SUPPLEMENTARY INFORMATION: The Federal Land Policy and Management Act (FLPMA) directs the Secretary of the Interior to involve the public in planning and issues related to management of lands administered by the BLM. Section 309 of FLPMA (43 U.S.C. 1739) directs the Secretary to establish 10- to 15-member citizen-based advisory councils that are consistent with the Federal Advisory Committee Act (FACA). As required by FACA, RAC membership must be balanced and representative of the various interests concerned with the management of the public lands. The rules governing RACs are found at 43 CFR subpart 1784 and include the following three membership categories:

Category One—Holders of Federal grazing permits and representatives of organizations associated with energy and mineral development, timber industry, transportation or rights-of-way, developed outdoor recreation, off-highway vehicle use, and commercial recreation;

Category Two—Representatives of nationally or regionally recognized environmental organizations, archaeological and historic organizations, dispersed recreation activities, and wild horse and burro organizations; and

Category Three—Representatives of State, county, or local elected office, employees of a State agency responsible for management of natural resources, representatives of Indian tribes within or adjacent to the area for which the council is organized, representatives of academia who are employed in natural sciences, and the public-at-large.

Those who have already submitted a nomination in response to the first call for nominations (published in the **Federal Register** on February 3, 2015, (80 FR 5785)) do not need to resubmit. All nominations from the first and second calls will be considered together during the review process. Individuals may nominate themselves or others. Nominees must be residents of the State in which the RAC has jurisdiction. The BLM will evaluate nominees based on their education, training, experience, and knowledge of the geographical area

of the RAC. Nominees should demonstrate a commitment to collaborative resource decision-making. The Obama Administration prohibits individuals who are currently federally registered lobbyists from being appointed or re-appointed to FACA and non-FACA boards, committees, or councils.

This request for public nominations also applies to the Carrizo Plain National Monument Advisory Committee (Committee) in California established under Presidential proclamation. The Committee advises the Secretary of the Interior in managing the Carrizo Plain National Monument.

The following must accompany all nominations for the RACs and Committee:

- Letters of reference from represented interests or organizations;
- A completed Resource Advisory Council application; and
- Any other information that addresses the nominee's qualifications.

Simultaneous with this notice, BLM State Offices will issue press releases providing additional information for submitting nominations, with specifics about the number and categories of member positions available for each RAC in the State and the Carrizo Plain National Monument Advisory Committee. Proposed Information Collection; Comment Request; Cape Lookout National Seashore Cultural Resource Values and Vulnerabilities Assessment

AGENCY: National Park Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (National Park Service) will ask the Office of Management and Budget (OMB) to approve the Information Collection (IC) described below. The National Park Service is exploring ways to reduce the risk of damage to structures and natural systems from destructive storm surge and sea level rise. We will collect information from stakeholders' about their values and perceptions of climate change-related vulnerabilities and adaptation strategies for managing cultural resources within the two historic districts (Portsmouth Village and Lookout Village) at Cape Lookout National Seashore (CALO). Stakeholders will be visitors at Portsmouth Village and Lookout Village, partner organizations, local community members with ties to the historic districts, federal, state and private cultural resource experts. This collection will be used to inform cultural resource adaptation planning efforts (*i.e.*, maintenance, sustainability and post-storm recovery of historic structures and cemeteries) related to impacts of extreme weather events. To comply with the Paperwork Reduction Act of 1995, and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC.

DATES: To ensure that your comments on this IC are considered, we must receive them on or before July 20, 2015.

ADDRESSES: Please send your comments to Phadrea Ponds, Information Collections Coordinator, National Park Service, 1201 Oakridge Drive, Fort Collins, CO 80525 (mail); or phadrea_ponds@nps.gov (email). Please reference Information Collection 1024—NEW, 2015 CALO SURVEY in the subject line.

FOR FURTHER INFORMATION CONTACT: Janet Cakir, Ph.D., NPS SER Climate Change, Socioeconomics, and Adaptation Coordinator, South Atlantic Landscape Conservation Cooperative, 1751 Varsity Dr., Raleigh, NC 27606 (mail) or janet_cakir@nps.gov (email).

I. Abstract

Managers of Cape Lookout National Seashore (CALO) are interested in identifying ways to reduce the risk of damage to coastal buildings and sensitive species from storm surge, sea level rise, and shoreline erosion anticipated over the next 20 to 30 years. Of specific interest to managers are contemporary cultural resource values and perceptions of cultural resource vulnerability and feasible adaptation strategies to sustain its cultural resources for future generations. The National Park Service (NPS) will conduct a survey of visitors to the two historic districts (Portsmouth Village and Lookout Village) at Cape Lookout National Seashore (CALO), a survey with members of CALO's partner organizations, interview local community members with connections to the historic districts, and conduct a survey with cultural resource experts from federal and state agencies and nongovernmental organizations.

The collection will be used to understand the values stakeholders place on cultural resources within the historic districts, and perceptions of strategies to adapt and respond to changes in cultural resource conditions from storms, flooding, and erosion. The information from this collection will provide NPS managers and planners with information that can be used to prepare resource management planning documents.

Lessons learned from this study may be applied to support cultural resource adaptation planning for units across the NPS system.

II. Data

OMB Control Number: None. This is a new collection.
