

believes that aligning the pilot periods would ensure that trading in options that overlay NMS Stocks continues to be appropriately modified to reflect market conditions that occur during a Limit State or a Straddle State in a manner that promotes just and equitable principles of trade and removes impediments to, and perfects the mechanism of, a free and open market and a national market system. The Exchange believes that the extension of Rule 953.1NY(c) would help encourage market participants to continue to provide liquidity during extraordinary market volatility.

Moreover, the Exchange believes that extending the pilot period for Rule 953.1NY(c) would remove impediments to, and perfect the mechanisms of, a free and open market because it would enable the Exchange to continue to conduct its assessments relating to the impact of the operation of the Obvious Error rules during Limit and Straddle States as set forth above, which, in turn, provides the Exchange with more information from which to assess the impact of Rule 953.1NY(c).

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed changes will not impose any burden on competition and will instead provide certainty regarding the treatment and execution of options orders, specifically the treatment of Obvious and Catastrophic Errors during periods of extraordinary volatility in the underlying NMS Stock, and will facilitate appropriate liquidity during a Limit State or Straddle State.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the

proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(6)(iii) thereunder.¹¹

The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, as it will allow the obvious error pilot program to continue uninterrupted while the industry gains further experience operating under the Plan, and avoid any investor confusion that could result from a temporary interruption in the pilot program. For this reason, the Commission designates the proposed rule change to be operative upon filing.¹²

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
