FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1054]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burden and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information burden for small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before September 21, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email *PRA@ fcc.gov* and to *Cathy.Williams@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–1054.

Title: Application for Renewal of an International Broadcast Station License.

Form No.: FCC Form 422–IB.

Type of Review: Extension of a currently approved information

collection.

Respondents: Business or other forprofit entities.

Number of Respondents: 10 respondents; 50 responses.

Estimated Time per Response: 1–8 hours per response.

Frequency of Response: On occasion reporting requirement; Recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 154, 303, 334, 336 and 339.

Total Annual Burden: 160 hours. Annual Cost Burden: \$36,000. Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: This collection will be submitted to the Office of Management and Budget (OMB) as an extension following the 60-day comment period in order to obtain the full three-year clearance from OMB.

The Federal Communications Commission ("Commission") plans to implement and release to the public an "Application for Renewal of an International Broadcast Station License (FCC Form 422-IB)." The form has not been implemented yet due to a lack of budget resources and technical staff. After the FCC Form 422-IB has been implemented and the Commission receives final approval from OMB, applicants will complete the FCC Form 422-IB in lieu of the "Application for Renewal of an International or **Experimental Broadcast Station** License," (FCC Form 311). In the interim, applicants will continue to file the FCC Form 311 with the Commission. (Note: The OMB approved the FCC Form 311 under OMB Control No. 3060-1035).

The Commission stated previously that the FCC Form 422–IB will be available to applicants in the International Bureau Filing System ("IBFS") after it is implemented.

However, the Commission plans to develop a new licensing system within the next five years that will replace IBFS. Therefore, the FCC Form 422–IB will be made available to the public in CLS instead of IBFS.

The information collected pursuant to the rules set forth in 47 CFR part 73, subpart F, is used by the Commission to assign frequencies for use by international broadcast stations, to grant authority to operate such stations and to determine if interference or adverse propagation conditions exist that may impact the operation of such stations. If the Commission did not collect this information, it would not be in a position to effectively coordinate spectrum for international broadcasters or to act for entities in times of frequency interference or adverse propagation conditions. The orderly nature of the provision of international broadcast service would be in jeopardy without the Commission's involvement.

Federal Communications Commission.
