### Notice of Diabetes Mellitus Interagency Coordinating Committee Meeting

SUMMARY: The Diabetes Mellitus Interagency Coordinating Committee (DMICC) will hold a meeting on March 12, 2014 from 1:00 to 4:00 p.m. at the Natcher Conference Center (Building 45) Conference Room E1/E2, on the NIH Campus in Bethesda, MD. The topic for this meeting will be "Future Needs and Direction of Surveillance of Diabetes in Youth and Young Adults." The meeting is open to the public.

**DATES:** The meeting will be held on March 12, 2014 from 1:00 to 4:00 p.m. Individuals wanting to present oral comments must notify the contact person at least 10 days before the meeting date.

**ADDRESSES:** The meeting will be held at the Natcher Conference Center (Building 45) Conference Room E1/E2, on the NIH Campus in Bethesda, MD.

FOR FURTHER INFORMATION CONTACT: For further information concerning this meeting, see the DMICC Web site, www.diabetescommittee.gov, or contact Dr. B. Tibor Roberts, Executive Secretary of the Diabetes Mellitus Interagency Coordinating Committee, National Institute of Diabetes and Digestive and Kidney Diseases, 31 Center Drive, Building 31A, Room 9A19, MSC 2560, Bethesda, MD 20892–2560, telephone: 301–496–6623; FAX: 301–480–6741; email: dmicc@mail.nih.gov.

SUPPLEMENTARY INFORMATION: The DMICC, chaired by the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) comprising members of the Department of Health and Human Services and other federal agencies that support diabetes-related activities, facilitates cooperation, communication, and collaboration on diabetes among government entities. DMICC meetings, held several times a year, provide an opportunity for Committee members to learn about and discuss current and future diabetes programs in DMICC member organizations and to identify opportunities for collaboration. The March 12, 2014 DMICC meeting will focus on "Future Needs and Direction of Surveillance of Diabetes in Youth and Young Adults."

Any member of the public interested in presenting oral comments to the Committee should notify the contact person listed on this notice at least 10

days in advance of the meeting. Interested individuals and representatives or organizations should submit a letter of intent, a brief description of the organization represented, and a written copy of their oral presentation in advance of the meeting. Only one representative of an organization will be allowed to present; oral comments and presentations will be limited to a maximum of 5 minutes. Printed and electronic copies are requested for the record. In addition, any interested person may file written comments with the Committee by forwarding their statement to the contact person listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person. Because of time constraints for the meeting, oral comments will be allowed on a first-come, first-serve basis.

Members of the public who would like to receive email notification about future DMICC meetings should register for the listserv available on the DMICC Web site, www.diabetescommittee.gov.

Dated: February 12, 2014.

List of Programs Eligible for Inclusion in Fiscal Year 2014 Funding Agreements To Be Negotiated With Self-Governance Tribes by Interior Bureaus Other Than the Bureau of Indian Affairs

**AGENCY:** Office of the Secretary, Interior. **ACTION:** Notice.

**SUMMARY:** This notice lists programs or portions of programs that are eligible for inclusion in Fiscal Year 2014 funding agreements with self-governance Indian tribes and lists programmatic targets for each of the non-Bureau of Indian Affairs (BIA) bureaus in the Department of the Interior, pursuant to the Tribal Self-Governance Act.

**DATES:** This notice expires on September 30, 2014.

**ADDRESSES:** Inquiries or comments

regarding this notice may be directed to

Sharee M. Freeman, Director, Office of Self-Governance (MS 355H-SIB), 1849 C Street NW., Washington, DC 20240-0001, telephone: (202) 219-0240, fax: (202) 219-1404, or to the bureauspecific points of contact listed below.

#### SUPPLEMENTARY INFORMATION:

#### I. Background

Title II of the Indian Self-Determination Act Amendments of 1994 (Pub. L. 103-413, the "Tribal Self-Governance Act" or the "Act") instituted a permanent self-governance program at the Department of the Interior. Under the self-governance program, certain programs, services, functions, and activities, or portions thereof, in Interior bureaus other than BIA are eligible to be planned, conducted, consolidated, and administered by a self-governance tribe.

