

recommendations that otherwise could not be discussed.

III. Exercise of Section 871 Authority To Establish the U.S. Secret Service Protective Mission Panel

The Department respects the principles of open government and has judiciously exercised the authority Congress provided in Section 871. Given that the use of this authority will allow the Department to fully and completely review the issues and make recommendations surrounding the U.S. Secret Service as described above, the Department is invoking that authority.

Collaboration among the panel members must involve many activities to include: planning, coordination, protective security implementation, operational activities related to protective service security measures, as well as leadership issues, vulnerabilities, protective measures, best practices, and lessons learned. An effective panel must be able to have ongoing, immediate, and multi-directional communication and coordination under highly exigent circumstances.

In furtherance of DHS' mission to provide protective services, the public interest requires the establishment of the Panel under the authority of 6 U.S.C. 451. The Panel will review recent incidents, provide recommendations on potential new directors, and recommend whether there should be a broader review of the Secret Service. The Panel will interact with federal officials and representatives from the security and law enforcement communities. The Panel has no authority to establish Federal policy or otherwise undertake inherently governmental functions.

Exemption from the FACA (Pub. L. 92-463): In recognition of the highly-sensitive, and often confidential or classified nature of the subject matter involved in the activities of the USSSPMP, under the authority of section 871 of the Homeland Security Act of 2002 (6 U.S.C. 451), the panel is hereby deemed exempt from the requirements of Public Law 92-463 (5 U.S.C. App.). The decision to exercise the exemption authority in section 871 will support the free flow of classified and law enforcement sensitive information concerning U.S. Secret Service protective measures and its operations as a law enforcement organization.

IV. Membership and Structure

The specific membership of the USSSPMP will consist of individuals with expertise in: (a) National security, (b) protective security, (c) leading

complex organizations, and (d) other experts as the investigation dictates. The members are identified below at Appendix A.

Membership Status: Non-Federal members of the USSSPMP serve as special government employees.

Meetings: The USSSPMP may meet as a whole or in any combination of subgroups that is most conducive to the effective conduct of its activities including, without limitation, in groups encompassing discrete topics to address specific issues and concerns (e.g., a meeting of the members to discuss security specific issues, or a meeting of leaders of complex organizations). As independent bodies, meetings consisting solely of members of these subgroups shall not constitute meetings of the USSSPMP. In addition, the USSSPMP may establish informal working groups for the purpose of fact-finding, issue development, or other preliminary non-deliberative activities. Such activities in support of the USSSPMP shall also be within the scope of the exemption noted above.

Duration of Committee: Six months, subject to extension pursuant to section 871(b) of the Homeland Security Act of 2002 (6 U.S.C. 451(b)).

Dated: October 15, 2014.

Jeh Charles Johnson,
Secretary.

BILLING CODE 9110-9B-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA-2014-0002]

Changes in Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final Notice.

SUMMARY: New or modified Base (1-percent annual chance) Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, and/or regulatory floodways (hereinafter referred to as flood hazard determinations) as shown on the indicated Letter of Map Revision

(LOMR) for each of the communities listed in the table below are finalized. Each LOMR revises the Flood Insurance Rate Maps (FIRMs), and in some cases the Flood Insurance Study (FIS) reports, currently in effect for the listed communities. The flood hazard determinations modified by each LOMR will be used to calculate flood insurance premium rates for new buildings and their contents.

DATES: The effective date for each LOMR is indicated in the table below.

ADDRESSES: Each LOMR is available for inspection at both the respective Community Map Repository address listed in the table below and online through the FEMA Map Service Center at www.msc.fema.gov.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, FEMA, 500 C Street SW., Washington, DC 20472, (202) 646-4064, or (email) Luis.Rodriguez3@fema.dhs.gov; or visit the FEMA Map Information eXchange (FMIX) online at www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final flood hazard determinations as shown in the LOMRs for each community listed in the table below. Notice of these modified flood hazard determinations has been published in newspapers of local circulation and 90 days have elapsed since that publication. The Deputy Associate Administrator for Mitigation has resolved any appeals resulting from this notification.

The modified flood hazard determinations are made pursuant to section 206 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The new or modified flood hazard information is the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to remain qualified for participation in the National Flood Insurance Program (NFIP).

This new or modified flood hazard information, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be

construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities.

This new or modified flood hazard determinations are used to meet the floodplain management requirements of

the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings, and for the contents in those buildings. The changes in flood hazard determinations are in accordance with 44 CFR 65.4.

Interested lessees and owners of real property are encouraged to review the final flood hazard information available at the address cited below for each community or online through the FEMA

Map Service Center at www.msc.fema.gov.

(Catalog of Federal Domestic Assistance No. 97.022, "Flood Insurance.")

Dated: October 9, 2010.

Roy E. Wright,

Deputy Associate Administrator for Mitigation, Department of Homeland Security, Federal Emergency Management Agency.
