k. *Description of Proceeding:* The exemptee is in violation of Standard Article 1 of its exemption, which was granted on October 8, 1982 (21 FERC ¶62,018). Article 1 provides, among other things, that the Commission may terminate an exemption if any term or condition of the exemption is violated.

Commission records show The Dardanelles Creek Hydroelectric Project has been non-operational since before 2009. The project is located on lands managed by the Bureau of Land Management (BLM) and the Bureau of Reclamation (BOR) and has ongoing compliance issues with both agencies. By letter dated September 26, 2011, BLM copied the Commission on a fully executed duplicate original 5-year license (permit to use federal lands) to Mr. Bradley Reeves, exemptee for the project. On October 17, 2011, Mr. Reeves advised the Commission that he had sold the project to Mr. Kevin Drone as of September 15, 2011. By letter

dated October 28, 2011, to the new owner, Mr. Drone, the Commission requested the filing of documentation he has the rights to use or occupy the federal lands affected by the project, and a plan and schedule for making the project operational. On March 6, 2012, Mr. Drone filed a letter with the Commission stating he declined the exemption transfer until Mr. Reeves resolves non-compliance and outstanding debt liability issues. Commission, BLM, and BOR staff has tried to contact both parties. The parties have shown no movement towards restoring project operation or removing abandoned equipment, and no longer claim ownership of the project. Last correspondence with Mr. Reeves was returned with no forwarding address. The Commission is pursuing an implied surrender of the exemption due to noncompliance with its Standard Article 1. Doing so will also facilitate the BLM and/or the BOR efforts to pursue legally the current and/or the previous owner of the project.

A copy of any protest must be served upon each representative of the exemptee specified in item g above. A copy of all other filings in reference to this notice must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF15–3–000]

Mountain Valley Pipeline, LLC; Notice of Intent To Prepare an Environmental Impact Statement for the Planned Mountain Valley Pipeline Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meetings

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will discuss the environmental impacts of the Mountain Valley Pipeline Project (MVP Project) involving construction and operation of natural gas facilities by Mountain Valley Pipeline, LLC (Mountain Valley), a joint venture between affiliates of EQT Corporation and NextEra Energy, Inc., in

West Virginia and Virginia. For further details about the project facilities and locations, see “Summary of the Proposed Project” below. The Commission will use this EIS in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. You can make a difference by providing us with your specific comments or concerns about the project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EIS. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before June 16, 2015.

If you sent comments on this project to the Commission before the opening of the docket on October 27, 2014, you will need to re-file those comments in Docket No. PF15–3–000 to ensure they are considered as part of this proceeding. Any comments submitted after the establishment of a project docket do not need to be re-filed.

This notice is being sent to the Commission’s current environmental mailing list for this project. State and local government representatives should notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a Mountain Valley representative may contact you about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

A fact sheet prepared by the FERC entitled “An Interstate Natural Gas Facility On My Land? What Do I Need To Know?” is available for viewing on the FERC Web site (www.ferc.gov). This

fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission’s proceedings.

Public Participation

You can make a difference by providing us with your specific comments or concerns about the project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. For your convenience, there are four methods you can use to submit your comments to the Commission. In all instances, please reference the project docket number (PF15–3–000) with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502–8258 or efiling@ferc.gov.
