BILLING CODE 4410-12-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On April, 22, 2015, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the District of Colorado in the lawsuit entitled *United States and State of Colorado v. Noble Energy, Inc.*, Civil Action No. 1:15-cv-00841.

The case concerns alleged violations of the Clean Air Act and provisions of Colorado's federally approved State Implementation Plan relating to emissions of volatile organic compounds ("VOC") from condensate storage tanks that are, or were until recently, part of Noble's oil and natural gas production operations in the Denver-Julesburg Basin in Boulder, Broomfield, and Weld counties, Colorado, a non-attainment area for ground level ozone known as the "8-hour Ozone Control Area." At issue are leaks of vapors from tanks storing hydrocarbon liquids known as "pressurized liquids" or "condensate" which are separated from natural gas near the wellhead. The settlement covers 3,472 tank batteries (referred to in the Consent Decree as "Tank Systems") which comprise all of Noble's condensate storage tanks in the nonattainment area equipped with Vapor Control Systems pursuant to Colorado Air Quality Control Regulation Number 7 to achieve required system-wide emission reductions. Under the terms of the Consent Decree Noble is

required to determine the potential peak flow of vapors from each Tank System, conduct an engineering evaluation of the capacity of each Vapor Control System, undertake corrective actions as needed, and verify the adequacy of the corrective actions at all of the locations covered by the Decree. Noble will complete two Supplemental Environmental Projects ("SEPs") at a cost of no less than \$2 million. The first SEP, titled "Pressurized Hydrocarbon Liquids and Analysis SEP," will involve a scientific study of the reliability, and ways to improve the reliability, of methods used to sample and analyze pressurized liquids/condensate at a cost of at least \$1 million. A report of the study will be prepared and posted on Noble's Web site. The second SEP, titled "Wood Burning Appliance Changeout SEP," will involve replacing or retrofitting inefficient, higher polluting wood-burning or coal appliances in the non-attainment area at a cost of at least \$1 million. Noble will also spend at least \$4.5 million to complete five environmental mitigation projects. Noble will pay a \$4.95 million civil penalty to the United States and Colorado.

—Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

1. *Type of Information Collection:* New Voluntary Collection.

2. *The Title of the Form/Collection:* Evaluation of the justice AmeriCorp Legal Services for Unaccompanied Children Program.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The applicable component within the Department of Justice is the Office of Legal Access Programs, Executive Office for Immigration Review.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* This information collection is part of the Evaluation of the justice AmeriCorp (jAC) Legal Services for Unaccompanied Children Program ("Program"), and is funded by the Executive Office for Immigration Review (EOIR), U.S. Department of Justice (DOJ), in cooperation with the Corporation for National and Community Services (CNCS). The Program is intended to provide legal services to children under the age of 16 who: (1) Are not in the custody of the Office of Refugee Resettlement or the Department of Homeland Security, i.e. have been released to sponsors (who are sometimes parents or guardians) in the community; (2) have received a Notice to Appear in removal proceedings before EOIR; and, (3) have not had their cases consolidated with removal proceedings with a parent or legal guardian. The Program anticipates being able to provide services to 3,000 children in the first year, and 5,000 children annually every year thereafter.

The information collection will be administered by the Vera Center on Immigration and Justice to provide performance measurement and evaluation services that will contribute to the efficiency and effectiveness of the Program, to address implementation challenges, to inform and improve program design, to modify program operations and direction, and to contribute to greater accountability and transparency. The Program will use four data collection methods: (1) Performance measurement data entered by jAC member organizations in a secure web-based server for the purpose of semi-annual reporting to DOJ; (2) qualitative interviews of jAC program managers and selected DOJ employees (e.g. immigration judges and court administrators) conducted by telephone and in person during site visits for the purpose of implementation evaluation; (3) qualitative interviews with a small sample of unaccompanied children, who are provided with legal representation by the jAC program to document their understanding of immigration proceedings as a result of participation in the program; and (4) a brief, non-identifiable survey of jAC members (staff attorneys) at the end of their terms of service to determine their satisfaction with participation in the program.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 100 jAC members will take part in the survey annually. Based on similar surveys used by Vera to evaluate other programs, an average of 30 minutes per respondent is needed to complete the survey. The estimated range of burden for jAC members is expected to be between 15 minutes to 45 minutes for completion. An estimated 50 children will take part in the interview annually. The interview for assessing the child's understanding of immigration proceedings is estimated to take 1 hour per respondent to complete. The estimated range of burden for children interviewed is expected to be between 30 minutes and 1.5 hours for completion. The factors considered when creating the burden estimate were the young age of the children (between the ages of 12 and 16) and the fact that the interview would be conducted in-person. An estimated 200 jAC program stakeholders will take part in the interview annually. Based on similar interviews used by Vera to evaluate other programs, an average of 75 minutes per respondent is needed to complete the interview. The estimated range of burden for jAC program

stakeholders is expected to be between 45 minutes to 1.5 hours for completion.

6. *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden associated with this collection is 350 hours. It is estimated that 100 jAC members will take 30 minutes to complete the survey; 50 children will take 1 hour to complete the interview; and 200 jAC stakeholders 75 minutes to complete the interview. The burden hours for collecting respondent data sum to 350 hours ((100 jAC members × 30 minutes = 50 hours) + (50 children × 1 hour = 50 hours) + (200 jAC stakeholders × 75 minutes = 250 hours)).

If additional information is required contact: Jerri Murray, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE., 3E.405B, Washington, DC 20530.

Agency Information Collection Activities; Proposed eCollection eComments Requested; Approval of a New Collection Request for Emergency or Term Access to National Security Information

AGENCY: Security Division, Federal Bureau of Investigation.

ACTION: 60-day notice.

SUMMARY: The Department of Justice (DOJ), Federal Bureau of Investigation (FBI), Security Division (SecD), will be submitting the following emergency information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The primary factor contributing to the need for this form is time. OPM's own research indicates that the average time needed to fill out an SF-86 is 150 minutes. This average is largely based on young military applicants who have limited work and travel experiences. When dealing with high ranking business leaders they will be older, have more life and work experiences, taking more time to locate more details and information. Further, it takes a
