

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Destinations of Released Patients Following Treatment with Iodine-131 and Estimation of Doses to Members of the Public at Locations other than Conventional Residences Receiving Such Patients.

2. *OMB approval number:* An OMB control number has not yet been assigned to this proposed information collection.

3. *Type of submission:* New.

4. *The form number, if applicable:* NA.

5. *How often the collection is required or requested:* One-time.

6. *Who will be required or asked to respond:* Institutions that treat thyroid cancer patients with I-131 and the thyroid cancer patients who have been treated.

7. *The estimated number of annual responses:* 5,175 (175 for treating institutions and 5000 for individuals).

8. *The estimated number of annual respondents:* 5,175.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 1,675 (175 hours for treating institution and 1500 hours for individuals).

10. *Abstract:* Although most patients return to their home after receiving diagnostic or therapeutic of Iodine-131, some patients released by the licensee may stay at another location (such as a hotel) for a few days. However, the extent of this practice is unclear. The same uncertainty exists regarding patients returning to nursing homes and other institutional settings. Therefore, one of the main objectives of this study is to obtain reliable statistical data that provides good estimates of the prevalence of these practices. The second objective is to determine, by measurements, the external and internal doses received by members of the general public at hotels, nursing homes, or other institutional settings that receive treated patients immediately after their release.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 13th day of May 2015.

For the Nuclear Regulatory Commission.

NRC Clearance Officer, Office of Information Services.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-74956; File No. SR-NYSEMKT-2015-38]

Self-Regulatory Organizations; NYSE MKT, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Modifying the NYSE Amex Options Fee Schedule Related to Fees and Credits Associated With the Customer Best Execution Auction

May 13, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 1,

2015, NYSE MKT LLC (the "Exchange" or "NYSE MKT") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to modify the NYSE Amex Options Fee Schedule ("Fee Schedule") related to fees and credits associated with the Customer Best Execution Auction ("CUBE Auction" or "Auction"). The Exchange proposes to implement the fee change effective May 1, 2015. The text of the proposed rule change is available on the Exchange's Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to amend Section I.G. of the Fee Schedule³ to modify existing CUBE fees and credits and to add a new rebate for CUBE participants who qualify for Tiers 2, 3, 4 or 5 of the Amex Customer Engagement ("ACE") Program.⁴ The Exchange proposes to implement the fee change effective May 1, 2015.

The Exchange proposes to increase the fees associated with RFR Responses participating in the Auction by \$0.05—from \$0.55 to \$0.60 for Non-Customers

in Penny Pilot issues; and from \$0.90 to \$0.95 for Non-Customers in non-Penny Pilot issues. In addition, the Exchange proposes to decrease the Initiating Participant Credit by \$0.05 for Penny Pilot issues—from \$0.40 to \$0.35; and \$0.10 for non-Penny Pilot issues—from \$0.80 to \$0.70. The Exchange also proposes to introduce a rebate for certain Initiating Participants that qualify for the ACE Program. Specifically, as proposed, those ATP Holders who qualify for Tiers 2, 3, 4 or 5 of the ACE Program would receive a \$0.12 per contract rebate for up to 5,000 Customer contracts per CUBE Order executed in a CUBE Auction (the "ACE Initiating Participant Rebate" or "Rebate"). The proposed Rebate is payable in addition to any other fees or credits accrued from the CUBE Auction (e.g., in addition to the Initiating Participant Credit for both Penny and non-Penny Pilot issues). Thus, as proposed, the maximum potential CUBE credit for Penny Pilot issues is \$0.47 (\$0.12 Rebate + \$0.35 Initiating Participant Credit) and for non-Penny Pilot issues is \$0.82 (\$0.12 Rebate + \$0.70 Initiating Participant Credit). The ACE Initiating Participant Rebate is available regardless of whether the CUBE Order trades with the Contra Order or RFR Response(s), whereas the current Initiating Participant Credits are payable only for each CUBE Order contract that does not trade with the Contra Order.

The proposed amendments to CUBE Auction pricing are designed to incentivize market participants that have committed a certain amount of volume to the Exchange to provide even more liquidity through CUBE Auctions. This additional volume and liquidity would benefit all Exchange participants through increased opportunities to trade as well as enhancing price discovery and price improvement.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁵ in general, and furthers the objectives of Sections 6(b)(4) and (5) of the Act,⁶ in particular, because it provides for the equitable allocation of reasonable dues, fees, and other charges among its members, issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers.

The Exchange believes that the proposed changes to CUBE Auction fees are reasonable, equitable and not
