FOR FURTHER INFORMATION CONTACT: Kathy Hopkins, Procurement Analyst, Federal Acquisition Policy Division, at 202-969-7226 or Kathlyn.hopkins@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. Purpose

Certain Federal contracts provide for progress payments to be made to the contractor during performance of the contract. Pursuant to FAR clause 52.232-16 "Progress Payments," contractors are required to request progress payments on Standard Form 1443, "Contractor's Request for Progress Payment," or an agency approved electronic equivalent. Additionally, contractors may be required to submit reports, certificates, financial statements, and other pertinent information, reasonably requested by the Contracting Officer. The contractual requirement for submission of reports, certificates, financial statements and other pertinent information is necessary for protection of the Government against financial loss through the making of progress payments.

B. Annual Reporting Burden

Respondents: 25,161.

Responses per Respondent: 32.

Annual Responses: 805,152.

Hours per Response: .42.

Total Burden Hours: 338,164.

Time required to read and prepare information is estimated at 25.2 minutes

(less than one-half hour) per completion. This downward change is attributable to productivity gains (based on data from Bureau of Labor Statistics, 1990-2013) realized through technology. The anticipated number of respondents has been reduced (from 27,000 to 25,161), as well, and is proportional to the lower number of Federal contracts overall.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

D. Obtaining Copies Of Proposals: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202-501-4755. Please cite OMB Control No. 9000-0010, Progress Payments, in all correspondence.

Dated: April 16, 2015.

Public Availability of General Services Administration FY 2014 Service Contract Inventory

AGENCY: General Services Administration (GSA).

ACTION: Notice of public availability of FY 2014 Service Contract Inventories.

SUMMARY: In accordance with The Fiscal Year (FY) 2010 Consolidated Appropriations Act, GSA is publishing this notice to advise the public of the availability of the FY 2014 Service Contract Inventories.

DATES: April 21, 2015.

FOR FURTHER INFORMATION CONTACT:

Questions regarding the Service Contract Inventory should be directed to Mr. Paul F. Boyle in the Office of Acquisition Policy at 202-501-0324 or paul.boyle@gsa.gov.

SUPPLEMENTARY INFORMATION: In accordance with section 743 of Division C of Fiscal Year (FY) 2010 Consolidated Appropriations Act (Pub. L. 111-117), GSA is publishing this notice to advise the public of the availability of the FY 2014 Service Contract Inventories. These inventories provide information on service contract actions over \$25,000 that were made in FY 2014. The information is organized by function to show how contracted resources are distributed throughout the agency. The inventory has been developed in accordance with guidance issued on December 19, 2011 by the Office of Management and Budget's Office of Federal Procurement Policy (OFPP). OFPP's guidance is available at: <http://www.whitehouse.gov/sites/default/files/omb/procurement/memo/service-contract-inventory-guidance>.

The GSA has posted its inventory and a summary of the inventory on the GSA.gov homepage at the following link: <http://www.gsa.gov/gsasoci>.

Dated: April 16, 2015.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. To request more information on the below proposed project or to obtain a copy of the information collection plan and instruments, call 404-639-7570 or send comments to LeRoy Richardson, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an email to omb@cdc.gov.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget (OMB) approval. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. Written comments should be received within 30 days of this notice.

Proposed Project

Assessing Community-Based Organizations' Partnerships with Schools for the Prevention of HIV/STDs—New—Division of Adolescent and School Health (DASH), National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention, Centers for Disease Control and Prevention (CDC).

Background and Brief Description

HIV infections remain high among young men who have sex with men (YMSM). The estimated number of new HIV infections increased between 2008 and 2010 both overall and among MSM ages 13 to 24. Furthermore, sexual risk behaviors associated with HIV, other sexually transmitted disease (STD), and pregnancy often emerge in adolescence. For example, 2011 Youth Risk Behavior Surveillance System (YRBSS) data revealed 47.4% of U.S. high school students reported having had sex, and among those who had sex in the

previous three months, 39.8% reported having not used a condom during last sexual intercourse. In addition, 2001–2009 YRBSS data revealed high school students identifying as gay, lesbian, and bisexual and those reporting sexual contact with both males and females were more likely to engage in sexual risk-taking behaviors than heterosexual students.

Given the disproportionate risk for HIV among YMSM ages 13–24, it is important to find ways to reach the younger youth (*i.e.*, ages 13–19) in this range to decrease sexual risk behaviors and increase health-promoting behaviors such as routine HIV testing. Schools provide one opportunity for this. Because schools enroll more than 22 million teens (ages 14–19) and often have existing health and social services infrastructure, schools and their staff members are well-positioned to connect youth to a wide range of needed services, including housing assistance, support groups, and sexual health services such as HIV testing. As a result, CDC's DASH has focused a number of HIV and STD prevention efforts on strategies that can be implemented in or centered on schools.

However, conducting HIV and STD prevention work (particularly work that is designed to specifically meet the needs of YMSM) can be challenging. School is not always a welcoming environment for lesbian, gay, bisexual, transgender, and questioning (LGBTQ) youth. Harassment, bullying, and verbal and physical assault are often reported, and such unsupportive environments and victimization among LGBTQ youth are associated with a variety of negative outcomes, including truancy, substance use, poor mental health, HIV and STD risk, and even suicide. Schools build partnerships with community-based organizations to increase access to needed services of LGBTQ youth.

The Centers for Disease Control and Prevention (CDC) requests a 3-year OMB approval to conduct a new information collection entitled, "Assessing Community-Based Organizations' Partnerships with Schools for the Prevention of HIV/STDs." The information collection will allow CDC to conduct assessment of selected staff from community-based organizations (CBOs) and health and/or wellness centers (HWCs), including school-based health centers, at participating schools or to which YMSM from participating schools are referred. This is part of the HIV and STD prevention efforts that are taking place in conjunction with local education agencies (LEAs) funded by the Centers for Disease Control and Prevention (CDC), Division of
