours: 1,107.

Abstract: According to Part B section 5201 of the Elementary and Secondary Education Act, one of the established purposes of the Charter Schools Program at the U.S. Department of Education (ED) is to encourage "States to provide support to charter schools for facilities financing in an amount more nearly commensurate to the amount the States have typically provided for traditional public schools". There have been discussions on the struggles of charter schools for equitable and adequate access to facilities and facilities financing, yet there were no official studies, reports, or analyses explicitly discussing the facility landscape of charter schools and the similarities and differences between charter school and traditional public school facilities. The Charter Schools Program, through the National Charter School Resource Center, administers a questionnaire conducted by the Colorado League of Charter Schools to gather data on charter schools facilities. This data helps to assess the true facilities challenges of the charter schools and what actions ED and the SEAs must take to better financially support the facilities needs of quality charter schools. ED would like to continue to use and administer this survey in additional states and compile the data from all states into a facilities
