

490.0 kHz and above 1000 MHz. Radiated emission limits in these three bands are based on measurements employing an average detector with a 1 MHz RBW.

(2) The power density of radiated emissions outside the operating band above 40.0 GHz shall not exceed the following employing an average detector with a 1 MHz RBW:

(i) For radiated emissions between 40 and 200 GHz from field disturbance sensors and radar systems operating in the band 76–81 GHz: 600 pW/cm² at a distance of 3 meters from the exterior surface of the radiating structure.

(ii) For radiated emissions above 200 GHz from field disturbance sensors and radar systems operating in the 76–81 GHz band: 1000 pW/cm² at a distance of 3 meters from the exterior surface of the radiating structure.

(3) For field disturbance sensors and radar systems operating in the 76–81 GHz band, the spectrum shall be investigated up to 231.0 GHz.

(c) Fundamental emissions must be contained within the frequency bands specified in this section during all conditions of operation. Equipment is presumed to operate over the temperature range –20 to +50 degrees Celsius with an input voltage variation of 85% to 115% of rated input voltage, unless justification is presented to demonstrate otherwise.

§ 95.1617 RF safety.

Regardless of the power density levels permitted under this subpart, devices operating under the provisions of this subpart are subject to the radiofrequency radiation exposure requirements specified in §§ 1.1307(b), 2.1091 and 2.1093 of this chapter, as appropriate. Applications for equipment authorization of devices operating under this section must contain a statement confirming compliance with these requirements for both fundamental emissions and unwanted emissions. Technical information showing the basis for this statement must be submitted to the Commission upon request.

SUPPLEMENTARY INFORMATION:

I. Background

Entry-Level Driver Training

Section 32304 of the Moving Ahead for Progress in the 21st Century (MAP–21) (Pub. L. 112–141, 126 Stat. 405 (July 6, 2012)) requires FMCSA to establish new regulations concerning ELDT. MAP–21 requires “that the training regulations address knowledge and skills for motor vehicle operation, specific requirements for hazmat and passenger endorsements, create a certificate system for meeting requirements, and require training providers to demonstrate that their training meets uniform standards.” The new requirements would apply to individuals seeking a CDL to operate CMVs, as defined in 49 CFR 383.5.

On August 19, 2014 (79 FR 49044), FMCSA announced that the Agency would explore the feasibility of conducting a negotiated rulemaking concerning entry-level driver training for drivers of CMVs. The Agency announced the hiring of a convener to speak with interested parties about the feasibility of conducting an ELDT negotiated rulemaking and requested public comments by September 18, 2014. As part of the first step in this process, the convener conducted these interviews and submitted a report to the Agency on November 26, 2014, regarding the feasibility of conducting a negotiated rulemaking. The convening report is available both in the rulemaking docket at FMCSA–2007–27748 and on the Internet at eltdtac.fmcsa.dot.gov.

On December 10, 2014 (79 FR 73273), FMCSA announced its intent to establish a negotiated rulemaking committee to negotiate and develop proposed regulations to implement the MAP–21 provision concerning ELDT based on the recommendations of the convener. On February 12, 2015 (80 FR 7814), FMCSA announced the appointment of members to the Entry-Level Driver Training Advisory Committee (ELDTAC) established to complete a negotiated rulemaking on ELDT for individuals who want to operate CMVs.

ELDTAC

The ELDTAC is established by charter in accordance with the Federal Advisory committee Act (FACA), 5 U.S.C., App. 2. Transportation Secretary Anthony Foxx signed the ELDTAC charter on January 15, 2015, which provides up to 2 years for the Committee's duration, in accordance with section 14 of FACA. Additionally, as the ELDTAC is a negotiated rulemaking committee (“Reg Neg”), it

complies with the Negotiated Rulemaking Act (5 U.S.C. 564). The Committee is effective from the date of signature through January 15, 2017.

ELDTAC Membership

In its December 10, 2014, **Federal Register** notice, the Agency announced that it was soliciting applications and nominations for membership on the ELDTAC. These members are experts in their respective fields and appointed as Special Government employees or representatives of entities or interests including but not limited to the following: CMV driver training organizations; industry representatives; representatives of driver training schools; motor carriers (of property and passengers) and associations; State licensing agencies; State enforcement agencies; labor unions; safety advocacy groups; insurance companies; and others selected with a view toward achieving varied perspectives on ELDT. In an effort to balance these interests to the extent practicable, the FMCSA Acting Administrator appointed 26 members on January 30, 2015, who will each serve for up to one two-year term. The members met for the first time Thursday–Friday, February 26–27, 2015.

II. Meeting Participation

Oral comments from the public will be heard during the meeting, as managed by the Reg Neg facilitator.

III. Submitting Written Comments

IV. Future Committee Meetings and Rulemaking Calendar

In coordination with the Reg Neg facilitator, FMCSA has developed this schedule of committee meetings, running through May 2015.

FMCSA intends to complete the Reg Neg process for the proposed rule within the first half of 2015 and to publish a Notice of Proposed Rulemaking (NPRM) this year, followed by a Final Rule in 2016. After the conclusion of the committee meetings, the Agency will draft the NPRM, which is expected to take approximately 6–8 weeks, depending on the degree of consensus on the issues and the supporting data developed by the committee. The NPRM will then be reviewed by DOT’s Office of the Secretary and the Office of Management and Budget (OMB). The Agency will then publish the NPRM for public comment.

Following the close of the public comment period the Agency will evaluate and respond to public comments as it drafts a final rule, which will also undergo Departmental and OMB review. Although the time needed to address public comments to an NPRM that has been developed through a successful negotiated rulemaking process is typically shorter than for rules conducted through the ordinary informal notice and comment process, the Agency must nonetheless address substantive public comments in the final rule, in accordance with the Administrative Procedure Act. While the Agency cannot state with certainty the time required to complete the Reg Neg process and notice and comment rulemaking, the target date for publication of an NPRM is October 15, 2015.

Issued on: March 2, 2015.

Larry W. Minor,

Associate Administrator for Policy.
