#### **POLICY JUSTIFICATION**

*Greece—P-3B Aircraft Overhaul and Upgrade*

The Government of Greece has requested a possible sale for modification and reactivation of two (2) P-3B aircraft, and the upgrade of up to five (5) P-3B aircraft that will include structural Mid Life Upgrades (MLU), Phased Depot Maintenance (PDM), Mission Integration and Management Systems (MIMS), and new flight avionics. The MLU kits will provide service life extensions for 15,000 flight hours, spare and repair parts, repair and return, support equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor logistics, engineering, and technical support services, and other related elements of logistics and program support. The estimated cost is \$500 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally.

The proposed sale for overhaul and upgrade would allow the Hellenic Navy (HN) to resume operations of its P-3B aircraft for land-based maritime patrol and reconnaissance, surveillance and protection of areas of national interest. The HN will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Aeronautics Company in Marietta, Georgia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Greece by U.S. Government and contractor representatives for a period of seven years for delivery, system checkout, training, and program reviews.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

**POLICY JUSTIFICATION**

***Brazil—S-70B Helicopter Follow-On Support***

The Government of Brazil has requested a possible sale for three years of follow-on support for S-70B helicopters, which includes 1 Tactical Operational Flight Trainer, 5 AN/AVS-9 Night Vision Goggles, spare and repair parts, support equipment, tools and test equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics and program support. The estimated cost is \$150 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of Brazil, which has been, and continues to be, an

important force for regional stability and economic progress in South America.

The Government of Brazil will use the follow-on support to improve the level of training for its pilots and enhance the performance of its S-70 fleet. This support will increase Brazil's operational readiness.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There are no principal contractors associated with this proposed sale. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require any additional U.S. Government or contractor representatives in Brazil. However, travel will be required on a temporary basis for program, technical, and management oversight and support requirements.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
