**Defense Federal Acquisition Regulation Supplement: Defense Contractors Outside the United States—Subpart Relocation (DFARS Case 2015–D015)**

**AGENCY:** Defense Acquisition Regulations System, Department of Defense (DoD).

**ACTION:** Final rule.

**SUMMARY:** DoD is issuing a final rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to relocate the text of a DFARS subpart in order to conform with the Federal Acquisition Regulation (FAR) and to make minor related editorial revisions.

**DATES:** Effective June 26, 2015.

**FOR FURTHER INFORMATION CONTACT:** Ms. Kyoung Lee, telephone 571–372–6176.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

In order to conform the DFARS with the FAR, this rule moves, with minor editorial changes, the text of DFARS subpart 225.74, Defense Contractors

Outside the United States, to DFARS subpart 225.3, Contracts Performed Outside the United States. In addition, this rule revises the introductory texts of the clauses at DFARS 252.225–7040, Contractor Personnel Supporting U.S. Armed Forces Deployed Outside the United States, and 252.225–7043, Antiterrorism/Force Protection for Defense Contractors Outside the United States, to reflect the changed location of the prescriptions for use of those clauses, and makes a minor editorial change to the text of each of the clauses. This rule also revises DFARS subparts 204.8, 212.3, and 242.3 to revise references to the DFARS text that has been relocated from DFARS subpart 225.74 to DFARS subpart 225.3.

## II. Publication of This Final Rule for Public Comment Is Not Required by Statute

“Publication of proposed regulations”, 41 U.S.C. 1707, is the statute which applies to the publication of the Federal Acquisition Regulation. Paragraph (a)(1) of the statute requires that a procurement policy, regulation, procedure or form (including an amendment or modification thereof) must be published for public comment if it relates to the expenditure of appropriated funds, and has either a significant effect beyond the internal operating procedures of the agency issuing the policy, regulation, procedure or form, or has a significant cost or administrative impact on contractors or offerors. This final rule only relocates existing text within the DFARS, makes corresponding revisions to references related to that text, and makes a minor editorial change to two clauses. This final rule is not required to be published for public comment, because it has no effect beyond the internal operating procedures of DoD, and the rule has no cost or administrative impact on contractors or offerors.

## III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and

Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

## IV. Regulatory Flexibility Act

The Regulatory Flexibility Act does not apply to this rule because this final rule does not constitute a significant DFARS revision within the meaning of FAR 1.501–1, and 41 U.S.C. 1707 does not require publication for public comment.

## V. Paperwork Reduction Act

The rule contains information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35); however, these changes to the DFARS do not impose additional information collection requirements to the paperwork burden previously approved under OMB Control Number 0704–0460, entitled Synchronized Predeployment and Operational Tracker (SPOT) System.

- (1) Establishment or maintenance of a safe and secure environment; or
- (2) Provision of emergency infrastructure reconstruction, humanitarian relief, or essential governmental services (until feasible to transition to local government).

#### 225.371–2 Definition.

“Designated operational area” is defined in the clause at 252.225–7040. See PGI 225.371–2 for additional information on designated operational areas.

**225.371–3 Government support.**

(a) Government support that may be authorized or required for contractor personnel performing in a designated operational area may include, but is not limited to, the types of support listed in PGI 225.371–3(a).

(b) The agency shall provide logistical or security support only when the appropriate agency official, in accordance with agency guidance, determines in coordination with the combatant commander that—

(1) Such Government support is available and is needed to ensure continuation of essential contractor services; and

(2) The contractor cannot obtain adequate support from other sources at a reasonable cost.

(c) The contracting officer shall specify in the solicitation and contract—

(1) Valid terms, approved by the combatant commander, that specify the responsible party, if a party other than the combatant commander is responsible for providing protection to the contractor personnel performing in the designated operational area; and

(2) Any other Government support to be provided, and whether this support will be provided on a reimbursable basis, citing the authority for the reimbursement.

(d) *Medical support of contractor personnel.* The contracting officer shall provide direction to the contractor when the contractor is required to reimburse the Government for medical treatment or transportation of contractor personnel to a selected civilian facility in accordance with paragraph (c)(2)(ii) of the clause at 252.225–7040. For additional information, see PGI 225.371–3(d).

(e) *Letter of authorization.* Contractor personnel must have a Synchronized Predeployment and Operational Tracker (SPOT)-generated letter of authorization (LOA) signed by the contracting officer in order to process through a deployment center or to travel to, from, or within the designated operational area. The LOA also will identify any additional authorizations, privileges, or Government support that the contractor personnel are entitled to under the contract. For additional information on LOAs, see PGI 225.371–3(e).

**225.371–4 Law of war training.**

(a) *Basic training.* Basic law of war training is required for all contractor personnel supporting U.S. Armed Forces deployed outside the United States. The basic training normally will be provided through a military-run training center. The contracting officer may authorize the use of an alternate

basic training source, provided the servicing DoD legal advisor concurs with the course content. An example of an alternate source of basic training is the web-based training provided by the Defense Acquisition University at <https://acc.dau.mil/CommunityBrowser.aspx?id=18014&lang=en-US>.