Under section 405(c) of the Tribal Self-Governance Act, the Secretary of the Interior is required to publish annually: (1) A list of non-BIA programs, services, functions, and activities, or portions thereof, that are eligible for inclusion in agreements negotiated under the self-governance program; and (2) programmatic targets

for these bureaus.

Under the Tribal Self-Governance Act, two categories of non-BIA programs are eligible for self-governance funding

agreements:

(1) Under section 403(b)(2) of the Act, any non-BIA program, service, function or activity that is administered by Interior that is "otherwise available to Indian tribes or Indians," can be administered by a tribe through a selfgovernance funding agreement. The Department interprets this provision to authorize the inclusion of programs eligible for self-determination contracts under Title I of the Indian Self-Determination and Education Assistance Act (Pub. L. 93-638, as amended). Section 403(b)(2) also specifies, "nothing in this subsection may be construed to provide any tribe with a preference with respect to the opportunity of the tribe to administer programs, services, functions and activities, or portions thereof, unless such preference is otherwise provided for by law."

(2) Under section 403(c) of the Act, the Secretary may include other programs, services, functions, and activities or portions thereof that are of "special geographic, historical, or cultural significance" to a self-

governance tribe.

Under section 403(k) of the Tribal Self-Governance Act, funding agreements cannot include programs, services, functions, or activities that are inherently Federal or where the statute establishing the existing program does not authorize the type of participation sought by the tribe. However, a tribe (or tribes) need not be identified in the authorizing statutes in order for a program or element to be included in a self-governance funding agreement. While general legal and policy guidance regarding what constitutes an inherently Federal function exists, the non-BIA Bureaus will determine whether a specific function is inherently Federal on a case-by-case basis considering the totality of circumstances. In those instances where the tribe disagrees with the Bureau's determination, the tribe may request reconsideration from the Secretary.

Subpart G of the self-governance regulations found at 25 CFR part 1000 provides the process and timelines for negotiating self-governance funding agreements with non-BIA bureaus.

# III. Eligible Programs of the Department of the Interior Non-BIA Bureaus

Below is a listing by bureau of the types of non-BIA programs, or portions thereof, that may be eligible for selfgovernance funding agreements because they are either "otherwise available to Indians" under Title I and not precluded by any other law, or may have "special geographic, historical, or

cultural significance" to a participating tribe. The list represents the most current information on programs potentially available to tribes under a self-governance funding agreement.

The Department will also consider for inclusion in funding agreements other programs or activities not listed below, but which, upon request of a selfgovernance tribe, the Department determines to be eligible under either sections 403(b)(2) or 403(c) of the Act. Tribes with an interest in such potential agreements are encouraged to begin discussions with the appropriate non-BIA bureau.

#### A. Eligible Bureau of Land Management (BLM) Programs

The BLM carries out some of its activities in the management of public lands through contracts and cooperative agreements. These and other activities, depending upon availability of funds, the need for specific services, and the self-governance tribe's demonstration of a special geographic, culture, or historical connection, may also be available for inclusion in selfgovernance funding agreements. Once a tribe has made initial contact with the BLM, more specific information will be provided by the respective BLM State office.

Some elements of the following programs may be eligible for inclusion in a self-governance funding agreement. This listing is not all-inclusive, but is representative of the types of programs that may be eligible for tribal participation through a funding agreement.

#### **Tribal Services**

- 1. Minerals Management. Inspection and enforcement of Indian oil and gas operations: inspection, enforcement and production verification of Indian coal and sand and gravel operations are already available for contracts under Title I of the Act and, therefore, may be available for inclusion in a funding agreement.
- 2. Cadastral Survey. Tribal and allottee cadastral survey services are already available for contracts under Title I of the Act and, therefore, may be available for inclusion in a funding agreement.

