

designed as a small, all weather, autonomous, conventional, air-to-ground, precision glide weapon able to strike fixed and stationary re-locatable targets from standoff range. The payload/warhead is a very effective multipurpose penetrating and blast fragmentation warhead coupled with a cockpit selectable electronic fuze. Its size and accuracy allow for an effective munition with less collateral damage. Sensitive and/or classified (up to Secret) elements of the proposed acquisition includes hardware, accessories, components, and associated software.

5. The Multifunctional Information Distribution System/Low Volume Terminal (MIDS/LVT) is an advanced Link-16 command, control, communications, and intelligence (C3I) system incorporating high-capacity, jam-resistant, digital communication links for exchange of near real-time tactical information, including both data and voice, among air, ground, and sea elements. The MIDS/LVT terminal hardware, publications, performance specifications, operational capability, parameters, vulnerabilities to countermeasures, and software documentation are classified Confidential. The classified information to be provided consists of that which is necessary for the operation, maintenance, and repair (through intermediate level) of the data link terminal, installed systems, and related software.

6. The MK-82/84 inert bombs are 500lbs/2000lbs practice general purpose bombs respectively designed to attack soft and intermediately protected targets. These bomb are used during program development, integration, and testing. The weapons are Unclassified.

7. If a technologically advanced adversary obtains knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

8. A determination has been made that the recipient country can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

9. All defense articles and services listed in this transmittal have been

authorized for release and export to Singapore.