(b) *Advanced law of war training.* (1) The types of personnel that must obtain advanced law of war training include the following:

**225.371–5 Contract clauses.**

(a) Use the clause at 252.225–7040, Contractor Personnel Supporting U.S. Armed Forces Deployed Outside the United States, instead of the clause at FAR 52.225–19, Contractor Personnel in a Designated Operational Area or Supporting a Diplomatic or Consular Mission Outside the United States, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, for performance in a designated operational area that authorize contractor personnel (including both contractors authorized to accompany the Force (CAAF) and non-CAAF) to support U.S. Armed Forces deployed outside the United States in—

(1) Contingency operations;

(2) Humanitarian assistance operations;

(3) Peace operations consistent with Joint Publication 3–07.3; or

(4) Other military operations or military exercises, when designated by the combatant commander or as directed by the Secretary of Defense.

### Defense Federal Acquisition Regulation Supplement: Inflation Adjustment of Acquisition-Related Thresholds (DFARS Case 2014–D025)

**AGENCY:** Defense Acquisition Regulations System, Department of Defense (DoD).

**ACTION:** Final rule.

**SUMMARY:** DoD is issuing a final rule amending the Defense Federal Acquisition Regulation Supplement

(DFARS) to implement the inflation adjustment of acquisition-related dollar thresholds. A statute requires an adjustment every five years of acquisition-related thresholds for inflation using the Consumer Price Index for all urban consumers, except for the Construction Wage Rate Requirements statute (formerly Davis-Bacon Act), Service Contract Labor Standards statute, and trade agreements thresholds. DoD also used the same methodology to adjust nonstatutory DFARS acquisition-related thresholds.

**DATES:** *Effective Date:* October 1, 2015.

**FOR FURTHER INFORMATION CONTACT:** Ms. Amy G. Williams, telephone 571–372–6106.

### SUPPLEMENTARY INFORMATION:

#### I. Background

This rule amends multiple DFARS parts to further implement 41 U.S.C. 1908. Section 1908 requires an adjustment every five years (on October 1 of each year evenly divisible by five) of statutory acquisition-related thresholds for inflation, using the Consumer Price Index (CPI) for all urban consumers, except for the Construction Wage Rate Requirements statute (Davis-Bacon Act), Service Contract Labor Standards statute, and trade agreements thresholds (see DFARS 201.109). As a matter of policy, DoD also uses the same methodology to adjust nonstatutory FAR acquisition-related thresholds.

DoD published a proposed rule in the **Federal Register** at 79 FR 65912 on November 6, 2014. The preamble to the proposed rule contained detailed explanation of—

- What an acquisition-related threshold is;
- What acquisition-related thresholds are not subject to escalation adjustment under this case; and
- How DoD analyzes statutory and non-statutory acquisition-related thresholds.

No respondents submitted public comments in response to the proposed rule.

Although there were no changes between the proposed rule and the final rule as the result of public comments, some of the thresholds in the final rule are lower than proposed, due to lower inflation than was projected at the time of publication of the proposed rule. The proposed rule was based on a projected CPI of 245 for March 2015. The final rule is based on an actual CPI of 236.119 for March 2015. The CPI as of the end of March, 6 months before the effective date of the rule, is used as the cutoff in order to allow time for approval and publication of the final rule.

Because the actual CPI index for March 2015 is about 10 points lower than the CPI index projected for that date at the time of the proposed rule, thresholds of at least 10 million dollars are generally proportionally lower than the proposed thresholds. Thresholds of less than \$10 million are frequently unchanged, due to rounding.

There were some baseline changes due to other DFARS cases. For example, there are baseline changes to subpart 217.1, and the clauses at DFARS 252.203–7004 and 252.209–7004 have been amended since publication of the proposed rule. DFARS 232.502–1(b)(1) and the clause at DFARS 252.225–7006, including the associated thresholds, have been deleted under other DFARS cases.

#### II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

#### III. Regulatory Flexibility Act

A final regulatory flexibility analysis has been prepared consistent with the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, and is summarized as follows:

This rule amends the Defense Federal Acquisition Regulation Supplement to implement 41 U.S.C. 1908 and to amend other acquisition-related dollar thresholds that are based on policy rather than statute in order to adjust for the changing value of the dollar. 41 U.S.C. 1908 requires adjustment every five years of statutory acquisition-related dollar thresholds, except for Construction Wage Rate Requirements statute (Davis-Bacon Act), Service Contract Labor Standards statute, and trade agreements thresholds. While reviewing all statutory acquisition-related thresholds, this case presented an opportunity to also review all nonstatutory acquisition-related thresholds in the DFARS that are based on policy. The objective of the case is to maintain the status quo, by adjusting