#### Other Activities

- 1. Cultural heritage. Cultural heritage activities, such as research and inventory, may be available in specific States.
- 2. Natural Resources Management. Activities such as silvicultural treatments, timber management, cultural resource management, watershed

restoration, environmental studies, tree planting, thinning, and similar work, may be available in specific States.

- 3. Range Management. Activities, such as revegetation, noxious weed control, fencing, construction and management of range improvements, grazing management experiments, range monitoring, and similar activities, may be available in specific States.
- 4. Riparian Management. Activities, such as facilities construction, erosion control, rehabilitation, and other similar activities, may be available in specific States
- 5. Recreation Management. Activities, such as facilities construction and maintenance, interpretive design and construction, and similar activities may be available in specific States.
- 6. Wildlife and Fisheries Habitat Management. Activities, such as construction and maintenance, implementation of statutory, regulatory and policy or administrative plan-based species protection, interpretive design and construction, and similar activities may be available in specific States.
- 7. Wild Horse Management. Activities, such as wild horse roundups, adoption and disposition, including operation and maintenance of wild horse facilities may be available in specific States.

For questions regarding self-governance, contact Jerry Cordova, Bureau of Land Management (MS L St-204), 1849 C Street NW., Washington, DC 20240, telephone: (202) 912–7245, fax: (202) 452–7701.

# B. Eligible Bureau of Reclamation Programs

The mission of the Bureau of Reclamation (Reclamation) is to manage, develop, and protect water and related resources in an environmentally and economically sound manner in the interest of the American public. To this end, most of Reclamation's activities involve the construction, operation and maintenance, and management of water resources projects and associated facilities, as well as research and development related to its responsibilities. Reclamation water resources projects provide water for agricultural, municipal and industrial water supplies; hydroelectric power generation; flood control, enhancement of fish and wildlife habitats; and outdoor recreation.

Components of the following water resource projects listed below may be eligible for inclusion in a selfgovernance annual funding agreement. This list was developed with consideration of the proximity of identified self-governance tribes to Reclamation projects.

- 1. Klamath Project, California and Oregon
  - 2. Trinity River Fishery, California3. Central Arizona Project, Arizona
- 4. Rocky Boy's/North Central Montana Regional Water System, Montana

5. Indian Water Rights Settlement Projects, as authorized by Congress.

Upon the request of a self-governance tribe, Reclamation will also consider for inclusion in funding agreements, other programs or activities which Reclamation determines to be eligible under Section 403(b)(2) or 403(c) of the Act.

For questions regarding self-governance, contact Mr. Kelly Titensor, Policy Analyst, Native American and International Affairs Office, Bureau of Reclamation (96–43000) (MS 7069–MIB); 1849 C Street NW., Washington, DC 20240, telephone: (202) 513–0558, fax: (202) 513–0311.

# C. Eligible Office of Natural Resources Revenue (ONRR) Programs

Effective October 1, 2010, the Office of Natural Resources Revenue (ONNR) moved from the Bureau of Ocean Energy Management (formerly MMS) to the Office of the Assistant Secretary for Policy, Management and Budget (PMB). The ONRR collects, accounts for, and distributes mineral revenues from both Federal and Indian mineral leases.

The ONRR also evaluates industry compliance with laws, regulations, and lease terms, and offers mineral-owning tribes opportunities to become involved in its programs that address the intent of tribal self-governance. These programs are available to selfgovernance tribes and are a good prerequisite for assuming other technical functions. Generally, ONRR program functions are available to tribes because of the Federal Oil and Gas Royalty Management Act of 1983 (FOGRMA) at 30 U.S.C. 1701. The ONRR program functions that may be available to self-governance tribes include:

- 1. Audit of Tribal Royalty Payments. Audit activities for tribal leases, except for the issuance of orders, final valuation decisions, and other enforcement activities. (For tribes already participating in ONRR cooperative audits, this program is offered as an option.)
- 2. Verification of Tribal Royalty Payments. Financial compliance verification, monitoring activities, and production verification.
- 3. Tribal Royalty Reporting, Accounting, and Data Management.

