

collection of information . . .” Agencies must specifically solicit comments to: (a) Evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

To comply with the public consultation process, on March 26, 2015, we published a **Federal Register** notice (80 FR 16019) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 282.0 provides the OMB Control Number for the information collection requirements imposed by the 30 CFR 282, regulations. The regulation also informs the public that they may comment at any time on the collections of information and provides the address to which they should send comments. We received four comments in response to the **Federal Register**. None of the comments received were germane to the paperwork burden of this information collection renewal.

Public Availability of Comments: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Deputy Chief, Office of Offshore Regulatory Programs.

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Office of Workers' Compensation Programs is soliciting comments concerning the proposed extension of the existing collection: Health Insurance Claim Form (OWCP–1500). A copy of the proposed information collection request can be obtained by contacting the office listed below in the addresses section of this Notice.

SUPPLEMENTARY INFORMATION:

I. Background

The Office of Workers' Compensation Programs (OWCP) is the agency responsible for administration of the Federal Employees' Compensation Act (FECA), 5 U.S.C. 8101 *et seq.*, the Black Lung Benefits Act (BLBA), 30 U.S.C. 901 *et seq.*, and the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA), 42 U.S.C. 7384 *et seq.* All three of these statutes require that OWCP pay for medical treatment of beneficiaries: BLBA also requires that OWCP pay for medical examinations and related diagnostic services to determine eligibility for benefits under that statute. Form OWCP–1500 is used by OWCP and contractor bill processing staff to process bills for medical services provided by medical professionals other than medical services provided by hospitals, pharmacies and certain other medical providers. To consider the appropriateness of the requested payment in a timely fashion, it is essential that provider bills be submitted on a standard form that will capture the critical data elements needed to evaluate the bill, such as procedure and diagnosis codes. This information collection is currently approved for use through December 31, 2015.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- * minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

The Department of Labor seeks the approval of the extension of this currently approved information collection in order to carry out its responsibility to provide payment for certain covered medical services to eligible employees who are covered under FECA, BLBA or EEOICPA.
