

*Affected Public:* Businesses or other for-profits; farms.

*Estimated Number of Respondents:* 2,618.

*Estimated Total Annual Burden Hours:* 2,784.

*Title:* Monthly Report—Tobacco Products or Processed Tobacco Importer.

*OMB Number:* 1513–0107.

*TTB Form Number:* TTB F 5220.6.

*Abstract:* Reports on the importation and disposition of tobacco products and processed tobacco are used, along with other information, to determine whether those persons issued the permits required by 26 U.S.C. 5713 are complying with TTB regulations. Those engaged in importing tobacco products and processed tobacco are required to account for the importation and disposition of such products on a monthly basis.

*Current Actions:* TTB is submitting this collection as a revision. The form remains unchanged. However, we are updating the number of respondents and the total annual burden to reflect a decrease in the number of respondents.

*Type of Review:* Revision of a currently approved collection.

*Affected Public:* Businesses or other for-profits.

*Estimated Number of Respondents:* 330.

*Estimated Total Annual Burden Hours:* 3,696.

*Title:* Formulas for Fermented Beverage Products.

*OMB Number:* 1513–0118.

*TTB Recordkeeping Requirement Number:* TTB REC 5052/1.

*Abstract:* Section 5052 of the Internal Revenue Code of 1986 (IRC) defines the term “beer” to include, among other things, certain products such as beer, ale, porter, and stout. The TTB regulations at 27 CFR 25.55 set forth the circumstances under which the filing of a formula for beer is required. Section 25.55 require, for example, the filing of a written notice in the form of a formula only for certain products that will undergo any manufacturing process not generally recognized as a tradition process in the production of those products designated as beer, ale, porter, or stout, or for certain other non-traditional fermented products produced at a brewery. Brewers file formulas as needed and only for the types of products specified in the regulations. TTB provides that a brewer operating multiple breweries may file a single formula to cover the production of a specified fermented product at all of their breweries.

*Current Actions:* TTB is submitting this collection as a revision. While TTB

has reduced the number of formulas requiring submission by increasing the ingredients and processes that do not require approval, the number of brewers and products in the market place has significantly increased. Therefore, we are updating the number of respondents and the total annual burden to reflect an increase in the number of respondents.

*Type of Review:* Revision of a currently approved collection.

*Affected Public:* Businesses or other for-profits.

*Estimated Number of Respondents:* 505.

*Estimated Total Annual Burden Hours:* 1,326.

Dated: April 21, 2015.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

Records are maintained on an SQL server at VA AITC in Austin, Texas.

**RETRIEVABILITY:**

Records are retrieved by name, social security number or other assigned identifiers of the individuals on whom they are maintained.

**SAFEGUARDS:**

1. VA will maintain the data in compliance with applicable VA security

policy directives that specify the standards that will be applied to protect sensitive personal information. VA's security measures comply with applicable Federal Information Processing Standards (FIPS) issued by the National Institute of Standards and Technology (NIST). Access to VA working and storage areas is restricted to VA employees on a "need-to-know" basis; strict control measures are enforced to ensure that disclosure to these individuals is also based on this same principle. They are required to take annual VA mandatory data privacy and security training. Generally, VA file areas are locked after normal duty hours and the facilities are protected from outside access by the Federal Protective Service or other security personnel.

2. Access to computer rooms at the VA AITC is limited in accordance with VA OIT national security policies. Peripheral devices are placed in secure areas (areas that are locked or have limited access) or are otherwise protected. Information stored on the Veterans Crisis Line Database-VA may be accessed by authorized VA employees. Access to file information is controlled at two levels; the systems recognize authorized employees by series of individually unique passwords/codes as a part of each data message, and the employees are limited to only that information in the file which is needed in the performance of their official duties. Information that is downloaded from the Veterans Crisis Line Database-VA and maintained on personal computers is afforded similar storage and access protections as the data that is maintained in the original files. Access to information stored on automated storage media at other VA locations is controlled by individually unique passwords/codes.

**RETENTION AND DISPOSAL:**

Currently these records are maintained as a permanent record, pending approval of a new records schedule by the National Archives and Records Administration.