Establishment and management of royalty reporting and accounting systems including document processing, production reporting, reference data (lease, payor, agreement) management, billing and general ledger.

- 4. Tribal Royalty Valuation. Preliminary analysis and recommendations for valuation, and allowance determinations and approvals.
- 5. Royalty Internship Program. An orientation and training program for auditors and accountants from mineral-producing tribes to acquaint tribal staff with royalty laws, procedures, and techniques. This program is recommended for tribes that are considering a self-governance funding agreement, but have not yet acquired mineral revenue expertise via a FOGRMA section 202 cooperative agreement, as this term is defined in FOGRMA and implementing regulations at 30 CFR 228.4.

For questions regarding selfgovernance, contact Shirley M. Conway, Special Assistant to the Director, Office of Natural Resources Revenue, Office of the Assistant Secretary—Policy, Management and Budget, 1801 Pennsylvania Avenue NW., 4th Floor, Washington, DC 20006, telephone: (202) 254–5554, fax: (202) 254–5589.

## D. Eligible National Park Service (NPS) Programs

The National Park Service administers the National Park System, which is made up of national parks, monuments, historic sites, battlefields, seashores, lake shores and recreation areas. The National Park Service maintains the park units, protects the natural and cultural resources, and conducts a range of visitor services such as law enforcement, park maintenance, and interpretation of geology, history, and natural and cultural resources.

Some elements of the following programs may be eligible for inclusion in a self-governance funding agreement. This list below was developed considering the proximity of an identified self-governance tribe to a national park, monument, preserve, or recreation area and the types of programs that have components that may be suitable for contracting through a self-governance funding agreement. This list is not all-inclusive, but is representative of the types of programs which may be eligible for tribal participation through funding agreements.

# E. Eligible Fish and Wildlife Service (Service) Programs

The mission of the Service is to conserve, protect, and enhance fish, wildlife, and their habitats for the continuing benefit of the American people. Primary responsibilities are for migratory birds, endangered species, freshwater and anadromous fisheries, and certain marine mammals. The Service also has a continuing cooperative relationship with a number of Indian tribes throughout the National Wildlife Refuge System and the Service's fish hatcheries. Any selfgovernance tribe may contact a National Wildlife Refuge or National Fish Hatchery directly concerning participation in Service programs under the Tribal Self-Governance Act. This list is not all-inclusive, but is representative of the types of Service programs that may be eligible for tribal participation through an annual funding agreement.

- 1. Subsistence Programs within the State of Alaska. Evaluate and analyze data for annual subsistence regulatory cycles and other data trends related to subsistence harvest needs, and facilitate Tribal Consultation to ensure ANILCA Title VII terms are being met as well as activities fulfilling the terms of Title VIII of ANILCA.
- 2. Technical Assistance, Restoration and Conservation. Conduct planning and implementation of population surveys, habitat surveys, restoration of sport fish, capture of depredating migratory birds, and habitat restoration activities.
- 3. Endangered Species Programs. Conduct activities associated with the conservation and recovery of threatened or endangered species protected under the Endangered Species Act (ESA); candidate species under the ESA may be

eligible for self-governance funding agreements. These activities may include, but are not limited to, cooperative conservation programs, development of recovery plans and implementation of recovery actions for threatened and endangered species, and implementation of status surveys for high priority candidate species.

4. Éducation Programs. Provide services in interpretation, outdoor classroom instruction, visitor center operations, and volunteer coordination both on and off national Wildlife Refuge lands in a variety of communities, and assist with environmental education and outreach efforts in local villages.

