II. Background

EPA is developing a Spatial Aquatic Model (SAM) to address the need for more spatial and temporal contexts for pesticide aquatic exposure assessments. The model will provide a way to estimate how often, how long, and where adverse impacts overlap spatially with populations at risk. EPA plans to introduce an alpha test version of SAM at the workshop/Webinar to allow interested parties to evaluate and comment on the model.

III. How can I request to participate in this meeting?

You may submit a request to participate in this meeting to the person listed under **FOR FURTHER INFORMATION CONTACT**. Do not submit any information in your request that is considered CBI. Requests to participate in the meeting, identified by docket ID number EPA-HQ-OPP-2014-0686, must be received on or before 10 days after date of publication in the **Federal Register**.

IV. Tentative Topics for the Meeting

The workshop/Webinar will provide an overview of the Spatial Aquatic Model, a description of the model and data components, contrasts with current OPP aquatic exposure models, and preliminary evaluations of model performance. The workshop will include a hands-on demonstration of the test model so that participants will be able to evaluate/test the model and provide feedback that can be used to update and improve the model. Participants will have an opportunity to provide comments to the Agency and

participate in a follow-up Webinar in January 2015.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Putting the Person at the Center: Integrating Plans for Long-Term Services and Supports and Health Care Delivery through Health Information Technology; Public Workshop; Request for Comments

AGENCY: Administration for Community Living and Office of the National Coordinator on Health Information Technology, Department of Health and Human Services.

ACTION: Notice of public workshop; request for comments.

The Administration for Community Living (ACL) and the Office of the National Coordinator for Health Information Technology (ONC) of the U.S. Department of Health and Human Services announce the following workshop, *Putting the Person at the Center: Integrating Plans for Long-Term Services and Supports and Health Care Delivery through Health Information Technology*. ACL and the ONC (collectively referred to for the purpose of this notice as "the Agencies") seek input from stakeholders and experts on the use of health information technology (health IT) to enable a person-centered approach for planning and delivering both long-term services and supports (LTSS) and health care, including how to improve communication and collaboration among community-based

organizations and health care partners. The topics to be discussed include person-centered planning and how it can serve as a focus for integrating health IT and LTSS; key opportunities and challenges; and, delivery and payment reform policy levers that could be used to accelerate the development of technology solutions in this arena.

Using health IT to support person and family-centered planning can provide a path to improving communication and quality of health care and LTSS, and ensuring that the individual's preferences, priorities and goals are the foundation for that plan and are addressed across the spectrum of health care and LTSS settings. Health care LTSS providers play a critical role in this care continuum. However the pace of health IT adoption and interoperable communication varies across systems. Interoperable health IT systems that reach across settings and health care and community partners would not only enhance communication, transitional care, and care coordination activities currently underway within programs funded by the Affordable Care Act, but could also facilitate the development of an accessible, integrated, person-centered plan that would better allow individuals to achieve their goals, manage their services, and enhance their quality of life.

Date and Times: The public workshop will be held on Thursday, October 16, 2014 from 9 a.m. to 4:15pm.

Location: The public workshop will be held at the Hubert H. Humphrey Building, 200 Independence Avenue SW., Washington DC 20201, Room 800.
