

defines “significantly depleted funds” as any grant where \$400,000 or less remains uncommitted. Additionally, the RLF recipient must have demonstrated a need for supplemental funding based on, among other factors, the number of sites that will be addressed; demonstrated the ability to make loans and subgrants for cleanups that can be started and completed expeditiously (*i.e.*, “shovel-ready” projects) and will lead to redevelopment; demonstrated the existence of additional leveraged funds to complete the project in a timely manner and move quickly from cleanup to redevelopment, including the use of tax incentives such as new market tax credits, direct funding or other resources to advance the project to

completion; demonstrated the ability to administer and revolve the capitalization funding in the RLF grant; demonstrated an ability to use the RLF grant to address funding gaps for cleanup; and demonstrated that they have provided a community benefit from past and potential loan(s) and/or subgrant(s). Special consideration may be given to those communities affected by plant closures or other economic disruptions; can demonstrate projects that have a clear prospect of aiding the in-sourcing of manufacturing capacity and keeping and/or adding jobs, or otherwise creating jobs, in the affected area; or will benefit a community that has been identified as part of EPA’s Cross Agency Strategy on Working to

Make a Visible Difference in Communities. EPA encourages innovative approaches to maximizing revolving and leveraging with other funds, including use of grants funds as a loan loss guarantee, combining with other government or private sector lending resources. Applicants for supplemental funding must contact the appropriate Regional Brownfields Coordinator below to obtain information on the format for supplemental funding applications for their region. When requesting supplemental funding, applicants must specify whether they are seeking funding for sites contaminated by hazardous substances or petroleum. Applicants may request both types of funding.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), “Cellulosic Production Volume Projections and Efficient Producer Reporting” (EPA ICR No. 2517.01, OMB Control No. 2060–NEW) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a request for approval of a new collection. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before May 26, 2015.

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: EPA is seeking to collect information from potential cellulosic biofuel producers to aid in determining the annual volume standards. This ICR includes a questionnaire form to facilitate the collection of this information. EPA would also like to use a data form to collect information from certain ethanol producers and importers who have requested and been approved to use an "efficient producer" pathway. This data form would standardize collection of selected data points and allow better and more efficient compliance with the RFS program. We inform respondents that they may assert claims of business confidentiality (CBI)

for information they submit in accordance with 40 CFR 2.203.

Forms: RFS Efficient Producer Data Form, RFS Cellulosic Biofuel Producer Questionnaire Form.

Respondents/affected entities: Producers, Importers of Renewable Fuels.

Respondent's obligation to respond: RFS Cellulosic Biofuel Producer Questionnaire Form is voluntary; RFS Efficient Producer Data Form is mandatory pursuant to Sections 114 and 208 of the Clean Air Act (CAA), 42 U.S.C. 7414 and 7542.

Estimated number of respondents: 80 (total).

Frequency of response: Annually (RFS Cellulosic Biofuel Producer Questionnaire Form) or quarterly (RFS Efficient Producer Data Form).

Total estimated burden: 560 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$63,840 (per year).

Changes in estimates: There is no previous ICR for this collection.

Dated: March 17, 2015.

Karl Simon,

Director, Transportation and Climate Division, Office of Transportation and Air Quality.
