SUPPLEMENTARY INFORMATION:

I. JLG's Petition: Pursuant to 49 U.S.C. 30118(d) and 30120(h) (see implementing rule at 49 CFR part 556), JLG submitted a petition for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of JLG's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

II. Trailers Involved: Affected are approximately 2,940 JLG Triple-L utility trailers with a GVWR of less than 10,000 lbs. that were manufactured between August 2005 and July 2014.

III. Noncompliance: JLG explains that the noncompliance is that the tire and loading information placard does not contain the words "The weight of the cargo should never exceed XXX

kilograms or XXX pounds" as required by paragraph S4.3.5 of FMVSS No. 110.

V. Rule Text: Paragraph S4.3.5 of FMVSS No. 110 requires in pertinent part:

S6.5 Requirements for trailers. Each trailer, except for an incomplete vehicle, must show the information specified in S4.3 (c) through (g), and may show the information specified in S4.3 (h) and (i), on a placard permanently affixed proximate to the certification label specified in 49 CFR Part 567. Additionally, each trailer must on its placard contain a cargo capacity statement expressed as "The weight of cargo should never exceed XXX kilograms or XXX pounds" in the same location on the placard specified for the "vehicle capacity weight" statement required by the standard . . .

V. Summary of JLG's Analyses: JLG stated its belief that the subject noncompliance is inconsequential to motor vehicle safety for the following reasons:

(A) With regard to trailers JLG states that there is no need to account for passenger weight when considering cargo weight because there are no designated seating positions on the trailer and all of the weight capacity is designated towards cargo. JLG also believes that providing the maximum load capacity for the trailer therefore provides the same information as providing the maximum weight of the cargo.

(B) Although the Tire and Loading Information label on the subject trailers do not contain the statement set forth in S4.3.5, the same information is provided on a separate label in the vicinity of the Tire and Loading Information label. That label states that the "Max Load Capacity xxxx lbs" and further instructs the operator to "center load on deck." It also draws attention to the maximum carrying load of the trailer and ensures that drivers loading the trailer are aware of the maximum load capacity the trailer can carry—the precise information the regulatory text intends to be conveyed.

JLG has additionally informed NHTSA that it has corrected the noncompliance so that all future production trailer Tire and Loading Information labels will comply with FMVSS No. 110.

In summation, JLG believes that the described noncompliance of the subject trailers is inconsequential to motor vehicle safety, and that its petition, to exempt JLG from providing recall notification of noncompliance as required by 49 U.S.C. 30118 and remedying the recall noncompliance as required by 49 U.S.C. 30120 should be granted.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and

30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance. Therefore, any decision on this petition only applies to the subject trailers that JLG no longer controlled at the time it determined that the noncompliance existed. However, any decision on this petition does not relieve tire distributors and dealers of the prohibitions on the sale, offer for sale, or introduction or delivery for introduction into interstate commerce of the noncompliant trailers under their control after JLG notified them that the subject noncompliance existed.

Authority: 49 U.S.C. 30118, 30120; delegations of authority at 49 CFR 1.95 and 501.8.

Jeffrey M. Giuseppe,

Acting Director, Office of Vehicle Safety Compliance.
