SUPPLEMENTARY INFORMATION:

Background

The petitioner in this investigation is AK Steel Corporation (Petitioner). This investigation covers 22 government programs. The mandatory respondents in this investigation are China Steel Corporation (CSC) and its cross-owned affiliates Dragon Steel Corporation (DSC), HiMag Magnetic Corporation (HIMAG) and China Steel Global Trading Corporation (CSGT) (collectively, CSC Companies) and Leicong Industrial Company, Ltd. (Leicong).

The events that occurred since the Department published the *Preliminary Determination* on March 25, 2014,¹ are discussed in the Memorandum to Paul Piquado, Assistant Secretary for Enforcement and Compliance, "Issues and Decision Memorandum for the Final Affirmative Countervailing Duty Determination in the Countervailing Duty Investigation of Non-Oriented Electrical Steel from Taiwan" (Decision Memorandum), which is hereby adopted by this notice.²

Period of Investigation

The period of investigation for which we are measuring subsidies is January 1, 2012, through December 31, 2012.

Scope Comments

In the *AD Initiation Notice*,³ the Department invited interested parties to "to raise issues regarding product coverage." On November 22, and 26, 2013, Petitioner requested that the Department clarify the scope by lowering the minimum silicon content from 1.25 percent to 1.00 percent, removing altogether the maximum silicon content, and including language regarding surface oxide coating.⁴ On January 28, 2014, POSCO/DWI,⁵ a respondent in the companion less than

Access to IA ACCESS is available to registered users at <http://iaaccess.trade.gov> and in the Central Records Unit (CRU), Room 7046 of the main Department of Commerce building.

⁴ See Letter from Petitioner to the Department, "Petitions for the Imposition of Antidumping and Countervailing Duties against Non-Oriented Electrical Steel from China, Germany, Japan, Korea, Sweden, Taiwan/Petition Amendment to Clarify the Proposed Scope Definition," dated November 22, 2013 ("Petitioner's Proposed Scope Changes"); and Letter from Petitioner, "Non-Oriented Electrical Steel from China, Germany, Japan, Korea, Sweden, Taiwan: Petitioner's Comments on the Scope of Investigations," dated November 26, 2013.

⁵ On January 23, 2014, POSCO and Daewoo International Corporation (DWI) filed a joint response in the concurrent LTFV investigation of NOES from Korea. The Department preliminarily found these two companies to be a single entity in the AD investigation. See the memorandum from Senior Advisor, Gary Taverman, to Acting Assistant Secretary, Ronald K. Lorentzen entitled "Decision Memorandum for the Preliminary Affirmative Determination in the Less-Than-Fair-Value Investigation of Non-Oriented Electrical Steel from the Republic of Korea" dated May 15, 2014.

fair value (LTFV) investigation of NOES from the Republic of Korea, filed scope comments with the Department in which it requested that the Department clarify whether laminations and cores, downstream products fabricated from NOES, and certain NOES specifications with silicon content less than the percentage identified in the scope of NOES investigations contained in the *AD Initiation Notice*, are covered by this and the companion investigations.⁶ On February 4, 2014, Petitioner responded to POSCO/DWI's comments, stating (1) that laminations and cores are out of the scope of the investigations to the extent that exclusion only covers products that are suitable for use (without further processing) as a drop-in part of a core; and (2) that the Department should promptly implement the changes to the scope of the investigations relating to silicon content described in Petitioner's Proposed Scope Changes, and clarify for POSCO/DWI the data that it should report to the Department.⁷

After analyzing the scope comments regarding silicon content and surface oxide coatings, the Department decided to lower the minimum silicon content identified in the scope from 1.25 percent to 1.00 percent and to include language regarding surface oxide coating in the scope. However, the Department decided not to eliminate the maximum silicon content in the scope. For a complete discussion of these decisions see the memorandum to Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations from Robert Bolling, Program Manager for AD/CVD Operations, Office IV, regarding "Scope Modification Requests," dated April 10, 2014, and hereby incorporated by reference into this memorandum. The scope language below reflects these decisions.

With respect to the issue involving laminations and cores, POSCO/DWI described laminations as products that are cut from NOES into their finished shape by a punch and die or, when in smaller quantities, by laser or wire erosion.⁸ The laminations are subsequently assembled together to form laminated transformer cores or electric motor stator and rotor parts.⁹
