

POLICY JUSTIFICATION*Thailand—UH-72A Lakota Helicopters*

The Government of Thailand has requested a possible sale of 9 UH-72A Lakota Helicopters, warranty, spare and repair parts, support equipment, communication equipment, publications and technical documentation, Aviation Mission Planning Station, personnel training and training equipment, U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. The estimated cost is \$89 million.

This proposed sale will contribute to the foreign policy and national security of the United States, by helping to improve the security of a major non-NATO ally.

This proposed sale will contribute to Thailand's goal of upgrading and modernizing its military forces with a new light utility helicopter capable of meeting requirements for rotary-wing transportation, while further enhancing interoperability between Thailand the U.S., and among other allies. Thailand will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be EADS North America in Herndon, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require ten contractor representatives to travel to Thailand for a period of five weeks for equipment deprocessing/fielding and system checkout.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

POLICY JUSTIFICATION**Canada—MK-48 Mod 7 Advanced Technology (AT) Torpedo Kits**

The Government of Canada has requested a possible sale of 12 MK-48 Mod 7 Advanced Technology Torpedo Conversion Kits with containers, spare and repair parts, weapon system support and integration, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering and technical, and logistics support services, and other related elements of logistics support. These kits will upgrade 12 of Canada's existing inventory of MK-48 torpedoes from Mod 4 to Mod 7. The estimated cost is \$41 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally that has been, and continues to be, a key democratic partner of the United States in ensuring peace and stability.

The sale of this equipment and support will not alter the basic military balance in the region.

Canada intends to use the MK 48 Mod 7AT Torpedoes on its Royal Canadian

Navy's Victoria (formerly Upholder) Class submarines. Canada has significant relevant infrastructure and experience with modern torpedoes, including MK-48 Mod 4/4M and MK-46 Mod 5A (SW) torpedoes. Canada will have no difficulty absorbing these additional conversion kits.

The principal contractor will be Lockheed Martin Sippican, Inc. in Marion, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Canada.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