- 5. Environmental Contaminants
  Program. Conduct activities associated
  with identifying and removing toxic
  chemicals, to help prevent harm to fish,
  wildlife and their habitats. The
  activities required for environmental
  contaminant management may include,
  but are not limited to, analysis of
  pollution data, removal of underground
  storage tanks, specific cleanup
  activities, and field data gathering
  efforts.
- 6. Wetland and Habitat Conservation Restoration. Provide services for construction, planning, and habitat monitoring and activities associated with conservation and restoration of wetland habitat.
- 7. Fish Hatchery Operations. Conduct activities to recover aquatic species listed under the Endangered Species Act, restore native aquatic populations, and provide fish to benefit Tribes and National Wildlife Refuges that may be eligible for a self-governance funding agreement. Such activities may include, but are not limited to: Tagging, rearing and feeding of fish, disease treatment, tagging, and clerical or facility maintenance at a fish hatchery.
- 8. National Wildlife Refuge Operations and Maintenance. Conduct activities to assist the National Wildlife Refuge System, a national network of lands and waters for conservation, management and restoration of fish, wildlife and plant resources and their habitats within the United States. Activities that may be eligible for a selfgovernance funding agreement may include, but are not limited to: Construction, farming, concessions, maintenance, biological program efforts, habitat management, fire management, and implementation of comprehensive conservation planning.

Locations of Refuges and Hatcheries With Close Proximity to Self-Governance Tribes

The Service developed the list below based on the proximity of identified

- self-governance tribes to Service facilities that have components that may be suitable for contracting through a self-governance funding agreement.
- 1. Alaska National Wildlife Refuges— Alaska
- Alchesay National Fish Hatchery— Arizona
- 3. Humboldt Bay National Wildlife Refuge—California
- 4. Kootenai National Wildlife Refuge— Idaho
- Agassiz National Wildlife Refuge— Minnesota
- Mille Lacs National Wildlife Refuge— Minnesota
- Rice Lake National Wildlife Refuge— Minnesota

For questions regarding self-governance, contact Patrick Durham, Fish and Wildlife Service (MS–330), 4401 N. Fairfax Drive, Arlington, VA 22203, telephone: (703) 358–1728, fax: (703) 358–1930.

# F. Eligible U.S. Geological Survey (USGS) Programs

The mission of the USGS is to collect, analyze, and provide information on biology, geology, hydrology, and geography that contributes to the wise management of the Nation's natural resources and to the health, safety, and well-being of the American people. This information is usually publicly available and includes maps, data bases, and descriptions and analyses of the water, plants, animals, energy, and mineral resources, land surface, underlying geologic structure, and dynamic processes of the earth. The USGS does not manage lands or resources. Selfgovernance tribes may potentially assist the USGS in the data acquisition and analysis components of its activities.

For questions regarding selfgovernance, contact Monique Fordham, Esq., National Tribal Liaison, U.S. Geological Survey, 12201 Sunrise Valley Drive, Reston, VA 20192, telephone 703–648–4437, fax 703–648–6683.

G. Eligible Office of the Special Trustee for American Indians (OST) Programs

The Department of the Interior has responsibility for what may be the largest land trust in the world, approximately 56 million acres. OST oversees the management of Indian trust assets, including income generated from leasing and other commercial activities on Indian trust lands, by maintaining, investing and disbursing Indian trust financial assets, and reporting on these transactions. The mission of the OST is to serve Indian communities by fulfilling Indian fiduciary trust responsibilities. This is to be accomplished through the implementation of a Comprehensive Trust Management Plan (CTM) that is designed to improve trust beneficiary services, ownership information, management of trust fund assets, and self-governance activities.

A tribe operating under selfgovernance may include the following programs, services, functions, and activities or portions thereof in a funding agreement:

- 1. Beneficiary Processes Program (Individual Indian Money Accounting Technical Functions).
- 2. Appraisal Services Program. Tribes/consortia that currently perform these programs under a self-governance funding agreement with the Office of Self-Governance may negotiate a separate memorandum of understanding (MOU) with OST that outlines the roles and responsibilities for management of these programs.

