

treatment of various human cancers expressing 5T4.

Competitive Advantages:

- The fully human antibodies may have better drugability, especially less immunogenicity and better safety.
- These antibodies could be used as naked mAbs, CARs and/or as ADCs.
- The confined expression of 5T4 makes it an attractive target for cancer immunotherapy.
- 5T4 mAbs could be used to treat several solid tumor cancers.

Development Stage: In vitro data available

Inventors: Dimiter Dimitrov, Tianlei Ying, Yang Feng (all of NCI)

Intellectual Property: HHS Reference No. E-158-2014/0—U.S. Provisional Application No. 62/034,995 filed 08 August 2014

Licensing Contact: Whitney Hastings; 301-451-7337; hastingsw@mail.nih.gov

Quantitative Multiplex Methods for Rapid Detection and Identification of Viral Nucleic Acids

Description of Technology: The subject technologies are quantitative multiplex loop mediated isothermal amplification assays that can detect and distinguish different viral pathogens, including HIV, Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Hepatitis E Virus (HEV), Dengue Virus (DENV), Chikungunya virus (CHIKV) and West Nile Virus (WNV). The assay has the advantage of distinguishing between different genotypes of HCV. It has the potential to detect other pathogens. A quantitative multiplex variation of the assay can detect and identify all seven viruses using one reaction mixture. The detection-reaction is performed on a simple heat-source and viral quantitation can be measured using a simple fluorospectrophotometer. The entire detection process using these assays can be accomplished within 30 to 60 minutes in a doctor's office, laboratory setting, or in the field. Detection limits of as little as 1–10 International Units (viral copies) are possible with the use of fluorogenic oligonucleotides. The assays demonstrate very high specificity when tested with human clinical samples.

Potential Commercial Applications: Detection assays for viral pathogens such as HIV, HBV, HCV, HEV, Dengue Virus, Chikungunya, and West Nile Virus.

Competitive Advantages:

- Assays can be completed within 30 to 60 minutes and in a doctor's office, laboratory setting, or in the field.
- Assays can be performed without expensive instrumentation or specialized technical operators.

- Assays are highly specific and can distinguish between different viruses and between different genotypes of viruses.

Development Stage:

- Early-stage
- In vitro data available
- In vivo data available (human)

Center for Scientific Review; Amended Notice of Meeting

Notice is hereby given of a change in the meeting of the Center for Scientific Review Special Emphasis Panel, October 27, 2014, 07:30 a.m. to October 28, 2014, 06:00 p.m., Doubletree Guest Suites Santa Monica, 1707 Fourth Street, Santa Monica, CA, 90401 which was published in the **Federal Register** on October 06, 2014, 79 FR 60175.

The meeting will start on October 27, 2014. The meeting time and location remains the same.

The meeting is closed to the public.

Dated: October 7, 2014.

Michelle Trout,

Program Analyst, Office of Federal Advisory Committee Policy.

National Library of Medicine; Notice of Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App), notice is hereby given of meetings of the Board of Regents of the National Library of Medicine.

The meeting will be open to the public as indicated below, with attendance limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the Contact Person listed below in advance of the meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable materials, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Board of Regents of the National Library of Medicine; Extramural Programs Subcommittee.

Date: February 10, 2015.

Closed: 7:45 a.m. to 8:45 a.m.

Agenda: To review and evaluate grant applications.

Place: National Library of Medicine, Building 38, Billings Conference Room, 8600 Rockville Pike, Bethesda, MD 20892.

Contact Person: Donald A.B. Lindberg, MD, Director, National Library of Medicine, 8600 Rockville Pike, Bethesda, MD 20892, 301-496-6221, lindberg@mail.nih.gov.

Name of Committee: Board of Regents of the National Library of Medicine; Subcommittee on Outreach and Public Information.

Date: February 10, 2015.

Open: 7:45 a.m. to 8:45 a.m.

Agenda: To review and discuss outreach activities.

Place: National Library of Medicine, Building 38, 2nd Floor, Conference Room B, 8600 Rockville Pike, Bethesda, MD 20892.

Contact Person: Donald A.B. Lindberg, MD, Director, National Library of Medicine, 8600 Rockville Pike, Bethesda, MD 20892, 301-496-6221, lindberg@mail.nih.gov.

Name of Committee: Board of Regents of the National Library of Medicine.

Date: February 10–11, 2015.

Open: February 10, 2015, 9:00 a.m. to 4:40 p.m.

Agenda: Program Discussion.

Place: National Library of Medicine, Building 38, 2nd Floor, Board Room, 8600 Rockville Pike, Bethesda, MD 20892.

Closed: February 10, 2015, 4:40 p.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Library of Medicine, Building 38, 2nd Floor, Board Room, 8600 Rockville Pike, Bethesda, MD 20892.

Open: February 11, 2015, 9:00 a.m. to 12:00 p.m.

Agenda: Program Discussion.

Place: National Library of Medicine, Building 38, 2nd Floor, Board Room, 8600 Rockville Pike, Bethesda, MD 20892.

Contact Person: Donald A.B. Lindberg, MD, Director, National Library of Medicine, 8600 Rockville Pike, Bethesda, MD 20892, 301-496-6221, lindberg@mail.nih.gov.

Any interested person may file written comments with the committee by forwarding the statement to the Contact Person listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

In the interest of security, NIH has instituted stringent procedures for entrance onto the NIH campus. All visitor vehicles, including taxicabs, hotel, and airport shuttles will be inspected before being allowed on campus. Visitors will be asked to show one form of identification (for example, a government-issued photo ID, driver's license, or passport) and to state the purpose of their visit.

Information is also available on the Institute's/Center's home page: www.nlm.nih.gov/od/bor/bor.html, where an agenda and any additional information for the meeting will be posted when available. This meeting will be broadcast to the public, and available for at viewing at <http://videocast.nih.gov> on February 10–11, 2015.
