SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Thompson v. HUD: Interface of Mobility and Sustainability.

OMB Approval Number: N/A.

Type of Request: New.

Form Number: N/A.

Description of the Need for the Information and Proposed Use: The proposed data collection supports the research HUD is required to undertake outlined in the Thompson v. HUD et al Settlement Agreement. The purpose of this data collection is to gather demographic and experiential information on a subset of Housing Choice Voucher holders in the Baltimore metropolitan region who have received special vouchers as part of the Settlement ("Thompson vouchers"). This data collection will inform the research with information to determine whether Thompson vouchers enable(d) households to more easily relocate to neighborhoods with greater opportunity than regular voucher households. Along with data gathered from other sources, the data from this collection will be used to define neighborhoods of opportunity—providing greater access to educational, social, economic, and health benefits—and where those neighborhoods are located within the Baltimore region. Defining

neighborhoods of opportunity is essential to the research, as it will allow the researchers to compare and analyze the mobility and relocation choices of Thompson and regular voucher households. This comparison will highlight the accessibility of such opportunities to the Plaintiff Class, a core component of the research requirement described in the Settlement Agreement. Positive program outcomes identified through this research will be of value to voucher programs in other regions of the country.

Respondents: Selected Housing Choice Voucher holders in the Baltimore Metropolitan region (Baltimore City and County; Anne Arundel County; Carroll County; Howard County; Harford County; and Queen Anne's County).

Estimated Number of Respondents: 226.

Estimated Number of Responses: 226.

Frequency of Response: 1.

Average Hours per Response: 1.56.

Total Estimated Burdens: 353 hours.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
Thompson v. HUD Data Collection	226	1	226	1.56	353	\$13.43	\$4,741.14
Total	226	1	226	1.56	353	\$13.43	\$4,741.14