The MOU between the tribe/consortium and OST outlines the roles and responsibilities for the performance of the OST program by the tribe/consortium. If those roles and responsibilities are already fully articulated in the existing funding agreement with the BIA, an MOU is not necessary. To the extent that the parties desire specific program standards, an MOU will be negotiated between the tribe/consortium and OST, which will be binding on both parties and attached and incorporated into the BIA funding agreement.

If a tribe/consortium decides to assume the operation of an OST program, the new funding for performing that program will come from OST program dollars. A tribe's newlyassumed operation of the OST program(s) will be reflected in the tribe's funding agreement.

For questions regarding self-governance, contact Lee Frazier, Program Analyst, Office of External Affairs, Office of the Special Trustee for American Indians (MS 5140– MIB), 1849 C Street NW., Washington, DC 20240–0001, phone: (202) 208–7587, fax: (202) 208–7545.

#### IV. Programmatic Targets

During Fiscal Year 2014, upon request of a self-governance tribe, each non-BIA bureau will negotiate funding agreements for its eligible programs beyond those already negotiated.

Dated: February 4, 2014.

#### SUPPLEMENTARY INFORMATION:

Title: 30 CFR Part 291, Open and Nondiscriminatory Access to Oil and Gas Pipelines Under the OCS Lands Act. OMB Control Number: 1014–0012.

Abstract: The Outer Continental Shelf (OCS) Lands Act (OCSLA), as amended (43 U.S.C. 1331 et seq. and 43 U.S.C. 1801 et seq.), authorizes the Secretary of the Interior to prescribe rules and regulations necessary for the administration of the leasing provisions of that Act related to mineral resources on the OCS. Such rules and regulations will apply to all operations conducted under a lease, right-of-way, or a right-ofuse and easement. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

The OCSLA requires open and nondiscriminatory access to oil and gas pipelines. The OCSLA provides the Secretary of the Interior the authority to issue and enforce rules to assure open and nondiscriminatory access to pipelines. These regulations provide a mechanism for entities who believe they have been denied open and nondiscriminatory access to pipelines on the OCS. The BSEE established a process, via the subject regulations, to submit complaints alleging denial of access or discriminatory access for a shipper transporting oil or gas

production from Federal leases on the OCS. The complaint should include certain minimal data in order for BSEE to begin an investigation. Upon completion of an investigation, BSEE will propose a remedial action.

The Independent Offices Appropriations Act (31 U.S.C. 9701), the Omnibus Appropriations Bill (Pub. L. 104-133, 110 Stat. 1321, April 26, 1996), and OMB Circular A-25, authorize Federal agencies to recover the full cost of services that confer special benefits. Under the Department of the Interior's implementing policy, BSEE is required to charge fees for services that provide special benefits or privileges to an identifiable non-Federal recipient above and beyond those which accrue to the public at large. Regulations at §§ 291.106(b) and 291.108 require a nonrefundable processing fee of \$7,500 that a shipper must pay when filing a complaint to BSEE.

Regulations implementing these responsibilities are among those delegated to BSEE. Responses are voluntary but are required to obtain or retain a benefit. No questions of a sensitive nature are asked. The BSEE protects information considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and DOI's implementing regulations (43 CFR 2), and under regulations at 30 CFR 250.197, Data and information to be made available to the public or for limited inspection, 30 CFR Part 252, OCS Oil and Gas Information Program.

The BSEE uses the submitted information to initiate a more detailed investigation into the specific circumstances associated with a complainant's allegation of denial of access or discriminatory access to pipelines on the OCS. The complaint information will be provided to the alleged offending party. The BSEE may request additional information upon completion of the initial investigation.

Frequency: On occasion.

Description of Respondents: Potential respondents include OCS Federal oil, gas, or sulphur lessees and/or operators.

Estimated Reporting and Recordkeeping Hour Burden: The estimated annual hour burden for this information collection is a total of 51 hours. The following chart details the individual components and estimated hour burdens. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.
