Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

### **II. Discussion**

The NRC is issuing for public comment draft plant-specific Supplement 55 to the GEIS for license renewal of nuclear plants, NUREG–1437, regarding the renewal of operating licenses NPF–72 and NPF–77 for an additional 20 years of operation for Braidwood. Supplement 55 to the GEIS includes the preliminary analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action. The NRC’s preliminary recommendation is that the adverse environmental impacts of license renewal for Braidwood are not great enough to deny the option of

license renewal for energy-planning decisionmakers.

### **III. Public Meetings**

The NRC staff will hold public meetings prior to the close of the public comment period to present an overview of the draft plant-specific supplement to the GEIS and to accept public comment on the document. Two meetings will be held at the Godley Park District, 500 S. Kankakee Street, Godley, Illinois 60407, on Tuesday, April 21, 2015. The first session will convene at 2:00 p.m. and will continue until 4:00 p.m., as necessary. The second session will convene at 7:00 p.m. and will continue until 9:00 p.m., as necessary. The meetings will be transcribed and will include: (1) A presentation of the contents of the draft plant-specific supplement to the GEIS; and (2) the opportunity for interested government agencies, organizations, and individuals to provide comments on the draft report. Additionally, the NRC staff will host informal discussions one hour prior to the start of each session at the same location. No comments on the draft supplement to the GEIS will be accepted during the informal discussions. To be considered in the final supplement to the GEIS, comments must be provided either at the transcribed public meeting or submitted in writing by the comment deadline identified in the **DATES** section of this notice. Persons may pre-register to attend or present oral comments at the meeting by contacting Mr. Tam Tran, the NRC project manager, at 1–800–368–5642, extension 3617, or by email at [Tam.Tran@nrc.gov](mailto:Tam.Tran@nrc.gov) no later than Tuesday, April 14, 2015. Members of the public may also register to provide oral comments within 15 minutes of the start of each session. Individual oral comments may be limited by the time available, depending on the number of persons who register. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Mr. Tran’s attention no later than Tuesday, April 14, 2015, in order to provide the NRC staff with adequate notice to determine whether the request can be accommodated. Additional details regarding the meeting will be posted at least 10 days prior to the public meeting on the NRC’s Public Meeting Schedule Web site at <http://www.nrc.gov/public-involve/public-meetings/index.cfm>.

## NUCLEAR REGULATORY COMMISSION

### Seeking Qualified Candidates for the Advisory Committee on Reactor Safeguards

**AGENCY:** Nuclear Regulatory  
Commission.

**ACTION:** Request for resumes.

**SUMMARY:** The U.S. Nuclear Regulatory  
Commission (NRC) seeks qualified  
candidates for the Advisory Committee  
on Reactor Safeguards (ACRS).

**DATES:** Resumes will be accepted until  
June 23, 2015.

**ADDRESSES:** Submit resumes to Ms.  
Kendra Freeland, ACRS, Mail Stop  
T2E26, U.S. Nuclear Regulatory  
Commission, Washington, DC 20555-  
0001, or email [Kendra.Freeland@nrc.gov](mailto:Kendra.Freeland@nrc.gov).

**SUPPLEMENTARY INFORMATION:** The ACRS is a part-time advisory group, which is statutorily mandated by the Atomic Energy Act of 1954, as amended. ACRS provides independent expert advice on matters related to the safety of existing and proposed nuclear power plants and on the adequacy of proposed reactor safety standards. Of primary importance are the safety issues associated with the operation of 99 commercial nuclear power plants in the United States and regulatory initiatives, including risk-informed and performance-based regulation, license renewal, power uprates, and the use of mixed oxide and high burnup fuels. An increased emphasis is being given to safety issues associated with new reactor designs and technologies, including passive system reliability and thermal hydraulic phenomena, use of digital instrumentation and control, international codes and standards used in multinational design certifications, materials, and structural engineering, nuclear analysis and reactor core performance, and nuclear materials and radiation protection. In addition, the ACRS may be requested to provide advice on radiation protection, radioactive waste management, and earth sciences in the agency's licensing reviews for fuel fabrication and enrichment facilities, and for waste disposal facilities. The ACRS also has some involvement in security matters

related to the integration of safety and security of commercial reactors.

See the NRC Web site at <http://www.nrc.gov/aboutnrc/regulatory/advisory/acrs.html> for additional information about the ACRS. Criteria used to evaluate candidates include education and experience, demonstrated skills in nuclear reactor safety matters, the ability to solve complex technical problems, and the ability to work collegially on a board, panel, or committee. The Commission, in selecting its Committee members, also considers the need for specific expertise to accomplish the work expected to be before the ACRS. ACRS Committee members are appointed for four-year terms with no term limits. The Commission looks to fill two vacancies as a result of this request. For this position, a candidate must have at least 20 years of broad experience and a distinguished record of achievement in one or more areas of nuclear science and technology or related engineering disciplines.

Candidates with pertinent graduate level experience will be given additional consideration. Consistent with the requirements of the Federal Advisory Committee Act, the Commission seeks candidates with diverse backgrounds, so that the membership on the Committee is fairly balanced in terms of the points of view represented and functions to be performed by the Committee. Candidates will undergo a thorough security background check to obtain the security clearance that is mandatory for all ACRS members. The security background check will involve the completion and submission of paperwork to the NRC. Candidates for ACRS appointments may be involved in or have financial interests related to NRC-regulated aspects of the nuclear industry. However, because conflict-of-interest considerations may restrict the participation of a candidate in ACRS activities, the degree and nature of any such restriction on an individual's activities as a member will be considered in the selection process.

Each qualified candidate's financial interests must be reconciled with applicable Federal and NRC rules and regulations prior to final appointment. This might require divestiture of securities or discontinuance of certain contracts or grants. Information regarding these restrictions will be provided upon request. As a part of the Stop Trading on Congressional Knowledge Act of 2012, which bans insider trading by members of Congress, their staff, and other high-level federal employees, candidates for appointments

will be required to disclose additional financial transactions.

A resume describing the educational and professional background of the candidate, including any special accomplishments, publications, and professional references should be provided. Candidates should provide their current address, telephone number, and email address. All candidates will receive careful consideration. Appointment will be made without regard to factors such as race, color, religion, national origin, sex, age, or disabilities. Candidates must be citizens of the United States and be able to devote approximately 100 days per year to Committee business, but may not be compensated for more than 130 calendar days. Resumes will be accepted until June 23, 2015.

Dated at Rockville, Maryland, this 18th day of March, 2015.

For the Nuclear Regulatory Commission.
